MONTANA REVISED CODES

TITLE 57—NUISANCES

CHAPTER 1—NUISANCES PUBLIC AND PRIVATE—REMEDIES

57-101. (8642) Nuisance defined.

Sufficiency of Complaint Stating Course of Action for Nuisance

Where negligence is an element of nuisance, the fact that plaintiff pleads both

negligence and nuisance as independent causes of action does not make pleading a sham. *Ekwortzel v. Parker*, 156 M 477, 482 P 2d 559.

57-102. (8643) Public nuisance.

Dangerous Dog

Where three-year-old child was killed by Siberian Husky dog that was chained on unfenced private property which was not

within boundaries of any city or town, dog could not be declared public nuisance and "abated." State ex rel. *Fields v. District Court*, — M —, 541 P 2d 66.

57-111. (8652) Public nuisance—how abated.

Exhaustion of Administrative Remedies

Where defendant owned motel which had outdoor sign with flashing lights less than 660 feet from highway, contrary to law, county attorney could not enjoin and

abate sign as public nuisance until he had exhausted his administrative remedies pursuant to section 32-4722. State ex rel. *Jones v. Giles*, — M —, 541 P 2d 355.

TITLE 58—OBLIGATIONS

Chapter

6. Obligations imposed by law, 58-607.1, 58-607.2.

CHAPTER 2—JOINT AND SEVERAL, CONDITIONAL AND ALTERNATE OBLIGATIONS

58-206. (7402) Condition precedent.

"Condition Precedent"

Where plaintiff leased a truck to defendant and later brought suit for rent due and unpaid, plaintiff's performance of his part of the lease agreement was not

a condition precedent within meaning of this section, and need not be alleged in the complaint. *McEwen v. Big Sky of Montana, Inc.*, — M —, 545 P 2d 665.

CHAPTER 4—EXTINCTION OF OBLIGATIONS BY PERFORMANCE, OFFER OF PERFORMANCE AND PREVENTION OF PERFORMANCE

58-423. (7446) Extinction of pecuniary obligation.

Substantial Compliance

Judgment debtor's deposit in a savings account in judgment creditor's name of amount of trial court's recomputed award extinguished its obligation so that interest

did not continue to run even though deposit did not include interest already accrued and original, higher award was reinstated on appeal. *Resner v. Northern Pacific Ry.*, — M —, 505 P 2d 86.

58-424. (7447) Objections to mode of offer.

Acts Constituting Waiver

Party who was obligated to sell shares of stock under repurchase agreement waived objections to tender by failing to object to terms of tender, conduct evidenc-

ing his willingness to sell and requesting a change in payment terms. *State ex rel. Howeth v. D. A. Davidson & Co.*, — M —, 517 P 2d 722.

CHAPTER 6—OBLIGATIONS IMPOSED BY LAW

Section

58-607.1. Contributory negligence—when bars recovery.

58-607.2. Multiple defendants jointly and severally liable—right of contribution.

58-607. (7579) Responsibility for willful acts, negligence, etc.

Purpose of Statute

The purpose of this statute is twofold: (1) to fix primary responsibility and liability on the tort-feasor whose conduct occasioned the loss or injury and (2) to make the victim whole. *Haynes v. County of Missoula*, 163 M 270, 517 P 2d 370, 377, 69 ALR 3d 1008.

Release Void as Contrary to Public Policy

This section together with sections 13-801 (2) and 49-105 were broad enough to render illegal any exculpatory clause or release relieving a potential tort-feasor from all liability for future negligent con-

duct where such clause or release was contrary to public policy or against the public interest; release relieving county fair board from any liability to livestock while on fairgrounds was illegal and unenforceable as contrary to public policy and against public interest and precluded county from disclaiming liability in negligence action for exhibitor's horses killed in barn fire on county fairgrounds; suppression of release in exhibitor's negligence action was not error or ground for new trial. *Haynes v. County of Missoula*, 163 M 270, 517 P 2d 370, 69 ALR 3d 1008.

Res Ipsa Loquitur

Four elements are necessary in *res ipsa loquitur* cases: (1) defendant's exclusive knowledge of the cause of the accident; (2) lack of fault by the injured person; (3) causation of injury by the negligence of the defendant; and (4) the defendant's exclusive control at the time of the injury of the instrument which caused the injury. *Hash v. Montana Power Co.*, — M —, 524 P 2d 1092.

The doctrine of *res ipsa loquitur* does not apply to a fire that started at an electrical meter box attached to plaintiff's building, where the exact cause of the fire had not been determined, and the plaintiff was in control of the circuit breakers and electrical devices within the building,

and the meter box was vulnerable to the entry of moisture, dust, and foreign objects, and there was a dearth of any evidence that the fire would not have happened without negligence on the part of the defendant. *Hash v. Montana Power Co.*, — M —, 524 P 2d 1092.

Sudden Emergency

The court properly instructed the jury in the doctrine of sudden emergency, where a driver who was legally passing a logging truck which suddenly turned left in front of her, was too close to stop, and so chose to dodge between the truck and another vehicle in order to avoid a collision. *Beebe v. Johnson*, — M —, 526 P 2d 128.

58-607.1. Contributory negligence—when bars recovery. Contributory negligence shall not bar recovery in an action by any person or his legal representative to recover damages for negligence resulting in death or injury to person or property, if such negligence was not greater than the negligence of the person against whom recovery is sought, but any damages allowed shall be diminished in the proportion to the amount of negligence attributable to the person recovering.

History: En. 58-607.1 by Sec. 1, Ch. 60, L. 1975.

Title of Act

An act relating to contributory negligence.

Prospective Effect Only

This statute constitutes a change in the

substantive law, and, therefore, since there is no express declaration that the legislature intended it to be of retroactive effect, section 12-201 prohibits its application to a claim arising before its effective date. *Dunham v. Southside Nat. Bank of Missoula*, — M —, 548 P 2d 1383.

58-607.2. Multiple defendants jointly and severally liable—right of contribution. (1) Whenever the comparative negligence of the parties in any action is an issue and recovery is allowed against more than one party, each such party is jointly and severally liable for the amount awarded to the claimant but has the right of contribution from any other party against whom recovery is allowed. Contribution shall be proportional to the negligence of the parties against whom recovery is allowed.

(2) If for any reason all or part of the contribution from a party liable for contribution cannot be obtained, each of the other parties against whom recovery is allowed is liable to contribute a proportional part of the unpaid portion of the noncontributing party's share and may obtain judgment in a pending or subsequent action for contribution from the noncontributing party.

History: En. 58-607.2 by Sec. 1, Ch. 433, L. 1977.

Title of Act

An act to provide that multiple defendants in negligence actions contribute to payment of the judgment in proportion to their comparative negligence and to specify the applicability of that provision.

Applicability of Act

Section 2 of Ch. 433, Laws 1977 read "This act applies to any cause of action which accrued after July 1, 1975, but which has not yet been determined by trial or judgment in the district court as of July 1, 1977."

Amendments

Compiler's Notes

This section was amended twice in 1973, once by Ch. 9, and once by Ch. 94. Neither amendatory act mentioned the other, but Ch. 9 incorporated the only change made by Ch. 94. Since the amendments do not appear to conflict, the compiler has used the language of Ch. 9, which embodies the changes made by both amendments.

(b) the powers conferred and the duties to be discharged must be defined, directly or impliedly, by the constitution, the legislature, or by a political subdivision through legislative authority;

L. 1977.

59-919. Allocation between wages and health insurance. (1) The dollar amounts shown in the respective matrices in 59-917 and 59-918 represent the maximum amount allocated by the state for wages and health insurance benefits, exclusive of longevity as defined in 59-920. Except as provided in subsection (2) of this section, that amount specifically allocated for health insurance benefits shall be determined by 11-1024. An employee who elects not to be covered by a state health insurance plan will receive as wages the amount shown in the appropriate matrix less the state contribution for health insurance as determined by 11-1024.

(2) Employees may, through collective bargaining, determine the allocation of the amounts shown in the matrices of 59-917 and 59-918 between wages and health insurance benefits, except that in no case may the health insurance allocation be less than the amounts provided in 11-1024.

History: En. 59-919 by Sec. 5, Ch. 563,
L. 1977.

59-920. Longevity allowance. In addition to the compensation determined above, each employee who has completed at least 5 years of uninterrupted state service shall receive the amount obtained by multiplying the larger of \$10 a month or 10% of the difference between the base compensation for his grade and step and the base compensation for the corresponding step in the next highest grade by the number of completed, contiguous 5-year periods of uninterrupted service he has

with the state. Service to the state may not be considered to have been interrupted by authorized leaves of absence.

History: En. 59-920 by Sec. 6, Ch. 563,
L. 1977.

59-921. Exceptions for collective bargaining. (1) The procedure established in this act for increasing compensation for state employees is in lieu of and supersedes any other such plans or systems except those plans negotiated with the blue collar crafts and teachers in accordance with provisions of Title 59, chapter 16. The total amount of compensation which may be used to implement any such plan may not exceed the total amount of funding that would be required to fund application of the matrices in 59-917 and 59-918 to the employees covered by the negotiated plan.

(2) A member of a bargaining unit may receive negotiated increases in compensation only after the bargaining unit has ratified the negotiated plan or system for the biennium. Should such negotiations and subsequent ratification process not be completed by the beginning of the biennium, retroactivity to the beginning of the biennium shall be negotiable.

History: En. 59-921 by Sec. 7, Ch. 563,
L. 1977.

59-922. Rules. The department of administration, subject to approval by the budget director, may promulgate rules not inconsistent with the provisions of this act, collective bargaining statutes or negotiated contracts, to carry out the purposes of the act.

History: En. 59-922 by Sec. 8, Ch. 563,
L. 1977.

Appropriation

Section 9 of Ch. 563, Laws 1977 read "There is appropriated to the budget director \$2,208,225 for the fiscal year ending June 30, 1978, and \$4,902,600 for the fiscal year ending June 30, 1979, from the state general fund to carry out the provisions of this act as it pertains to executive branch agencies, not including units of the university system. The budget director is authorized to increase the expenditure authority of executive branch

agencies, not including units of the university system, by \$3,581,692 for the fiscal year ending June 30, 1978, and by \$8,097,724 for the fiscal year ending June 30, 1979, from funds other than the state general funds which accrue under provisions of law to the respective agencies to carry out the provisions of this act."

Reversion

Section 10 of Ch. 563, Laws 1977 read "Appropriated funds not spent at the end of the fiscal year shall revert to the fund from which they were appropriated."

- 59-1005. Absence because of illness not chargeable against vacation unless approved by employee.
- 59-1007.1. Definitions.
- 59-1008. Sick leave.
- 59-1009. Observance of holiday falling on an employee's day off.

59-1001. Annual vacation leave. (1) Each full-time employee of the state, or any county or city thereof is entitled to and shall earn annual vacation leave credits from the first full pay period of employment. For calculating vacation leave credits two thousand eighty (2,080) hours (52 weeks x 40 hours) shall equal one (1) year. Proportionate vacation leave credits shall be earned and credited at the end of each pay period. However, employees are not entitled to any vacation leave with pay until they have been continuously employed for a period of six (6) calendar months. Persons regularly employed nine (9) or more months each year, but whose continuous employment is interrupted by the seasonal nature of the position, shall earn vacation credits. However, such persons must be employed six (6) qualifying months before they can use the vacation credits. In order to qualify, such employees must immediately report back for work when operations resume in order to avoid a break in service.

(2) A period of absence from employment with the state, county, or city occurring either during a war involving the United States or in any other national emergency and for 90 days thereafter for one of the following reasons is considered as service for the purpose of determining the number of years of employment used in calculating vacation leave credits under this section:

Public Library Employees

Notwithstanding the fact that under the Library Systems Act, 44-212 et seq., the library board had certain supervisory powers, including the right (under 44-223) to "employ and discharge such other persons as may be necessary in the administration of the affairs of the library," the city by which the library was organized, rather than the board, was the employer of library personnel for purposes of this act, and a librarian discharged in contravention of the collective bargaining agreement between the city and the municipal employees' union, of which she was a member, was entitled to the remedies provided in that agreement. Local 2390 of American Federation of State, County, Municipal Employees, A.F.L.-C.I.O. v. City of Billings, — M —, 555 P 2d 507.

59-1603. Employees' right to join or form labor organization and engage in collective bargaining activities. (1) Public employees shall have, and shall be protected in the exercise of, the right of self-organization, to form, join or assist any labor organization, to bargain collectively through representatives of their own choosing on questions of wages, hours, fringe benefits, and other conditions of employment and to engage in other concerted activities for the purpose of collective bargaining or other mutual aid or protection, free from interference, restraint or coercion.

(2) Public employees and their representatives shall recognize the prerogatives of public employers to operate and manage their affairs in such areas as but not limited to:

- (a) direct employees;
- (b) hire, promote, transfer, assign, and retain employees;
- (c) relieve employees from duties because of lack of work or funds or under conditions where continuation of such work be inefficient and nonproductive;
- (d) maintain the efficiency of government operations;
- (e) determine the methods, means, job classifications, and personnel by which government operations are to be conducted;
- (f) take whatever actions may be necessary to carry out the missions of the agency in situations of emergency;
- (g) establish the methods and processes by which work is performed.

(3) Labor organizations designated in accordance with the provisions of this act are responsible for representing the interest of all employees in the exclusive bargaining unit without discrimination for the purposes of collective bargaining with respect to rates of pay, hours, fringe benefits, and other conditions of employment.

(4) Certification as an exclusive representative shall be extended or continued as the case may be only to a labor or employee organization the written bylaws of which provide for and guarantee the following rights and safeguards and whose practices conform to such rights and safeguards as: provisions are made for democratic organization and procedures; elections are conducted pursuant to adequate standards and safeguards; controls are provided for the regulation of officers and agents having fiduciary responsibility to the organization; and requirements exist for maintenance of sound accounting and fiscal controls including annual audits.

(5) No public employee who is a member of a bona fide religious sect, or division thereof, the established and traditional tenets or teachings of which oppose a requirement that a member of such sect or division join or financially support any labor organization, may be required to join or financially support any labor organization as a condition of employment, if such public employee pays, in lieu of periodic union dues, initiation fees, and assessments, at the same time or times such periodic union dues, initiation fees, and assessments would otherwise be payable, a sum of money equivalent to such periodic union dues, initiation fees, and assessments, to a nonreligious, nonunion charity designated by the labor organization. Such public employee shall furnish to such labor organization written receipts evidencing such payments and failure to make such payments or furnish such receipts shall subject the employee to the same sanctions as would nonpayment of dues, initiation fees or assessments under the applicable collective bargaining agreement.

A public employee desiring to avail himself or herself to the right of nonassociation with a labor organization as provided in this subsection shall make written application to the chairman of the board of personnel appeals. Within ten days of the date of receipt of such application, the chairman shall appoint a committee of three (3) consisting of a clergyman not connected with the sect in question, a labor union official not directly connected with the labor organization in question and a member of the public at large, who shall be the chairman. The committee shall, within ten (10) days of the date of its appointment, meet at the locale of either the employee's residence or place of employment and, after receiving written or oral presentations from all interested parties, determine by a majority vote whether or not such public employee qualifies for the right of nonassociation with such labor organization. The committee's decision shall be made in writing within three (3) days of the meeting date and a copy thereof shall be forthwith mailed to such public employee, labor organization and the chairman of the board of personnel appeals.

Amendments

The 1974 amendment added subsection (5).

Concerted Activities

The phrase "concerted activities" in-

Right to Strike

Employees under Montana's Collective Bargaining Act are not prohibited from striking. If the legislature had intended to limit their right to strike, it could have

so expressly provided, as it has provided of Highways v. Public Employees Craft
in other occupations. State, Department Council, — M —, 529 P 2d 785.

59-1604. Duty to bargain collectively—good faith. The public employer and the exclusive representative, through appropriate officials or their representatives, shall have the authority and the duty to bargain collectively. This duty extends to the obligation to bargain collectively in good faith as set forth in subsection (3) of section 5 [59-1605] of this act.

History: En. Sec. 4, Ch. 441, L. 1973.

DECISIONS UNDER FORMER LAW

Good Faith Effort

The negotiation of a master agreement was not a condition precedent to the issuance of individual teacher contracts, and if there had been a good faith effort to reach agreement, injunction would not lie to prevent school board from issuing individual teacher contracts. State ex rel. Billings Education Assn. v. District Court, — M —, 531 P 2d 685.

59-1605. Unfair labor practices of employer or labor organization. (1) It is an unfair labor practice for a public employer to:

(a) interfere with, restrain, or coerce employees in the exercise of the rights guaranteed in section 59-1603 of this act;

(b) dominate, interfere, or assist in the formation or administration of any labor organization; however, subject to rules adopted by the board under section 59-1613 (4), an employer is not prohibited from permitting employees to confer with him during working hours without loss of time or pay;

(c) discriminate in regard to hire or tenure of employment or any term or condition of employment to encourage or discourage membership in any labor organization; however, nothing in this act or in any other statute of this state precludes a public employer from making an agreement with an exclusive representative to require that an employee who is not or does not become a union member shall be required as a condition of employment to have an amount equal to the union initiation fee and monthly dues deducted from his wages in the same manner as checkoff of union dues;

(d) discharge or otherwise discriminate against an employee because he has signed or filed an affidavit, petition, or complaint or given any information or testimony under this act;

(e) refuse to bargain collectively in good faith with an exclusive representative.

(2) It is an unfair labor practice for a labor organization or its agents to:

(a) restrain or coerce employees in the exercise of the right guaranteed in subsection (1) of section 59-1603 of this act, or a public employer in the selection of his representative for the purpose of collective bargaining or the adjustment of grievances;

(b) refuse to bargain collectively in good faith with a public employer, if it has been designated as the exclusive representative of employees;

(c) use agency shop fees for contributions to political candidates or parties at state or local levels.

(3) For the purpose of this act, to bargain collectively is the performance of the mutual obligation of the public employer, or his designated representatives, and the representatives of the exclusive representative to meet at reasonable times and negotiate in good faith with respect to wages, hours, fringe benefits, and other conditions of employment, or the negotiation of an agreement, or any question arising thereunder, and the execution of a written contract incorporating any agreement reached. Such obligation does not compel either party to agree to a proposal or require the making of a concession.

(4) For purposes of state government only, the requirement of negotiating in good faith may be met by the submission of a negotiated settlement to the legislature in the executive budget, or by bill or joint resolution. The failure to reach a negotiated settlement for submission is not, by itself, prima facie evidence of a failure to negotiate in good faith.

(5) This act does not limit the authority of the legislature, any political subdivision or the governing body, relative to appropriations for salary and wages, hours, fringe benefits, and other conditions of employment.

Compiler's Notes

This section was amended twice in 1975, once by Ch. 36 and once by Ch. 97. It was also purported to be amended by Ch. 384, but that chapter made no change in the language. None of the amendatory acts mentioned the others. Since the amendments do not appear to conflict, the compiler has made a composite section embodying the changes made by Ch. 36 and Ch. 97.

Amendments

Chapter 36, Laws of 1975, substituted "section 59-1613(4)" for "section 3[59-

1603]"; and substituted "section 59-1613(4)" for "section 12(3)" in subsection (1).

Chapter 97, Laws of 1975, substituted "section 59-1603" for "section 3[59-1603]" in subsection (2); inserted subsection (4); and redesignated former subsection (4) as (5).

Chapter 384, Laws of 1975, made no change in the section.

Effective Dates

Section 2 of Ch. 36, Laws 1975 provided the act should be in effect from and after its passage and approval. Approved March 7, 1975.

Section 3 of Ch. 384, Laws 1975 provided the act should be in effect from and after its passage and approval. Approved April 10, 1975.

59-1606. Petition on representation matters — hearing — notice — election. (1) Whenever in accordance with such rules as may be prescribed by the board, a petition has been filed:

(a) by an employee or group of employees or any labor organization acting in their behalf alleging that thirty per cent (30%) of the employees:

(i) wish to be represented for collective bargaining by a labor organization as exclusive representative, or

(ii) assert that the labor organization which has been certified or is currently being recognized by the public employer as bargaining representative is no longer the representative of the majority of employees in the unit; or

(b) by the public employer alleging that one or more labor organizations has presented to it a claim to be recognized as the exclusive representative in an appropriate unit, the board or an agent of the board shall investigate the petition, and if it has reasonable cause to believe that a question of representation exists, it shall provide for an appropriate hearing upon due notice. In this hearing the board is not bound by common law and statutory rules of evidence. If the board or an agent of the board finds that there is a question of representation, it shall direct an election by secret ballot to determine whether, and by which labor organization the employees desire to be represented or whether they desire to have no labor organization represent them and shall certify the results thereof. Only those labor organizations which have been designated by more than ten per cent (10%) of the employees in the unit found to be appropriate shall be placed on the ballot. Nothing in this section prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the rules of the board.

(2) In order to assure employees the fullest freedom in exercising the rights guaranteed by this act, the board or an agent of the board shall decide the unit appropriate for the purpose of collective bargaining, and shall consider such factors as community of interest, wages, hours, fringe benefits, and other working conditions of the employees involved, the history of collective bargaining, common supervision, common personnel policies, extent of integration of work functions and interchange among employees affected, and the desires of the employees.

(3) An election shall not be directed in any bargaining unit or in any subdivision thereof within which, in the preceding twelve (12) month period, a valid election has been held. The board or an agent of the board shall determine who is eligible to vote in the election and shall establish rules governing the election. Unless the majority vote is for no representation by a labor organization and in any election where none of the choices for a representative on the ballot receives a majority, a runoff election shall be conducted; the ballot providing for selection between the two choices receiving the largest and the second largest number of valid votes cast in the election. A labor organization which receives the majority of the votes cast in an election shall be certified by the board as the exclusive representative.

Amendments

The 1975 amendment inserted "In this hearing the board is not bound by common law and statutory rules of evidence" in subdivision (1)(b).

Section 2 of Ch. 136, Laws 1975 provided the act should be in effect from and after its passage and approval. Approved March 25, 1975.

59-1607. Remedies for unfair labor practice—hearing—procedure. Violations of the provisions of section 5 [59-1605] of this act are unfair labor practices remediable by the board in the following manner:

(1) Whenever a complaint is filed alleging that any person has engaged in or is engaging in any such unfair labor practice, the board, or any agent designated by the board for such purposes, shall issue and

cause to be served upon the person a copy of the complaint and a notice of hearing before the board, a member thereof, or before a designated agent, at a time and place therein fixed, not less than five (5) working days after the date of service. Any complaint may be amended by the complainant at any time prior to the issuance of an order based thereon, provided that the charged party is not unfairly prejudiced thereby. The person upon whom the charge is served shall file an answer to the complaint. The complainant and the person charged shall be parties and shall appear in person or otherwise give testimony at the place and time fixed in the notice of hearing. In the discretion of the board or its agent conducting the hearing, any other person may be allowed to intervene in the proceeding and present testimony. In any hearing the board is not bound by the rules of evidence prevailing in the courts.

(2) The testimony taken by the board or its agent shall be reduced to writing and filed with the board. Thereafter in its discretion the board upon notice may take further testimony or hear argument. If upon the preponderance of the testimony taken the board is of the opinion that any person named in the complaint has engaged in or is engaging in an unfair labor practice, it shall state its findings of fact and shall issue and cause to be served on the person an order requiring him to cease and desist from the unfair labor practice, and to take such affirmative action including reinstatement of employees with or without back pay, as will effectuate the policies of this act. The order may further require the person to make reports from time to time showing the extent to which he has complied with the order. If upon the preponderance of the testimony taken the board is not of the opinion that the person named in the complaint has engaged in or is engaging in the unfair labor practice, then the board shall state its findings of fact and shall issue an order dismissing the complaint. No notice of hearing shall be issued based upon any unfair labor practice more than six (6) months before the filing of the charge with the board, unless the person aggrieved thereby was prevented from filing the charge by reason of service in the armed forces, in which event the six (6) month period shall be computed from the day of his discharge. No order of the board shall require the reinstatement of any individual as an employee who has been suspended or discharged, or the payment to him of any back pay, if it is found that the individual was suspended or discharged for cause. If the evidence is presented before a member of the board, or before an examiner, the member, or the examiner as the case may be, shall issue and cause to be served on the parties to the proceeding a proposed decision, together with a recommended order, which shall be filed with the board, and if no exceptions are filed within twenty (20) days after service thereof upon the parties, or within such further period as the board may authorize, the recommended order shall become the order of the board.

(3) Until the record in a proceeding has been filed in district court, the board at any time, upon reasonable notice and in such manner as it considers proper, may modify or set aside, in whole or in part, any finding or order made or issued by it.

History: En. Sec. 7, Ch. 441, L. 1973.

59-1608. Petition for enforcement of board order—jurisdiction of district court—procedure—finding by board—review. (1) The board or the complaining party may petition for the enforcement of the order of the board and for appropriate temporary relief or a restraining order, and shall file in the district court, at its own expense, the record in the proceedings. Upon the filing of the petition, the district court shall have jurisdiction of the proceeding. Thereafter, the district court shall set the matter for hearing and shall order the party charged to be served with notice of hearing at least twenty (20) days before the date set for hearing. After the hearing the district court shall issue its order granting such temporary or permanent relief or restraining order as it considers just and proper, enforcing as so modified, or setting aside in whole or in part the order of the board. No objection that has not been raised before the board shall be considered by the court, unless the failure or neglect to raise the objection is excused because of extraordinary circumstances. The findings of the board with respect to questions of fact, if supported by substantial evidence on the record considered as a whole, shall be conclusive. If either party applies to the court for leave to present additional evidence and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to present it in the hearing before the board, the court may order the additional evidence to be taken before the board and to be made part of the record. The board may modify its findings as to the facts, or make new findings, by reason of additional evidence so taken and filed, and it shall file the modifying or new findings with the district court. Any order of the district court shall be subject to review by the supreme court in accordance with rules of civil procedure.

(2) The commencement of proceedings under subsection (1) of this section shall not, unless specifically ordered by the court, operate as a stay of the board's order.

(3) An agreement between the public employer and a labor organization shall be valid and enforced under its terms when entered into in accordance with the provisions of this act and signed by the chief executive officer of the state or political subdivision or commissioner of higher education, or his representative. A publication of the agreement is not required to make it effective. The procedure for the making of an agreement between the state or political subdivision and a labor organization provided by this act is the exclusive method of making a valid agreement for public employees represented by a labor organization.

(2) In cases of neglect or refusal to obey a subpoena issued to any person, the district court of the county in which the investigations or the public hearings are taking place, or the district court of the first judicial district of this state, upon application by the board, may issue an order requiring such person to appear before the board or agent to produce evidence or give testimony about the matter under investigation. Failure to obey such order may be punished by the court as contempt.

(3) Any subpoena, notice of hearing or other process or notice of the board issued under the provisions of this act shall be served as provided by the rules of civil procedure.

(4) The board shall adopt, amend, or rescind such rules it considers necessary and administratively feasible to carry out the provisions of this act.

History: En. Sec. 13, Ch. 441, L. 1973.

59-1614. Mediation of disputes—fact-finding proceedings—arbitration.

(1) If after a reasonable period of negotiation over the terms of an agreement, or upon expiration of an existing collective bargaining agreement, a dispute concerning the collective bargaining agreement exists between the public employer and a labor organization, the parties shall request mediation.

(2) If upon expiration of an existing collective bargaining agreement, or thirty (30) days following certification or recognition of an exclusive representative, a dispute concerning the collective bargaining agreement exists between the employer and the exclusive representative, either party may petition the board to initiate fact-finding.

(3) Within three (3) days of receipt of such petition the board shall submit to the parties a list of five (5) qualified, disinterested persons from which list the parties shall alternate in striking two (2) names, and the remaining person shall be designated fact finder. This process shall be completed within five (5) days of receipt of the list. The parties shall notify the board of the designated fact finder.

(4) If no request for fact-finding is made by either party before the expiration of the agreement, or thirty (30) days following certification or recognition of an exclusive representative, the board may initiate fact-finding as provided for in (3) above.

(5) The fact finder shall immediately establish dates and place of hearings. Upon request of either party of the fact finder, the board shall issue subpoenas for hearings conducted by the fact finder. The fact finder may administer oaths. Upon completion of the hearings, but no later than twenty (20) days from the day of appointment, the fact finder shall make written findings of facts and recommendations for resolution of the dispute and shall serve such findings on the public employer and the exclusive representative. The fact finder may make this report public five (5) days after it is submitted to the parties. 59-1701. Statement of purpose.

59-1702. Definitions.

- 59-1703. Public trust.
- 59-1704. Rules of conduct for all public officers, legislators, and employees.
- 59-1705. Rules of conduct for legislators.
- 59-1706. Rules of conduct for state officers and state employees.
- 59-1707. Rules of conduct for local government officers and employees.

59-1701. Statement of purpose. The purpose of this act is to set forth a code of ethics prohibiting conflict between public duty and private interest as required by the constitution of Montana. This code recognizes distinctions between legislators, other officers and employees of state government, and officers and employees of local government, and prescribes some standards of conduct common to all categories and some standards of conduct adapted to each category. The provisions of this act recognize that some actions are conflicts per se between public duty and private interest while other actions may or may not pose such conflicts depending upon the surrounding circumstances.

History: En. 59-1701 by Sec. 1, Ch. 569, L. 1977.

Title of Act

An act implementing article XIII, section 4, of the 1972 Montana Constitution

to provide a code of ethics prohibiting conflict between public duty and private interest for legislators and all state and local officers and employees except members of the judiciary.

59-1702. Definitions. As used in this act the following definitions apply:

(1) "Business" includes a corporation, partnership, sole proprietorship, trust or foundation, or any other individual or organization carrying on a business, whether or not operated for profit.

(2) "Compensation" means any money, thing of value, or economic benefit conferred on or received by any person in return for services rendered or to be rendered by himself or another.

(3) "Employee" means any temporary or permanent employee of the state or any subdivision thereof, or member of the judiciary, including a member of a board, commission, or committee except a legislator and an employee under contract to the state.

(4) "Financial interest" means an interest held by an individual, his spouse, or minor children which is:

- (a) an ownership interest in a business;
- (b) a creditor interest in an insolvent business;
- (c) an employment or prospective employment for which negotiations have begun;
- (d) an ownership interest in real or personal property;
- (e) a loan or other debtor interest; or
- (f) a directorship or officership in a business.

(5) "Official act" or "official action" means a vote, decision, recommendation, approval, disapproval, or other action, including inaction, which involves the use of discretionary authority.

(6) "Public officer" includes any state officer except a legislator or member of the judiciary or any elected officer of any subdivision of the state.

(7) "State agency" includes the state; the legislature and its committees; all executive departments, boards, commissions, committees, bureaus, and offices; the university system; and all independent commissions and other establishments of the state government; except the courts.

(8) "State officer" includes all elected officers and directors of the executive branch of state government as defined in 82A-103.

History: En. 59-1702 by Sec. 2, Ch. 569,
L. 1977.

59-1703. Public trust. (1) The holding of public office or employment is a public trust, created by the confidence which the electorate reposes in the integrity of public officers, legislators, and employees. A public officer, legislator, or employee shall carry out his duties for the benefit of the people of the state.

(2) A public officer, legislator, or employee whose conduct departs from his fiduciary duty is liable to the people of the state as a trustee of property is liable to a beneficiary under 86-310 and shall suffer such other liabilities as a private fiduciary would suffer for abuse of his trust. The county attorney of the county where the trust is violated may bring appropriate judicial proceedings on behalf of the people. Any moneys collected in such actions shall be paid to the general fund of the aggrieved agency.

(3) The following sections set forth various rules of conduct, the transgression of any of which is, as such, a violation of fiduciary duty, and various ethical principles, the transgression of any of which is not, as such, a violation of fiduciary duty.

L. 1977.

59-1704. Rules of conduct for all public officers, legislators, and employees. (1) Proof of commission of any act enumerated in this section is proof that the actor has breached his fiduciary duty. A public officer, legislator, or employee may not:

(a) disclose or use confidential information acquired in the course of his official duties in order to further substantially his personal economic interests; or

(b) accept a gift of substantial value or a substantial economic benefit tantamount to a gift:

(i) which would tend improperly to influence a reasonable person in his position to depart from the faithful and impartial discharge of his public duties; or

(ii) which he knows or which a reasonable person in his position should know under the circumstances is primarily for the purpose of rewarding him for official action he has taken.

(2) An economic benefit tantamount to a gift includes, without limitation, a loan at a rate of interest substantially lower than the commercial rate then currently prevalent for similar loans and compensation received for private services rendered at a rate substantially exceeding the fair market value of such services. Campaign contributions reported as required by statute are not gifts or economic benefits tantamount to gifts.

History: En. 59-1704 by Sec. 4, Ch. 569,
L. 1977.

59-1705. Rules of conduct for legislators. Proof of commission of any act enumerated in this section is proof that the legislator committing the act has breached his fiduciary duty. A legislator may not:

(1) accept a fee, contingent fee, or any other compensation, except his official compensation provided by statute, for promoting or opposing the passage of legislation;

(2) seek other employment for himself or solicit a contract for his services by the use of his office.

History: En. 59-1705 by Sec. 5, Ch. 569,
L. 1977.

59-1706. Rules of conduct for state officers and state employees. (1) Proof of commission of any act enumerated in this section is proof that the actor has breached his fiduciary duty.

(2) A state officer or a state employee may not:

(a) use state time, facilities, or equipment for his private business purposes;

(b) engage in a substantial financial transaction for his private business purposes with a person whom he inspects or supervises in the course of his official duties;

(c) assist any person for a fee or other compensation in obtaining a contract, claim, license, or other economic benefit from his agency;

(d) assist any person for a contingent fee in obtaining a contract, claim, license, or other economic benefit from any state agency; or

(e) perform an official act directly and substantially affecting to its economic benefit a business or other undertaking in which he either has a substantial financial interest or is engaged as counsel, consultant, representative, or agent.

(3) A department head or a member of a quasi-judicial or rule-making board may perform an official act notwithstanding subsection (2)(e) if his participation is necessary to the administration of a statute and if he complies with the voluntary disclosure procedures under 59-1710.

(4) Subsection (2)(d) does not apply to a member of a board, commission, council, or committee unless he is also a full-time state employee.

History: En. 59-1706 by Sec. 6, Ch. 569,
L. 1977.

59-1707. Rules of conduct for local government officers and employees.

(1) Proof of commission of any act enumerated in this section is proof that the actor has breached his fiduciary duty.

(2) An officer or employee of local government may not:

(a) engage in a substantial financial transaction for his private business purposes with a person whom he inspects or supervises in the course of his official duties; or

(b) perform an official act directly and substantially affecting to its economic benefit a business or other undertaking in which he either has a substantial financial interest or is engaged as counsel, consultant, representative, or agent.

(3) A member of the governing body of a local government may perform an official act notwithstanding this section when his participation is necessary to obtain a quorum or otherwise enable the body to act, if he complies with the voluntary disclosure procedures under 59-1710.

History: En. 59-1707 by Sec. 7, Ch. 569,
L. 1977.

59-1708. Ethical principles for legislators. (1) The principles in this section are intended only as guides to legislator conduct and do not constitute violations as such of the public trust of legislative office.

(2) When a legislator must take official action on a legislative matter as to which he has a conflict created by a personal or financial interest which would be directly and substantially affected by the legislative matter, he should consider disclosing or eliminating the interest creating the conflict or abstaining from the official action. In making his decision, he should further consider:

(a) whether the conflict impedes his independence of judgment;

(b) the effect of his participation on public confidence in the integrity of the legislature; and

(c) whether his participation is likely to have any significant effect on the disposition of the matter.

(3) A conflict situation does not arise from legislation affecting the entire membership of a class.

(4) If a legislator elects to disclose the interest creating the conflict, he shall do so as provided in the joint rules of the legislature.

History: En. 59-1708 by Sec. 8, Ch. 569,
L. 1977.

59-1709. Ethical principles for public officers and employees. (1) The principles in this section are intended as guides to conduct and do not constitute violations as such of the public trust of office or employment in state or local government.

(2) A public officer or employee should not acquire an interest in any business or undertaking which he has reason to believe may be directly and substantially affected to its economic benefit by official action to be taken by his agency.

(3) A public officer or employee should not, within the months following the voluntary termination of his office or employment, obtain employment in which he will take direct advantage, unavailable to others, of matters with which he was directly involved during his term or employ-

ment. These matters are rules, other than rules of general application which he actively helped to formulate and applications, claims, or contested cases in the consideration of which he was an active participant.

(4) A public officer or employee should not perform an official act directly and substantially affecting a business or other undertaking to its economic detriment when he has a substantial financial interest in a competing firm or undertaking.

History: En. 59-1709 by Sec. 9, Ch. 569,
L. 1977.

59-1710. Voluntary disclosure. A public officer or employee may, prior to acting in a manner which may impinge on his fiduciary duty, disclose the nature of his private interest which creates the conflict. He shall make the disclosure in writing to the secretary of state, listing the amount of his financial interest, if any, the purpose and duration of his services rendered, if any, and the compensation received for the services or such other information as is necessary to describe his interest. If he then performs the official act involved, he shall state for the record the fact and summary nature of the interest disclosed at the time of performing the act.

History: En. 59-1710 by Sec. 10, Ch.
569, L. 1977.

59-1711. Powers of the secretary of state. The secretary of state may:

(1) issue advisory opinions with such deletions as are necessary to protect the identity of the requesting party or the party about whom the opinion is written;

(2) keep and permit reasonable public access to voluntary disclosure statements;

(3) make rules for the conduct of his affairs under this chapter.

Compiler's Notes

Section 54, Ch. 253, Laws of 1974 re-numbered this section as sec. 60-127.1.

60-125. Repealed.**Repeal**

Section 60-125 (Sec. 2, Ch. 238, L. 1953; Sec. 1, Ch. 11, L. 1955; Sec. 1, Ch. 196, L. 1969; Sec. 24, Ch. 100, L. 1973), relat-

ing to creation and membership of the oil and gas conservation commission, was repealed by Sec. 208, Ch. 253, Laws of 1974.

60-126. Definitions. As used in this chapter, unless the context requires otherwise:

(1) "Waste" means: (1) physical waste, as that term is generally understood in the oil and gas industry; (2) the inefficient, excessive, or improper use of, or the unnecessary dissipation of reservoir energy; (3) the location, spacing, drilling, equipping, operating or producing of any oil or gas well or wells in a manner which causes, or tends to cause, reduction in the quantity of oil or gas ultimately recoverable from a pool under prudent and proper operations, or which causes or tends to cause unnecessary or excessive surface loss or destruction of oil or gas; and, (4) the inefficient storing of oil or gas. The production of oil or gas from any pool or by any well to the full extent that the well or pool can be produced in accordance with methods designed to result in maximum ultimate recovery, as determined by the board, is not waste within the meaning of this definition.

(2) "Board" means the board of oil and gas conservation provided for in section 82A-1508.

(3) "Person" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, or other representative of any kind, and includes any agency or instrumentality of the state or any governmental subdivision thereof.

(4) "Oil" means crude petroleum oil and other hydrocarbons regardless of gravity which are produced at the wellhead in liquid form by ordinary production methods, and which are not the result of condensation of gas before or after it leaves the reservoir.

(5) "Gas" means all natural gases and all other fluid hydrocarbons as produced at the wellhead and not defined as oil in subsection (4) of this section.

(6) "Pool" means an underground reservoir containing a common accumulation of oil or gas or both; each zone of a structure which is completely separated from any other zone in the same structure is a pool, as that term is used in this chapter.

(7) "Field" means the general area underlaid by 1 or more pools.

(8) "Owner" means the person who has the right to drill into and produce from a pool and to appropriate the oil or gas he produces therefrom either for himself or others or for himself and others, and the term includes all persons holding such authority by or through him.

Nothing herein contained shall be construed to conflict with subsection (4) of section 81-1702, granting the state board of land commissioners the authority to enter into pooling and unitization agreements for the production of oil or gas with others.

(9) "Producer" means the owner of a well or wells capable of producing oil or gas or both.

(10) "Department" means the department of natural resources and conservation provided for in Title 82A, chapter 15.

(11) "Enhanced recovery" means the increased recovery from a pool achieved by artificial means or by the application of energy extrinsic to the pool; such artificial means or application includes pressuring, cycling, pressure maintenance, or injection into the pool of any substance or form of energy as is contemplated in secondary recovery and tertiary programs but does not include the injection in a well of a substance or form of energy for the sole purpose of aiding in the lifting of fluids in the well or stimulating of the reservoir at or near the well by mechanical, chemical, thermal, or explosive means.

History: En. Sec. 3, Ch. 238, L. 1953; amd. Sec. 55, Ch. 253, L. 1974; amd. Sec. 1, Ch. 336, L. 1977.

Amendments

The 1974 amendment substituted "board" at the end of subdivision (1) and the beginning of subdivision (2) for "commission"; substituted "board of oil and gas conservation provided for in section 82A-1508" in subdivision (2) for "oil and gas conservation commission of Montana"; deleted "department" in subdivision (3) after "includes any"; deleted "the masculine gender, in referring to a person, includes

the feminine and the neuter genders" at the end of subdivision (3); added "in subsection (4) of this section" to the end of subdivision (5); substituted "chapter" at the end of subdivision (6) for "act"; deleted a former last definition reading "The word 'and' includes the word 'or' and the use of the word 'or' includes the word 'and.' The use of the plural includes the singular and the use of the singular includes the plural"; added subdivision (10); and made minor changes in style, punctuation and phraseology.

The 1977 amendment added subdivision (11); and made a minor change in style.

60-127. Powers and duties of board. (1) The board shall make such investigations as it considers proper to determine whether waste exists or is imminent or whether other facts exist which justify any action by the board under the authority granted by this chapter with respect thereto.

(2) Subject to the administrative control of the department under section 82A-108, the board shall:

(a) Require: (i) identification of ownership of oil or gas wells, producing properties and tanks; (ii) the making and filing of acceptable well logs, including bottom-hole temperatures, to facilitate the discovery of potential geothermal energy sources, reports on well locations, and the filing of directional surveys, if made, however, logs of exploratory or wildcat wells need not be filed for a period of six (6) months following completion of those wells; (iii) the drilling, casing, producing and plugging of wells in such manner as to prevent the escape of oil or gas out of one stratum into another, the intrusion of water into oil or gas stratum, blowouts, cavings, seepages, and fires, and the pollution of fresh water supplies by oil, gas, salt, or brackish water; (iv) the restoration of surface lands to their previous grade and productive capability after a well is plugged or a seismographic shot hole has been utilized, and necessary measures to prevent adverse hydrological effects from such well or hole, unless the surface owner agrees in writing, with the approval of the board or its representatives, to a different plan of restoration; (v) the furnishing of a reasonable bond with good and sufficient surety, conditioned for performance of the duty to properly plug each dry or abandoned well; (vi) proper gauging or other measuring of oil and gas produced and saved

to determine the quantity and quality thereof; and (vii) that every person who produces, transports or stores oil or gas in this state shall make available within this state for a period of five (5) years complete and accurate records of the quantities thereof, which records shall be available for examination by the board or its employees at all reasonable times, and that that person file with the board such reports as it may prescribe with respect to quantities, transportations, and storages of the oil or gas.

(b) For the purpose of preventing waste, (i) regulate the drilling, producing and plugging of wells, the shooting and chemical treatment of wells, the spacing of wells, operations voluntarily entered into to increase ultimate recovery such as cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations, and, (ii) fix, upon application made by any interested person after hearing, efficient gas-oil and water-oil ratios for any particular well or wells.

(c) Regulate the disposal of salt water and oil field wastes.

(d) Classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter.

(e) Adopt and enforce rules and orders to effectuate the purposes and the intent of this chapter. The board shall promulgate rules to implement (a) (iv) of this subsection (2), no later than November 1, 1974.

(3) The board shall determine and prescribe what producing wells shall be defined as "stripper wells" and what wells shall be defined as "wildcat wells" and make such orders as in its judgment are required to protect those wells, and provide that stripper wells may be produced to capacity if it is considered necessary in the interest of conservation to do so.

(4) With respect to any pool from which gas was being produced by a gas well on or prior to April 1, 1953, this chapter does not authorize the board to limit or restrain the rate (daily or otherwise) of production of gas from that pool by any well then or thereafter drilled and producing from that pool to less than the rate at which the well can be produced without adversely affecting the quantity of gas ultimately recoverable by the well.

Amendments

Chapter 253, Laws of 1974, provided the present subsection and subdivision designations; deleted a former first subsection reading "The commission has jurisdiction to exercise effectively the authority granted it by this act"; substituted "board" for "commission" throughout the section; substituted "chapter" for "act" throughout the section; substituted the present preliminary clause of subsection (2) for one reading "The commission has authority, and it is its duty"; deleted from the end of sub-

section (2) a subdivision reading "To report as provided in section 82-4002"; substituted "April 1, 1953" in subsection (4) for "the date on which this act takes effect"; and made numerous minor changes in punctuation and phraseology.

Chapter 260, Laws of 1974, substituted "board" throughout the section for "commission"; inserted subdivision (2)(a)(iv); added the second sentence to subdivision (2)(e); and made minor changes in style.

The 1975 amendment inserted "including bottom-hole temperatures, to facilitate the discovery of potential geothermal energy sources" in clause (ii) of subdivision (2)(a); and made a minor change in phraseology.

60-127.1. Waste of oil and gas prohibited. Waste of oil and gas or either of them as waste is defined in this chapter, is prohibited.

History: En. Sec. 1, Ch. 238, L. 1953; Sec. 60-124, R. C. M. 1947; amd. and redes. 60-127.1 by Sec. 54, Ch. 253, L. 1974.

Amendments

The 1974 amendment renumbered this section; and substituted "chapter" for "act."

60-128. Notice of intention to drill. It is unlawful to commence the drilling of a well for oil or gas without first filing with the board written notice of intention to drill, and obtaining a drilling permit as provided in section 60-145(4). It is unlawful to conduct seismic explorations with explosives without first giving the board a copy of the notice of intention to explore, filed with the county under section 69-3303.

History: En. Sec. 5, Ch. 238, L. 1953; amd. Sec. 57, Ch. 253, L. 1974; amd. Sec. 2, Ch. 260, L. 1974.

Amendments

Chapter 253, Laws of 1974, substituted "provided in section 60-145(4)" in the first sentence for "in this act hereafter provided"; substituted "board" for "commission" in the first sentence; and made minor changes in phraseology.

Chapter 260, Laws of 1974, substituted "board" in the first sentence for "commission"; and added the second sentence.

Compiler's Notes

This section was amended twice in 1974, once by Ch. 260, and once by Ch. 253. Neither amendatory act mentioned or entirely incorporated the changes made by the other. Since the amendments do not appear to conflict, the compiler has made a composite section embodying the changes made by both amendments.

60-129. Well spacing units—orders. (1) To prevent or to assist in preventing waste of oil or gas prohibited by this chapter, the board, upon its own motion or upon application of an interested person, after hearing, may by order establish well spacing units for a pool, as to oil wells or as to gas wells or both, except in those pools which, prior to April 1, 1953, have been developed to such an extent that it would be impracticable or unreasonable to establish spacing units at the existing stage of development. Spacing units when established shall in so far as possible be of uniform size and shape for the entire pool.

(2) The size and the shape of spacing units shall be such as will result in the efficient and economic development of the pool as a whole, and the size shall be the area that can be efficiently drained by one (1) well.

(3) Subject to this chapter, the order establishing spacing units shall direct that no more than one (1) well may be drilled and produced from the common source of supply on any spacing unit, and that the well shall be drilled at a location authorized by the order, with such exception as may be reasonably necessary where it is shown, upon application, notice, and hearing, and the board finds, that the spacing unit is located on the edge of a pool or field and adjacent to a producing unit, or, for some other reason, the requirement to drill the well at the authorized location on the spacing unit would be inequitable or unreasonable.

(4) An order establishing spacing units for a pool shall cover all lands then determined or then believed to be underlaid by the pool and may be modified after notice and hearing by the board from time to time to include additional areas subsequently determined to be underlaid

by the pool. When found necessary for the prevention of waste, an order establishing spacing units in a pool may be modified after notice and hearing by the board to increase or decrease the size of spacing units in the pool, or to permit the drilling of additional wells on a reasonably uniform plan in the pool.

History: En. Sec. 6, Ch. 238, L. 1953; substituted "board" throughout the section
amd. Sec. 58, Ch. 253, L. 1974. for "commission"; substituted "April 1, 1953" in subsection (1) for "the effective date of this act"; and made minor changes in style and phraseology.

Amendments

The 1974 amendment substituted "chapter" in subsections (1) and (3) for "act";

60-130. Pooling of interest within spacing unit—voluntary or on order of board after hearing—contents of order. (1) When two (2) or more separately owned tracts are embraced within a spacing unit, or when there are separately owned interests in all or a part of the spacing unit, then the persons owning those interests may pool their interests for the development and operation of the spacing unit. In the absence of voluntary pooling, within the spacing unit, the board, upon the application of an interested person, may enter an order pooling all interests in the spacing unit for the development and operation thereof. The pooling order shall be made after hearing, and shall be upon terms and conditions that are just and reasonable, and that afford to the owner of each tract or interest in the spacing unit the opportunity to recover or receive, without unnecessary expense, his just and equitable share of the oil or gas produced and saved from the spacing unit. Operations incident to the drilling of a well upon any portion of a spacing unit covered by a pooling order shall be considered, for all purposes, the conduct of the operations upon each separately owned tract in the spacing unit by the several owners thereof. That portion of the production allocated to each tract included in a spacing unit covered by a pooling order shall, when produced, be considered for all purposes to have been produced from the tract by a well drilled thereon.

(2) The pooling order shall provide for the drilling and operating of a well on the spacing unit, and for the payment of the cost thereof, which cost may include a reasonable charge for supervision, handling and storage. As to each owner who refuses to pay his share of the costs of drilling and operating the well, the order shall provide for payment of his share of the cost out of, and only out of, production from the well allocable to his interest in the spacing unit, excluding royalty or other interest not obligated to pay any part of the cost thereof. If a dispute arises as to the cost, the board by order shall determine the proper cost. The order may provide in substance that the owners who agree to share in the cost of drilling and operating the well are, unless they agree otherwise, entitled to receive, subject to royalty or similar obligations, all of the production of the well until they have recovered all of the costs out of the production and thereafter all of the owners in the spacing unit are entitled to receive their respective shares of the production of the well as their interest may appear after deducting their respective shares of current operating costs.

throughout the section for "commission"; inserted "by order" in the third sentence of subsection (2) after "board"; and made minor changes in style and phraseology.

Amendments

The 1974 amendment substituted "board"

60-131. Agreements for development and operation of pool—not in violation of state antitrust laws when approved by board. An agreement for the unit or co-operative development and operation of a field or pool or any part of either, or for conducting repressuring or pressure maintenance operations, cycling or recycling operations, including the extraction and separation of liquid hydrocarbons from natural gas in connection therewith, or any other method of unit or co-operative operation, including water flooding, is authorized and may be performed. Such an agreement does not violate any of the statutes of this state relating to trusts, monopolies or contracts and combinations in restraint of trade if the agreement is approved by the board as being in the public interest and reasonably necessary to increase ultimate recovery or to prevent waste of oil or gas.

History: En. Sec. 8, Ch. 238, L. 1953; amd. Sec. 60, Ch. 253, L. 1974.

in the caption and in the last sentence of this section for "commission"; and made minor changes in style and phraseology.

Amendments

The 1974 amendment substituted "board"

60-131.1. Operation of pool as unit—board to hold hearing—notice.

(1) The board, upon the application of persons owning leasehold interests underlying sixty per cent (60%) of the surface within the delineated area, shall hold a hearing to consider the need for the operation as a unit of one (1) or more pools or parts thereof in a field, for enhanced recovery purposes as to oil or oil and gas, to increase ultimate recovery, or to prevent waste of gas from pools or portions of pools where gas only is produced.

(2) At least sixty (60) days prior to application, the applicant shall, by registered or certified mail, notify all known persons owning an interest in the oil and gas within the proposed unit area as disclosed by the records of the county or counties in which the proposed unit area is situated, at that person's last known address, of the applicant's intention to make the application. At the same time producers shall be furnished with a plan of unit operations. Upon written request of an operator of a lease which is in whole or in part within the confines of the proposed delineated area, the applicant shall furnish the operator with copies of any exhibits to be submitted to the board at the time of hearing.

gas only is produced" at the end of subsection (1); and made minor changes in style and phraseology.

Amendments

The 1971 amendment inserted "as to oil or oil and gas" in subsection (1) after "recovery purposes"; added "or to increase ultimate recovery or to prevent waste of gas from pools or portions of pools where

The 1974 amendment designated the first paragraph as subsection (1) and redesignated the second paragraph as subsection (2); substituted "board" for "commission" throughout the section; and made minor changes in style, punctuation and phraseology.

The 1977 amendment substituted "enhanced recovery" in subsection (1) for "pressure maintenance or secondary recovery."

Unitization of Entire Reservoir

Application by oil and gas lessee to the commission for unitization of a reservoir

did not constitute a breach of one-well pooling provision in lease; unitization of an entire reservoir under this section is entirely different from one-well pooling pursuant to section 60-130. *Armstrong v. High Crest Oils, Inc.*, — M —, 520 P 2d 1081.

60-131.2. Board order—criteria. The board shall make an order providing for the unit operation of a pool or pools or part thereof if it determines, based on evidence presented at the hearing, that:

(1) Such operation is reasonably necessary to increase the ultimate recovery of oil or gas;

(2) The value of the estimated additional recovery of oil or gas less royalties or, as to gas pools only, the value of the economies to be effected, exceeds the estimated additional cost incident to conducting such operations; and

(3) The full areal extent of the pool or pools or part thereof has been reasonably defined and determined by drilling operations.

History: En. Sec. 2, Ch. 33, L. 1969; amd. Sec. 2, Ch. 150, L. 1971; amd. Sec. 62, Ch. 253, L. 1974.

Amendments

The 1971 amendment inserted "or, as

to gas pools only, the value of the economies to be effected" in subdivision (2).

The 1974 amendment substituted "board" for "commission" in the caption and at the beginning of the section; and made minor changes in punctuation and phraseology.

60-131.3. Terms and conditions of order—requirements. The order shall be upon terms and conditions that are just and reasonable and shall prescribe a plan for unit operations that shall include:

(1) A description of the pool or pools or parts thereof to be so operated, termed the unit area, but only so much of a pool as has reasonably been defined and determined by drilling operations to be productive of oil or gas may be included within the unit area. If the unit is formed solely for production of gas, a spacing unit on which is located a well producing or capable of producing gas on March 1, 1971, may not be included in the unit area without the written consent of the majority in interest of the working interest owners of the spacing unit and well.

(2) A statement of the nature and purpose of the plan and operations contemplated, together with a copy of the proposed unit agreement and unit operating agreement.

(3) A plan for allocating to each tract in the unit area its fair share of the oil and gas produced from the unit area and not required or consumed in the conduct of the operation of the unit area or unavoidably lost. A plan may not be approved by the board until it has considered the relative value that the share of production bears to the relative value of all of the separately owned tracts in the unit area, exclusive of physical equipment utilized in unit operations. In considering this relative value, the board shall weigh the economic value of the gas to all persons affected as compared to the economic value of the oil to all persons affected.

(4) A provision for the credits and charges to be made in the adjustment among the owners in the unit area for their respective invest-

ments in wells, tanks, pumps, machinery, materials, and equipment contributed to the unit operations.

(5) A provision providing how the costs of unit operations, including overhead and capital investments, shall be determined and charged to the separately owned tracts, including a provision for carrying or otherwise financing any owner who has not executed the proposed unit operating agreement and who elects to be carried or otherwise financed, allowing an interest charge of the then current prime rate plus two per cent (2%) for the service. Recovery of the money advanced, plus interest, shall be limited to, and only shall be recoverable from, the owners' share of production. The recovery shall be as follows:

(a) (1) In the case of a field producing oil, or oil and gas, during the period of depletion of the remaining estimated primary reserves from the unit, only from the production that is in excess of the owners' average actual rate of production during the eighteen (18) months immediately preceding the effective date of the unit. For purposes of this subsection, the term "primary reserves" means the oil or gas which would be produced from the unitized pool or pools as a result of the natural energy therein and without the introduction of an enhanced recovery program.

(2) During the period subsequent to the depletion of the remaining estimated primary reserves from the unit, from one hundred per cent (100%) of the owners' share of production.

(b) In the case of a field producing only gas, the recovery shall be from one hundred per cent (100%) of the owners' share of production.

(c) In the case of any enhanced recovery program that is initiated subsequent to a secondary recovery program, the recovery shall be from 75% of the owners' increased share of production from such subsequent program.

(6) A provision for the supervision and conduct of the unit operations, in respect to which each owner shall have a vote with a value corresponding to the percentage of the costs of unit operations chargeable against the interest of the owner.

(7) A provision whereby the unit operator, after having operated for a minimum period of two (2) years, can be challenged by any other owner in the unit, and the challenging owner may succeed to the unit operations upon a showing that: (a) he can operate more efficiently and economically than the present operator; (b) he is qualified and financially responsible; (c) a majority of the other owners, both in number and in percentage and exclusive of the challenged operator, approved the challenging owner becoming unit operator; and, (d) the challenged operator does not initiate the conditions of operations of the challenging owner within sixty (60) days of the challenged operator's receipt of the conditions of operations.

(8) The time when the unit operations shall commence, and the manner in which, and the circumstances under which, the unit operations shall terminate; and

(9) Such additional provisions that are found to be appropriate for carrying on unit operations and for the protection and adjustment of correlative rights.

Amendments

The 1971 amendment added the second sentence to subdivision (1); redesignated former subdivisions (5)(a) and (5)(b) as subdivisions (5)(a)(1) and (5)(a)(2), respectively; inserted "In the case of a field producing oil, or oil and gas" at the beginning of subdivision (5)(a)(1); in-

serted a new subdivision (5)(b); and made minor changes in phraseology.

The 1974 amendment substituted "March 1, 1971" in the last sentence of subdivision (1) for "the effective date of this act"; substituted "board" in subdivision (3) for "commission"; and made minor changes in style, punctuation and phraseology.

The 1977 amendment substituted "enhanced recovery" for "secondary recovery" near the end of subdivision (5)(a)(1); inserted subdivision (5)(c), and made minor changes in phraseology.

60-131.4. Plan for unit operations—approval by those paying costs required—conditions for approval. An order of the board providing for unit operations may not become effective unless and until the plan for unit operations prescribed by the board has been approved in writing by those persons who, under the board's order, will be required to pay at least eighty per cent (80%) of the costs of the unit operations, and also by the persons owning at least eighty per cent (80%) of the production or proceeds thereof that will be credited to interests which are free of cost, such as royalties, overriding royalties, and production payments, and the board has made a finding, either in the order providing for unit operations or in a supplemental order, that the plan for unit operations has been so approved; however, if one (1) owner who is obligated to pay costs of the unit operation owns eighty per cent (80%) or more, but less than one hundred per cent (100%), the approval of that owner and at least one (1) other such owner is required, and if one (1) person entitled to production or proceeds thereof that will be credited to interests which are free of costs, owns eighty per cent (80%) or more, but less than one hundred per cent (100%), the approval of that person and at least one (1) other such person is required. If the plan for unit operations has not been so approved at the time the order providing for unit operations is made, the board shall, upon application and notice, hold such supplemental hearings as may be required to determine if and when the plan for unit operations has been so approved. If the requisite number of owners and persons and the requisite percentage of interests in the unit area do not approve the plan for unit operations within a period of six (6) months from the date on which the order providing for unit operations is made, the board shall revoke the order unless for good cause shown the board extends the time.

60-131.5. Amendment of board order—conditions. An order providing for unit operations may be amended by an order made by the board in the same manner and subject to the same conditions and notice as an original order providing for unit operations, however, (a) if such an amendment affects only the rights and interests of the owners, the ap-

proval of the amendment by the persons owning interest which are free of costs, such as royalties, overriding royalties and production payments, is not required, and (b) an order of amendment may not change the percentage for the allocation of oil and gas as established for any tract by the original order, except with the consent of all persons owning oil and gas rights in the tract, or change the percentage for the allocation of cost as established for any tract by the original order, except with the consent of all owners in the tract.

60-131.6. Units established by previous order may be included—manner of inclusion. The board, by an order, may provide for the unit operation of a pool or pools or parts thereof that embrace a unit established by an order of the board made prior to February 13, 1969. The order, in providing for the allocation of unit production, shall first treat the unit area previously established as a single tract, and the portion of the unit production so allocated thereto shall then be allocated among the tracts included in the previously established unit area in the same proportions as those specified in the previous order. Any new owner whose interest by the order is added to the unit area and who becomes liable for his proportionate share of the costs of unit operations is not liable for any unit operating costs incurred prior to the person's entry in the unit. At the time the interest is included in the unit, an equipment inventory shall be made in order to charge the newly committed interest with its proportionate share of capital investment at its then value. An oil-in-storage inventory shall be taken immediately prior to adding the newly committed interest.

History: En. Sec. 6, Ch. 33, L. 1969; amd. Sec. 4, Ch. 150, L. 1971; amd. Sec. 66, Ch. 253, L. 1974.

The 1974 amendment substituted "board" in the first sentence for "commission"; substituted "February 13, 1969" at the end of the first sentence for "the effective date of this amendment to Title 60, chapter 1, Revised Codes of Montana"; and made minor changes in phraseology.

Amendments

The 1971 amendment substituted "prior to the effective date" for "subsequent to the effective date" in the first sentence.

60-131.8. Presumptions—compliance with board order constitutes fulfillment of lease or contract obligations. All operations, including, but not limited to, the commencement, drilling, or operation of a well upon any portion of the unit area, shall be considered for all purposes the conduct of those operations upon each tract in the unit area by the several owners thereof. The portion of the unit production allocated to a tract in a unit area shall, when produced, be considered, for all purposes, to have been actually produced from the tract by a well drilled thereon. Operations conducted pursuant to an order of the board providing for unit operations shall constitute a fulfillment of all the express or implied obligations of each lease or contract covering lands in the unit area to the extent that the obligations cannot be performed because of the order of the board.

History: En. Sec. 8, Ch. 33, L. 1969; for "commission" throughout this section; amd. Sec. 67, Ch. 253, L. 1974. and made minor changes in punctuation and phraseology.

60-131.9. Property rights—operator's lien—perfection of lien. That portion of the unit production allocated to any tract, and the proceeds from the sale thereof, shall be the property and income of the several persons to whom, or to whose credit, the same are allocated or payable under the order providing for unit operations, except that the operator of the unit shall, subject to section 60-131.3, subdivision (5) (a) (1), have a first and prior lien upon each owner's oil and gas rights and his share of unitized production to secure the payment of such owner's proportionate part of developing and operating the unit area. Such lien may be perfected and enforced in the same manner as provided in Title 45, chapter 5, Revised Codes of Montana, 1947, as amended. Upon demand by any owner of working interest in any tract to which gas has been allocated, the unit operator shall deliver such allocated share of gas to the owner in kind; but the operator and the other owners of interest shall not be required to bear the cost of providing additional facilities for the delivery of such gas.

Except to the extent that the parties affected so agree, an order providing for unit operations does not result in a transfer of all or any part of the title of any person to the oil and gas rights in any tract in the unit area. All property, whether real or personal, that may be acquired in the conduct of unit operations hereunder shall be acquired for the account of the owners within the unit area, and shall be the property of those owners in the proportion that the expenses of unit operations are charged.

(3) When an emergency requiring immediate action is found to exist, the board may issue an emergency order without advance notice or hearing, which shall be effective upon promulgation. An emergency order may not remain in effect more than fifteen (15) days.

(4) If notice is required by the chapter and the Montana Administrative Procedure Act does not apply, the notice shall be made by publication in one (1) or more issues of a newspaper in general circulation in Helena and a newspaper of general circulation in the county where the land or some part thereon is situated, and the board may also cause publication to be made in a trade journal or bulletin of general circulation in the oil and gas industry in the state.

(5) Proof of service by publication under subsection (4) shall be made by the affidavit of the printer or publisher of the newspaper, trade journal, or bulletin in which the notice is published, or by a foreman or principal clerk of the newspaper, bulletin or trade journal.

(6) Except as provided otherwise in this chapter, the board may act upon its own motion, or upon the petition of an interested person. On the filing of a petition concerning a matter within the jurisdiction of the board, the board shall promptly fix a date for a hearing thereon, and shall cause notice of the hearing to be given. The hearing shall be held without undue delay after the filing of the petition. The board shall enter its order within thirty (30) days after the hearing.

60-133. Subpoena power of board—chapter does not abrogate civil actions—enforcement of chapter when board fails to enjoin violations. (1) If the Montana Administrative Procedure Act does not apply, the board may subpoena witnesses, administer oaths, and require the production of records, books, and documents for examination at any hearing or investigation conducted by it. Witnesses subpoenaed under this subsection shall be paid the same per diem and mileage as is provided to be paid to witnesses attending the district courts of this state.

(2) This chapter, a suit by or against the board, a violation charged or asserted against a person under this chapter, or a rule or order issued under this chapter, does not impair, abridge, or delay a cause of action for damages or other civil remedy, which a person may have or assert against a person violating this chapter, or a rule or order issued under it. A person so aggrieved by the violation may sue for and recover such damages or relief as he otherwise may be entitled to receive. If the board fails to bring suit to enjoin a violation or threatened violation of this chapter, or a rule or order of the board within ten (10) days after receipt of written request to do so by a person who is or will be adversely affected by the violation, the person making the request may bring the suit in his own behalf to restrain the violation or threatened violation in a court in which the board might have brought suit. The board shall be made a party defendant in the suit in addition to the person violating or threatening to violate this chapter, or a rule or order of the board, and the action shall proceed and injunctive relief may be granted without bond in the same manner as if suit had been brought by the board.

The court may punish for contempt as in the case of disobedience to a like subpoena issued by the court, or for refusal to testify therein.

60-135. Court review of order of board by suit for injunction—trial de novo—temporary restraining order, when allowed, bond—appeals. (1) Any interested person adversely affected by any provision of this chapter, or by any rule or order adopted by the board hereunder, or by any act done or threatened thereunder, may obtain court review and seek relief by a suit for an injunction against the board as defendant, which suit may be instituted in the district court of the county where the board keeps its principal office, or in the district court of any county wherein the land involved or any part thereof is situated. The term "interested person," as used herein, shall be interpreted broadly and liberally, especially where the suit involves the right to drill a well, or involves some other act which clearly affects the plaintiff even though the effect is indirect; and if the act complained of involves a general order for a pool, or the right to drill a well therein, a person who owns or has an interest in a well in the pool, which well is capable of producing oil or gas, shall be considered to be, *prima facie*, an interested person. The suit shall be given a preferential setting, and shall be tried *de novo* and disposed of as an ordinary civil suit, and not upon the record of any hearing before the board. The statute, rule, order, or decision involved in the suit shall be *prima facie* valid; however, the finding of fact, actual or presumed, made by the board in support of the rule, order, or decision involved in the suit is not binding on the court though supported by evidence introduced at a hearing before the board. The court shall decide all relevant questions of law, interpret constitutional and statutory provisions, and determine the meaning or applicability of the terms of any board action. The court shall:

(a) compel board action unlawfully withheld or unreasonably delayed; and (b) hold unlawful and set aside board action, findings, and conclusions found to be:

(1) arbitrary, unreasonable, capricious, and abuse of discretion, or otherwise not in accordance with law;

(2) contrary to constitutional right, power, privilege, or immunity;

(3) in excess of statutory jurisdiction, authority or limitations, or short of statutory right;

(4) without observance of procedure required by law; or

(5) unwarranted by the facts.

The court shall consider all the evidence, shall pass on the credibility of witnesses and the weight to be given their testimony, and shall resolve such fact issues as may be necessary for decision in the case.

(2) A temporary restraining order or temporary injunction of any kind may not be granted against the board and its members or against the attorney general, or against an employee of the board, restraining the board and its members, or employees, or the attorney general, from enforcing this chapter, or any rule or order made thereunder, until it is shown to the satisfaction of the court that the act done or threatened is

probably without sanction of the law or that the provisions of this chapter, or the rule or order complained of is probably invalid or unreasonable, and that, if enforced against the complaining party, will probably cause an irreparable injury. With respect to an order or decree granting temporary injunctive relief, the nature and extent of the probable invalidity of the statute, or of any provision of this chapter, or of a rule or order thereunder involved in the suit, must be recited in the order or decree granting the temporary relief, as well as a clear statement of the probable damage relied upon by the court as justifying temporary injunctive relief.

(3) A temporary restraining order or temporary injunction of any kind against the board or its members, or its employees, or the attorney general, may not be effective until the plaintiff executes a bond with sufficient sureties in such amount and upon such conditions as the court directs. The bond shall be made payable to the state of Montana, shall be approved by the judge of the court, and shall be for the use and benefit of all persons who may be injured by the acts done under the protection of the temporary restraining order or temporary injunction. A person claiming injury must bring suit within six (6) months after the date of the final determination of the validity, in whole or in part of the provisions of the chapter or the rule or order, the enforcement of which was enjoined; otherwise the right to bring such suit is forever barred.

(4) An appeal to the supreme court may be taken from any final judgment, decree or order in the action, as provided in the Rules of Appellate Civil Procedure of Title 93, R. C. M. 1947.

60-136. Enjoining violations of chapter. Whenever it appears that a person is violating or threatening to violate this chapter, or a rule or order of the board, the board shall bring suit against that person in the district court of any county where the violation occurs or is threatened, to restrain the person from continuing the violation or from carrying out the threat of violation. In the suit, the court may grant to the board, without bond or other undertaking, such prohibitory and mandatory injunctions as the facts may warrant, including temporary restraining orders.

sioners and of the oil conservation board, and substitution of the commission for those boards, were repealed by Sec. 108, Ch. 253, Laws of 1974.

60-140. Lands subject to act. This chapter applies to all lands in the state lawfully subject to its taxation and police powers. It applies to lands of the United States or to lands subject to the jurisdiction of the United States only to the extent that control and supervision of conservation of oil and gas by the United States on its lands fails to effect the intent and purposes of this chapter and otherwise applies to those lands to such extent as any officer of the United States having jurisdiction, or his duly authorized representative, approves any of the provisions of this chapter or an order of the board which affect those lands. This chapter also applies to any lands committed to a unit agreement approved by the secretary of the interior or his duly authorized representative, except that the board may, with respect to those unit agreements, suspend the application of this chapter or any part of this chapter so long as the conservation of oil and gas and the prevention of waste as provided in this chapter is accomplished under the unit agreements; the suspension does not relieve an operator or owner from making such reports as may be required by the board with respect to operations and production under the unit agreement, and the suspension does not relieve an operator or owner from the payment of taxes on his oil and gas production or payment for permit fees as required by this chapter.

(1) An owner drilling a well for gas or oil shall make available to the board at its field offices representative cores or chips, when available, the cuttings from the well, and the bottom-hole temperatures of the wells, in order to facilitate the discovery of geothermal potential. However, cores, chips or cuttings need not be so made available for a period of six (6) months following completion or abandonment of the wells. The board may, however, relieve the owner of a well of the obligation to furnish cores, chips, or cuttings when in the opinion of the board, the furnishing thereof would be unduly burdensome for the owner; however, the owner desiring relief must apply to and receive permission from the board to not so furnish.

(2) The owner of a stratigraphic test well drilled for the purpose of obtaining lithologic information useful in potential oil and gas operations, as such well is defined by the board's rules shall within six (6) months from the date of the cessation of the drilling of the well, make available to the board, complete sets of sample cuttings and representative cores or chips and well logs of the wells, which logs shall include among other information the size of casing used, the type and depth of water if any located, and bottom-hole temperatures for geothermal purposes; the cuttings, cores, chips and logs shall be impounded and kept secure and confidential by the board until such time that the board desires to use the same; however, the board may not use the logs, chips, cores and cuttings from stratigraphic test wells until a period of three (3) years from the date of their impounding by the board has elapsed unless the owner of the stratigraphic test well consents to their use by the board prior to the expiration of the three (3) year period. The board, during the period of impoundment for any cores, cuttings, chips, or logs from any stratigraphic test well, may not give any person access to the cores, chips, cuttings or logs, and it may not disclose any information relating thereto or derived therefrom. The board shall require, and the owner of a stratigraphic test well shall furnish, prior to the commencement of drilling of the well, a good and sufficient surety bond, to be approved prior to

the commencement of the drilling, conditioned upon the proper plugging of the well prior to abandonment, the amount of the bond to be determined by the estimated depth as in the board's rules provided for oil and gas wells, and, prior to abandonment, the wells shall be plugged by the owner thereof, or by the surety should the owner be in default, the plugging to conform to the standards set down and determined by the board.

(3) Notwithstanding subsection (2), bottom-hole temperatures furnished to the board by stratigraphic test well owners shall be public information immediately upon filing with the board.

Amendments

The 1973 amendment deleted from the end of the section a sentence reading: "The provisions of this section shall not apply to core holes or tests less than one thousand (1,000) feet in depth drilled primarily for structural information."

The 1974 amendment substituted "board" throughout the section for "commission"; and made minor changes in punctuation and phraseology.

The 1975 amendment divided the section into subsections; added to the end of the first sentence of subsection (1) the language relating to bottom-hole temperatures; inserted "and bottom-hole temperatures for geothermal purposes" in the middle of the first sentence of subsection (2); and added subsection (3).

Effective Date

Section 2 of Ch. 208, Laws 1973 provided the act should be in effect from and after its passage and approval. Approved March 8, 1973.

60-145. Privilege and license tax—quarterly statements—penalties—drilling permit fees—oil and gas conservation moneys. (1) For the purpose of providing funds for defraying the expenses of the operation and enforcement of this chapter and expenses of the board, the operators and producers of oil and gas shall pay an assessment not to exceed 2/10 of 1% of the market value of each barrel of crude petroleum originally produced, saved and marketed, or stored within the state or exported from the state, and the same rate on the market value of each 10,000 cubic feet of natural gas produced, saved and marketed, or stored within the state or exported therefrom.

(2) The board shall by order, without prior notice, or hearing, fix the amount of the assessments and may, from time to time, without prior notice or hearing, reduce or increase the amount thereof as, in its judgment, the expenses chargeable against the oil and gas conservation fund may require; however, the assessments fixed by the board may not exceed the limits prescribed in this section. The amounts of the assessments shall be a percentage factor (not to exceed 100%) of the rates set forth in subsection (1) above, and the same percentage factor shall be applied by the board in fixing the amount of the assessment on each barrel of crude production and each 10,000 cubic feet of natural gas mentioned in those subsections. The producers of the crude petroleum and natural gas shall pay the assessments on each barrel of crude petroleum and each 10,000 cubic feet of natural gas produced for themselves, as well as for others, including royalty holders, and the producers shall be reimbursed for the payments made on crude oil and natural gas produced for others in the same manner as they

are reimbursed for net proceeds tax paid on crude petroleum or natural gas produced for others under 84-6208.

(3) For the purposes of this section, a "lease" means that particularly described tract of land contained in a contract in writing whereby a person having a legal estate in the land so described conveys a portion of his interest to another, in consideration of a certain rental or other recompense or consideration. Further, for the purposes of this section, leases owned or operated by one lessee which in whole or in part cover or affect an underground reservoir containing a common accumulation of crude petroleum oil or natural gas, or both, or which are encompassed within or affected by one particular unit agreement shall be considered as one lease relative to payments to be made under this section.

(4) In addition to the above-mentioned privilege and license tax, a person, before commencing the drilling of an oil or gas well or stratigraphic test well or core hole, shall secure from the board a drilling permit and shall pay to the board therefor the following amounts: for each well whose estimated depth is 3,500 feet or less, \$25; from 3,501 feet to 7,000 feet, \$75; 7,000 feet and deeper, \$150.

(5) Each producer of crude petroleum in the state shall, not later than the last day of each of the calendar months of February, May, August and November, of each calendar year, render a true statement to the state treasurer of the state, and a duplicate thereof to the board, duly signed and sworn to, of all crude petroleum produced and marketed by him in this state during the preceding quarter, and containing such other information as the board may require, and shall accompany the statement with the payment to the state treasurer of the assessment provided for in subsection (1) of this section, for the period covered by the statement. Each producer of natural gas in the state shall render like statements to the state treasurer of all natural gas produced and marketed by him in this state, and shall make payment of the assessment provided for in subsection (1) of this section, at such times and for such periods as may be prescribed by rule of the board. Any producer carrying on business at more than one place or location in this state may include all those places of business in one statement. The assessment imposed herein shall be due at the time the oil or natural gas is marketed. Oil or natural gas shall be deemed marketed when it is removed from the property from which it was produced.

(6) An assessment not paid within the time specified is delinquent, and a penalty of 25% thereof shall be added thereto and the whole thereof shall bear interest at the rate of 1% per month from the date of delinquency until paid. Upon request of the board the attorney general shall commence and prosecute to final determination in any court of competent jurisdiction an action at law to collect the same.

(7) All money collected under this chapter shall be deposited in the earmarked revenue fund by the state treasurer of the state, and shall be used for the purpose of paying all expenses of the board and for no other purpose; all these moneys shall be used by the board subject to the approval of the department of administration and biennial appropriations by the legislature. Income and interest from investment of the board's moneys in the earmarked revenue fund shall be credited to the board.

Compiler's Notes

This section was amended twice in 1977, once by Ch. 178 and once by Ch. 254. Since the amendments do not appear to conflict, the code commissioner has made a composite section embodying the changes made by both amendments.

Amendments

The 1973 amendment increased the assessment in subdivision (1)(a) from $\frac{1}{4}$ cent to $\frac{3}{8}$ cent per barrel and in subdivision (1)(b) from $\frac{1}{2}$ cent to $\frac{3}{4}$ cent per barrel; increased the assessment in the first sentence of subdivision (1)(c) from one mill to $2\frac{1}{2}$ mills per ten thousand feet where sold for less than 15¢ per thousand feet, and from one mill to five mills per ten thousand feet where sold for 15¢ or more per thousand feet; and inserted "or stratigraphic test well or core hole" in subsection (4).

Chapter 130, Laws of 1974, substituted "February, May, August and November" in the first sentence of subsection (5) for "January, April, July and October"; and made minor changes in style.

Chapter 253, Laws of 1974, substituted "chapter" for "act" throughout the section; substituted "board" for "oil and gas conservation commission" and "commission" throughout the section; deleted "Such payments shall be made during the time the oil and gas conservation commission is in existence" at the end of subsection (1); deleted "in the first instance" near the beginning of subsection (2) after "amount of the assessments"; deleted "to be fixed by the commission in the first instance and from time to time as herein provided" at the beginning of the second sentence of subsection (2) after "the assessments"; substituted "department of administration" near the end of subsection (7) for "controller"; deleted two sentences

at the end of subsection (7) relating to disposition of moneys on termination of the commission; deleted a former last subsection relating to commission members, compensation, expenses, and expenditures; and made numerous minor changes in style, punctuation and phraseology. For material deleted after subsection (7), see parent volume.

The 1975 amendment inserted "and marketed" after "crude petroleum produced" and "natural gas produced" in the first and second sentences of subsection (5); added the last two sentences of subsection (5); and made minor changes in phraseology and style.

Chapter 178, Laws of 1977, rewrote all of subsection (1) after "an assessment not to exceed" which read: "the amounts set forth in the following schedule on each barrel of crude petroleum originally produced, saved and marketed or stored within the state, or exported from the state, and on each ten thousand (10,000) cubic feet of natural gas produced, saved and marketed or stored within the state, or exported therefrom: (a) On leases on which wells are producing an average of twenty-five (25) barrels of crude petroleum per day, or less, an assessment not to exceed three-eighths of one cent ($3/8\phi$) per barrel; (b) On leases on which wells are producing an average of more than twenty-five (25) barrels of crude petroleum per day, an assessment not to exceed three-fourths of one cent ($3/4\phi$) per barrel; and (c) On wells producing, saving and marketing, storing, or exporting, natural gas, the operators and producers shall pay an assessment not to exceed two and one-half ($2\frac{1}{2}$) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for less than fifteen cents (15¢) per thousand (1,000) cubic feet and an assessment not to exceed five (5) mills per ten thousand (10,000) cubic feet of natural gas where said gas is marketed for fifteen cents (15¢) or more per thousand (1,000) cubic feet"; and made minor changes in style.

Chapter 254, Laws of 1977, added the last sentence in subsection (7) relating to income and interest.

60-146, 60-147. Repealed.

Sections 60-146 and 60-147 (Secs. 1, 2, Ch. 32, L. 1957; Sec. 161, Ch. 147, L. 1963),

relating to the petroleum field station of the bureau of mines at Billings, were repealed by Sec. 208, Ch. 253, Laws of 1974.

60-148. Availability of facilities to bureau. The board may make available to the authorized personnel or representatives of the bureau of mines and geology such facilities, equipment, records, and cores and cuttings, or samples of cores and cuttings, as are, or may be, required by

the bureau in the furtherance of its oil and gas research and study. Bottom-hole temperatures of oil and gas wells shall be made available to the bureau of mines and geology by the board in order to facilitate the determination of possible geothermal energy sources.

Amendments

The 1974 amendment substituted "board"

at the beginning of the section for "commission"; inserted "of mines and geology" after "the bureau"; and made a minor change in phraseology.

The 1975 amendment added the second sentence.

60-149. Department to inventory abandoned wells and seismic operations; reclamation procedures. (1) The department of natural resources and conservation shall maintain a list of the abandoned oil or gas wells, injection wells, sumps, and seismographic shot holes in the state which disturb land, water, or wildlife resources to a degree not in compliance with plugging, pollution prevention, and reclamation rules of the oil and gas board. This list shall be compiled from petitions or written statements from the owners of surface rights or lessees.

(2) The board shall check the list supplied by the department under the preceding subsection against its drilling records and shall determine the name of the person who abandoned the well, sump, or hole, whenever this information is available. When a person so listed applies to the board for a new drilling permit, the board may issue the permit only after approving a plan by which the applicant will reclaim the land disturbed by his abandoned wells, sumps, or holes within three years.

(3) When the person who abandoned a well, sump, or hole cannot be identified or located under the preceding subsection, the board shall notify the department of natural resources and conservation. The department may then reclaim the disturbed land with funds available from the resource indemnity trust fund, under section 84-7009, when available.

(3) "Native gas" means gas which has not been previously withdrawn from the earth;

(4) "Natural gas public utility" means any person, firm or corporation authorized to do business in this state and engaged in the business of transporting or distributing natural gas by means of pipelines into, within or through this state for ultimate public use;

(5) "Board" means the board of oil and gas conservation provided for in section 82A-1508;

(6) "Underground storage" means the process of injecting and storing of natural gas within and withdrawing of natural gas from an underground reservoir.

60-802. Underground storage. (1) The underground storage of natural gas which promotes conservation thereof, which permits the building of reserves for orderly withdrawal in periods of peak demand, which makes more readily available natural gas to the domestic, commercial and industrial consumers of this state, or which provides a better year-round market to the various gas fields, serves the public interest and welfare of this state.

(2) Therefore, in the manner hereinafter provided the board and the court may find and determine that the underground storage of natural gas as hereinbefore defined is in the public interest.

History: En. Sec. 2, Ch. 259, L. 1955; amd. Sec. 84, Ch. 253, L. 1974.

Amendments

The 1974 amendment substituted "board" in subsection (2) for "commission"; and made minor changes in style.

60-803. Eminent domain—use and limitations. (1) A natural gas public utility may acquire through the exercise of the right of eminent domain as provided in this chapter for its use for the underground storage of natural gas an underground reservoir which the board finds is suitable and in the public interest for the underground storage of natural gas, and in connection with the underground reservoir the utility may acquire such other interests in property as may be required adequately to maintain and operate the underground reservoir facilities. The acquisition by the exercise of the right of eminent domain of underground reservoirs granted by this section is limited as follows:

(a) No sand, formation, or stratum which is producing or has produced, or which is capable of producing oil, is subject to appropriation under this section.

(b) No gas-bearing sand, formation, or stratum is subject to appropriation under this section, unless the recoverable volumes of native gas therein have all been produced or unless the sand, formation or stratum has a greater value or utility as an underground reservoir for the purpose of ensuring an adequate supply of natural gas for domestic, commercial, or industrial consumers of natural gas, or for the conservation of natural gas, than for the production of the remaining relatively small volumes

of native gas as compared with the original volumes of natural gas therein. Gas, sand, formation or stratum may not be acquired under this chapter when the gas in the underground reservoir is being used for the secondary recovery of oil, unless gas in necessary and required amounts is furnished to the operator of the secondary recovery operations for as long as oil is produced in paying quantities in the secondary operations for the recovery of oil at the same cost as the cost to the operator at the time of acquisition of the gas being used in the secondary operations, not exceeding, however, the quantity of the appropriated gas that remained recoverable from the sand, formation or stratum at the time of its acquisition, if the operator was at that time entitled to the whole thereof, or if the operator was at that time entitled to less than the whole thereof, then not to exceed the quantity thereof to which the operator was then entitled.

(c) Only the area of the underground sand, formation or stratum as may reasonably be expected to be penetrated by gas displaced or injected into the underground gas storage reservoir may be appropriated.

(d) No rights or interests in existing underground gas reservoirs, being used for the injection, storage or withdrawal of natural gas, owned or operated by a natural gas public utility other than the natural gas public utility seeking to acquire the same, are subject to appropriation.

(2) The exercise of the right of eminent domain granted by this section shall be without prejudice to the rights of the owner of the lands or of other rights or interests therein to drill or bore into or through the underground reservoir so appropriated in a manner that complies with orders and rules of the board issued for the purpose of protecting the underground reservoir against pollution and against the escape of natural gas therefrom, and shall be without prejudice to the rights of the owner of the lands or other rights or interests therein as to all other uses thereof. The additional cost of complying with those rules or orders in order to protect the storage reservoir shall be paid by the natural gas public utility.

History: En. Sec. 3, Ch. 259, L. 1955; amd. Sec. 85, Ch. 253, L. 1974.

Amendments

The 1974 amendment substituted "board" in both subsections for "commission"; sub-

stituted "chapter" in the second sentence of subdivision (1)(b) for "act"; deleted "as defined in this act" in subdivision (1)(d) after the first reference to "public utility"; and made minor changes in style, punctuation and phraseology.

60-804. Certificate of board—publication. A natural gas public utility desiring to exercise the right of eminent domain as to any property for use for underground storage of natural gas shall, as a condition precedent to the filing of its complaint in the district court, apply for and obtain from the board a certificate setting out the findings of the board:

(a) that the underground sand, stratum or formation sought to be acquired is suitable for an underground reservoir for the storage of natural gas and that its use for such purposes is in the public interest;

(b) the amount of native gas, if any, remaining therein and the portion thereof recoverable;

(c) and that the applicant has in good faith sought to acquire the rights sought under this chapter. The board may not issue the certificate until after a public hearing is had on the application, pursuant to notice

given to all persons known to have an interest in the property proposed to be acquired in the manner provided by the laws of the state for service of process in a civil action.

History: En. Sec. 4, Ch. 259, L. 1955; amd. Sec. 86, Ch. 253, L. 1974.

Amendments

The 1974 amendment substituted "board" throughout the section for "commission"; substituted "rights sought under this chapter" in subdivision (c) for "rights sought hereunder"; deleted "as set forth in Chap-

ter 30, Title 93, Revised Codes of Montana of 1947, as amended, and the executive secretary of the commission shall for such purposes be vested with the same powers and charged with the same duties as the clerk of the district court has under said chapter" at the end of the section; and made minor changes in style, punctuation and phraseology.

60-805. Proceedings. A natural gas public utility having first obtained a certificate from the board desiring to exercise the right of eminent domain for the purpose of acquiring property for the underground storage of natural gas shall do so in the manner provided in this section. The natural gas public utility shall present to the district court of the county wherein the land is situated a complaint setting forth the purpose for which the property is sought to be acquired, a description of the property sought to be appropriated and the names of the owners thereof as shown by the records of the county. The plaintiff shall file the certificate of the board as a part of its complaint and no order by the court granting the complaint shall be entered without the certificate being filed therewith. Subsequent proceedings shall follow the procedure provided by law in the exercise of the rights of eminent domain, sections 93-9901 et seq.

Absence of Consent

Evidence that minor child had been supported during preceding four years by its father and aunt and uncle did not warrant order authorizing adoption of child by aunt and uncle after father's death where mother did not give consent and there was no evidence mother was able and failed to give support during that period. In re Adoption of Biery, — M —, 522 P 2d 1377.

Habeas Corpus

Habeas corpus proceeding seeking cus-

tody of children is an equitable proceeding, and whether the action is treated as habeas corpus or a petition to set aside an adoption, the welfare of the child is the paramount factor. Conley v. Walden, — M —, 533 P 2d 955.

Judicial Ruling of Other States

In granting petition for adoption without consent of parents, Montana court was entitled to rely on ruling of Missouri court depriving parents of custody, and even though parents, five years later, persuaded the Missouri court to set aside its ruling, the Montana adoption was made in the best interests of the children and would not be set aside. Conley v. Walden, — M —, 533 P 2d 955.

Noncompliance

Mother, after executing affidavit of waiver and consent to adoption, could not effectively revoke that consent by letter addressed to county department of public welfare, without following the procedure prescribed by this section. Application of Hendrickson, 159 M 217, 496 P 2d 1115.

(f) a full description and statement of value of all property owned or possessed by the child;

(g) facts, if any, which excuse consent on the part of a parent to the adoption.

(2) One copy of the petition shall be retained by the court. The other shall be sent to the department of social and rehabilitation services. An additional copy shall be sent to any agency participating in the adoption proceeding.

(3) Any written consent required by this act may be attached to the petition or may be filed after the filing of the petition, with the consent of the court.

History: En. Sec. 8, Ch. 240, L. 1957; amd. Sec. 48, Ch. 121, L. 1974; amd. Sec. 18, Ch. 33, L. 1977.

Such investigation if ordered by the court shall include the conditions and antecedents of the child for the purpose of determining whether he is a proper subject for adoption; appropriate inquiry to determine whether the proposed home is a suitable one for the child; and any other circumstances and conditions which may have a bearing on the adoption and of which the court should have knowledge.

History: En. Sec. 9, Ch. 240, L. 1957; amd. Sec. 48, Ch. 121, L. 1974; amd. Sec. 2, Ch. 495, L. 1975.

(b) Such citation, together with a copy of the petition for adoption, shall be personally served upon such parent or parents. If, however, any such parent or parents cannot be found within this state, service may be had by publication of a copy of the citation in the manner provided for the publication of summons by Rule 4, M.R.Civ.P.

(3) If, after completion of such service, any parent so served does not appear, the court may act upon the petition and the order of the court thereon shall be binding upon all persons so served; provided that any such person may appeal from the order in the manner and form provided for appeals from a judgment in civil actions.

(4) The petitioners and the child shall appear at the hearing, unless the presence of the child is waived by the court.

(5) Service of process, as aforesaid, need not be made on a parent who has consented in writing to an adoption; or on any parent whose consent to adoption is not required under the provisions of 61-205 or 61-325, and service of process shall not be made on any parent who has relinquished his child to the department of social and rehabilitation services or an adoption agency licensed by the department.

(6) After an interlocutory decree has been issued by the court, the investigator, if any, shall observe the child in his adoptive home and report in writing to the court within 6 months on any circumstances or conditions which may have a bearing on the adoption. After 6 months from the date of the interlocutory decree, the petitioners may apply to the court for a final decree of adoption. The court shall thereupon set a time and place for final hearing. Notice of the time and date of the hearing shall be served on the department of social and rehabilitation services and the investigator, if any. The investigator, if any, shall file with the court a written report of his findings and recommendations and certify that the described investigation, if any, has been made since the granting of the interlocutory decree. After hearing on said application, at which the petitioners and the child shall appear, unless the presence of the child is waived by the court, the court may enter a final decree of adoption if satisfied that the adoption is for the best interests of the child. If the adoption is denied, an appropriate order shall be made as to the future custody of the child.

61-301. Short title. This act may be cited as the "Uniform Parentage Act."

History: En. 61-301 by Sec. 1, Ch. 512, L. 1975.

Title of Act

An act to be known as the "Uniform Parentage Act" relating to matters concerning the parent-child relationship, its establishment and its termination; amending sections 61-105 and 61-205, R. C. M. 1947; and repealing sections 61-103, 61-108, 93-2901-1 through 93-2901-11, R. C. M. 1947.

61-302. Parent and child relationship defined. As used in this act, "parent and child relationship" means the legal relationship existing between a child and his natural or adoptive parents incident to which the law confers or imposes rights, privileges, duties, and obligations. It includes the mother and child relationship and the father and child relationship.

History: En. 61-302 by Sec. 2, Ch. 512, L. 1975.

61-303. Relationship not dependent on marriage. The parent and child relationship extends equally to every child and to every parent, regardless of the marital status of the parents.

History: En. 61-303 by Sec. 3, Ch. 512, L. 1975.

61-304. How parent and child relationship established. The parent and child relationship between a child and

- (1) the natural mother may be established by proof of her having given birth to the child, or under this act;
- (2) the natural father may be established under this act;
- (3) an adoptive parent may be established by proof of adoption.

History: En. 61-304 by Sec. 4, Ch. 512, L. 1975.

61-305. Presumption of paternity. (1) A man is presumed to be the natural father of a child if:

(a) he and the child's natural mother are or have been married to each other and the child is born during the marriage, or within three hundred (300) days after the marriage is terminated by death, annulment, declaration of invalidity, or divorce, or after a decree of separation is entered by a court;

(b) before the child's birth, he and the child's natural mother have attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and,

(i) if the attempted marriage could be declared invalid only by a court, the child is born during the attempted marriage, or within three

hundred (300) days after its termination by death, annulment, declaration of invalidity, or divorce; or

(ii) if the attempted marriage is invalid without a court order, the child is born within three hundred (300) days after the termination of cohabitation;

(c) after the child's birth, he and the child's natural mother have married, or attempted to marry, each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and

(i) he has acknowledged his paternity of the child in writing filed with the department of health and environmental sciences or with the district court for the county where he resides, or

(ii) with his consent, he is named as the child's father on the child's birth certificate, or

(iii) he is obligated to support the child under a written voluntary promise or by court order;

(d) while the child is under the age of majority, he receives the child into his home and openly holds out the child as his natural child; or

(e) he acknowledges his paternity of the child in a writing filed with the department of health and environmental sciences or with the district court of the county where he resides, which court or department shall promptly inform the mother of the filing of the acknowledgment, and she does not dispute the acknowledgment within a reasonable time after being informed thereof, in a writing filed with the department of health and environmental sciences or with the district court of the county where the acknowledgment was filed. If another man is presumed under this section to be the child's father, acknowledgment may be effected only with the written consent of the presumed father or after the presumption has been rebutted.

(2) A presumption under this section may be rebutted in an appropriate action by a preponderance of the evidence.

History: En. 61-305 by Sec. 5, Ch. 512,
L. 1975.

61-306. Artificial insemination. (1) If, under the supervision of a licensed physician and with the consent of her husband, a wife is inseminated artificially with semen donated by a man not her husband, the husband is treated in law as if he were the natural father of a child thereby conceived. The husband's consent must be in writing and signed by him and his wife. The physician shall certify their signatures and the date of the insemination, and file the husband's consent with the department of health and environmental sciences, where it shall be kept confidential and in a sealed file. However, the physician's failure to do so does not affect the father and child relationship. All papers and records pertaining to the insemination, whether part of the permanent record of a court or of a file held by the supervising physician or elsewhere, are subject to inspection only upon an order of the court for good cause shown.

(2) The donor of semen provided to a licensed physician for use in artificial insemination of a married woman other than the donor's wife is treated in law as if he were not the natural father of a child thereby conceived.

History: En. 61-306 by Sec. 6, Ch. 512,
L. 1975.

61-307. Determination of father and child relationship—who may bring action. (1) Any interested party may bring an action for the purpose of determining the existence or nonexistence of the father and child relationship presumed pursuant to section 61-305.

(2) An action to determine the existence of the father and child relationship with respect to a child who has no presumed father under section 61-305 may be brought by the child, the mother or personal representative of the child, the department of social and rehabilitation services or its appropriate local affiliate, the personal representative or a parent of the mother if the mother has died, a man alleged or alleging himself to be the father, or the personal representative or a parent of the alleged father if the alleged father has died or is a minor.

(3) Regardless of its terms, an agreement, other than an agreement approved by the court in accordance with section 61-314 (2), between an alleged or presumed father and the mother or child, does not bar an action under this section.

(4) If an action under this section is brought before the birth of the child, all proceedings shall be stayed until after the birth, except service of process and the taking of depositions to perpetuate testimony.

History: En. 61-307 by Sec. 7, Ch. 512,
L. 1975.

61-308. Statute of limitations. (1) Limitation when father and child relationship is presumed.

(a) An action may be commenced at any time for the purpose of declaring the existence of the father and child relationship presumed under paragraph (a), (b), or (c) of section 61-305 (1); or

(b) For the purpose of declaring the nonexistence of the father and child relationship presumed under paragraph (a), (b), or (c) of section 61-305 (1) only if the action is brought within a reasonable time after obtaining knowledge of relevant facts, but in no event later than five (5) years after the child's birth. After the presumption has been rebutted, paternity of the child by another man may be determined in the same action, if he has been made a party.

(2) Limitations when father-child relationship is not presumed. An action to determine the existence or nonexistence of the father and child relationship as to a child who has no presumed father under section 61-305 may not be brought later than three (3) years after the birth of the child, or later than three (3) years after the effective date of this act, whichever is later. Sections 61-307 and 61-308 do not extend the time within which a right of inheritance or a right to a succession may be

asserted beyond the time provided by law relating to distribution and closing of decedents' estates or to the determination of heirship, or otherwise.

(3) After the conclusion of an adoption proceeding under chapter 2, Title 61, no further action to declare the existence or nonexistence of the father and child relationship of the adopted child may be commenced except as provided for in section 61-325 for fraud, and section 61-206, R. C. M. 1947.

History: En. 61-308 by Sec. 8, Ch. 512, L. 1975.

61-309. Jurisdiction—venue. (1) The district court has jurisdiction of an action brought under this act. The action may be joined with an action for dissolution, annulment, separate maintenance, support, or adoption.

(2) For purposes of an action brought under this act, personal jurisdiction is established in the courts of this state over any person who has had sexual intercourse in this state which has resulted in the birth of a child who is the subject of such proceedings. In addition to any other method provided by rule or statute, personal jurisdiction may be acquired by service in accordance with Rule 4B of the Montana rules of civil procedure.

(3) The action may be brought in the county in which the child or the alleged father resides or is found or, if the father is deceased, in which proceedings for probate of his estate have been or could be commenced.

History: En. 61-309 by Sec. 9, Ch. 512, L. 1975; amd. Sec. 21, Ch. 33, L. 1977.

deleted "including Rule 4B of the Montana Rules of Civil Procedure" after "rule or statute" in the second sentence of subsection (2); and made minor changes in punctuation and style.

Amendments

The 1977 amendment substituted "dissolution" for "divorce" in subsection (1);

61-310. Parties. The child shall be made a party to the action. If he is a minor he shall be represented by his general guardian or a guardian ad litem appointed by the court. The child's mother or father may not represent the child as guardian or otherwise. The court may appoint the department of social and rehabilitation services or the appropriate county welfare department as guardian ad litem for the child. The natural mother, each man presumed to be the father under section 61-305, and each man alleged to be the natural father, shall be made parties or, if not subject to the jurisdiction of the court, shall be given notice of the action in a manner prescribed by the court and an opportunity to be heard. The court may align the parties.

History: En. 61-310 by Sec. 10, Ch. 512, L. 1975.

61-311. Pre-trial proceedings. (1) As soon as practicable after an action to declare the existence or nonexistence of the father and child relationship has been brought, an informal hearing shall be held. The court may order that the hearing be held before a referee. The public shall be barred from the hearing. A record of the proceeding shall be kept.

(2) Upon refusal of any witness, including a party, to testify under oath or produce evidence, the court may order him to testify under oath and produce evidence concerning all relevant facts. If the refusal is upon the ground that his testimony or evidence might tend to incriminate him, the court may grant him immunity from all criminal liability on account of the testimony or evidence he is required to produce. An order granting immunity bars prosecution of the witness for any offense shown in whole or in part by testimony or evidence he is required to produce, except for perjury committed in his testimony. The refusal of a witness, who has been granted immunity, to obey an order to testify or produce evidence is a civil contempt of the court.

History: En. 61-311 by Sec. 11, Ch. 512,
L. 1975.

61-312. Blood tests. (1) The court may, and upon request of a party shall, require the child, mother, or alleged father to submit to blood tests. The tests shall be performed by an expert qualified as an examiner of blood types, appointed by the court.

(2) The court, upon reasonable request by a party, shall order that independent tests be performed by other experts qualified as examiners of blood types.

(3) In all cases, the court shall determine the number and qualifications of the experts.

History: En. 61-312 by Sec. 12, Ch. 512,
L. 1975.

61-313. Evidence relating to paternity. Evidence relating to paternity may include:

(1) evidence of sexual intercourse between the mother and alleged father at any possible time of conception;

(2) an expert's opinion concerning the statistical probability of the alleged father's paternity based upon the duration of the mother's pregnancy;

(3) blood test results, weighted in accordance with evidence, if available, of the statistical probability of the alleged father's paternity;

(4) medical or anthropological evidence relating to the alleged father's paternity of the child based on tests performed by experts. If a man has been identified as a possible father of the child, the court may, and upon request of a party shall, require the child, the mother and the man to submit to appropriate tests; and

(5) all other evidence relevant to the issue of paternity of the child.

History: En. 61-313 by Sec. 13, Ch. 512,
L. 1975.

61-314. Pre-trial recommendations. (1) On the basis of the information produced at the pre-trial hearing, the judge or referee conducting the hearing shall evaluate the probability of determining the existence or nonexistence of the father and child relationship in a trial and whether a judicial declaration of the relationship would be in the best interest of

the child. On the basis of the evaluation, an appropriate recommendation for settlement shall be made to the parties, which may include any of the following:

(a) that the action be dismissed with or without prejudice;

(b) that the matter be compromised by an agreement among the alleged father, the mother, and the child, in which the father and child relationship is not determined but in which a defined economic obligation is undertaken by the alleged father in favor of the child and, if appropriate, in favor of the mother, subject to approval by the judge or referee conducting the hearing. In reviewing the obligation undertaken by the alleged father in a compromise agreement, the judge or referee conducting the hearing shall consider the best interest of the child in the light of the factors enumerated in section 61-316 (5), discounted by the improbability, as it appears to him, of establishing the alleged father's paternity or non-paternity of the child in a trial of the action. In the best interest of the child, the court may order that the alleged father's identity be kept confidential. In that case, the court may designate a person or agency to receive from the alleged father and disburse on behalf of the child all amounts paid by the alleged father in fulfillment of obligations imposed on him; and

(c) that the alleged father voluntarily acknowledge his paternity of the child.

(2) If the parties accept a recommendation made in accordance with subsection (1), judgment shall be entered accordingly.

(3) If a party refuses to accept a recommendation made under subsection (1) and blood tests have not been taken, the court shall require the parties to submit to blood tests, if practicable. Thereafter the judge or referee shall make an appropriate final recommendation. If a party refuses to accept the final recommendation, the action shall be set for trial.

(4) If the scientific evidence resulting from the blood tests conclusively shows that the defendant could not have been the father then the instant action shall be dismissed.

(5) The guardian ad litem may accept or refuse to accept a recommendation under this section.

(6) The informal hearing may be terminated and the action set for trial if the judge or referee conducting the hearing finds unlikely that all parties would accept a recommendation he might make under subsection (1) or (3).

History: En. 61-314 by Sec. 14, Ch. 512,
L. 1975.

61-315. Civil action. (1) An action under this act is a civil action governed by the rules of civil procedure. The mother of the child and the alleged father are competent to testify and may be compelled to testify. Section 61-311, subsection (2) and sections 61-312 and 61-313 apply to all action brought under this act.

(2) Testimony relating to sexual access to the mother by an unidentified man at any time or by an identified man at a time other than the

probable time of conception of the child is inadmissible in evidence, unless offered by the mother.

(3) In an action against an alleged father, evidence offered by him with respect to a man who is not subject to the jurisdiction of the court concerning his sexual intercourse with the mother at or about the probable time of conception of the child is admissible in evidence only if the alleged father has undergone and made available to the court blood tests the results of which do not exclude the possibility of his paternity of the child. A man who is identified and is subject to the jurisdiction of the court shall be made a defendant in the action.

History: En. 61-315 by Sec. 15, Ch. 512,
L. 1975.

61-316. Judgment or order. (1) The judgment or order of the court determining the existence or nonexistence of the parent and child relationship is determinative for all purposes.

(2) If the judgment or order of the court is at variance with the child's birth certificate, the court shall order that a substitute birth certificate be issued under section 61-324.

(3) The judgment or order may contain any other provision directed against the appropriate party to the proceeding, concerning the duty of support, the custody and guardianship of the child, visitation privileges with the child, the furnishing of bond or other security for the payment of the judgment, or any other matter in the best interest of the child. The judgment or order may direct the father to pay the reasonable expenses of the mother's pregnancy and confinement.

(4) Support judgments or orders ordinarily shall be for periodic payments which may vary in amount. In the best interest of the child, a lump-sum payment or the purchase of an annuity may be ordered in lieu of periodic payments of support. The court may limit the father's liability for past support of the child to the proportion of the expenses already incurred that the court deems just.

(5) In determining the amount to be paid by a parent for support of the child and the period during which the duty of support is owed, a court enforcing the obligation of support shall consider all relevant facts, including:

- (a) the needs of the child;
- (b) the standard of living and circumstances of the parents;
- (c) the relative financial means of the parents;
- (d) the earning ability of the parents;
- (e) the need and capacity of the child for education, including higher education;
- (f) the age of the child;
- (g) the financial resources and the earning ability of the child;
- (h) the responsibility of the parents for the support of others; and
- (i) the value of services contributed by the custodial parent.

Section 61-317 (Sec. 17, Ch. 512, L. 1975), relating to costs in paternity ac-

tions, was repealed by Sec. 8, Ch. 422, Laws 1977.

61-318. Enforcement of judgment or order. (1) If existence of the father and child relationship is declared, or paternity or a duty of support has been acknowledged or adjudicated under this act or under prior law the court may order support payments to be made to the mother, the clerk of the court, or a person, corporation, or agency designated to administer them for the benefit of the child under the supervision of the court.

(2) Willful failure to obey the judgment or order of the court is a civil contempt of the court. All remedies for the enforcement of judgments apply.

History: En. 61-318 by Sec. 18, Ch. 512, L. 1975.

61-319. Modification of judgment or order. The court has continuing jurisdiction to modify or revoke a judgment or order

(1) for future education and support, and

(2) with respect to matters listed in section 61-316, subsections (3) and (4) and section 61-318 (2), except that a court entering a judgment or order for the payment of a lump sum or the purchase of an annuity under section 61-316 (4) may specify that the judgment or order may not be modified or revoked.

All papers and records, other than the final judgment, pertaining to the action or proceeding, whether part of the permanent record of the court or of a file in any agency of the state or of any political subdivision or elsewhere, are subject to inspection only upon consent of the court and all interested persons, or in exceptional cases only upon an order of the court for good cause shown.

61-322. Action to declare mother and child relationship. Any interested party may bring an action to determine the existence or nonexistence of a mother and child relationship. In so far as practicable, the provisions of this act applicable to the father and child relationship apply.

History: En. 61-322 by Sec. 22, Ch. 512, L. 1975.

61-323. Promise to render support. (1) Any promise in writing to furnish support for a child growing out of a supposed or alleged father and child relationship does not require consideration and is enforceable according to its terms, subject to 61-307(4).

(3) If the person from whom a release is required is a member of any of the armed services or is in prison, the release may be executed and acknowledged before any person authorized by law to administer oaths.

(4) If the release is executed in another state or country, the court having jurisdiction over the adoption proceeding in this state shall determine whether the release was executed in accordance with the laws of that state or country and may not proceed unless it finds that the release was so executed.

(5) Upon the filing of the release of a child by a parent or guardian, the court immediately shall issue an order terminating the rights of that parent or guardian to that child. If the rights of both parents, the surviving parent, or the guardian have been terminated, the court shall issue an order committing the child to the agency of the state of Montana, the licensed adoption agency, or the person to which the release was given.

(6) Entry of an order terminating the rights of both parents pursuant to subsection (5) terminates the jurisdiction of the district court over the child in any divorce or separate maintenance action.

(7) Upon petition of the person or persons who executed the release and of the agency of the state of Montana, licensed adoption agency, or person to which the child was released, the court with which the release was filed may grant a hearing to consider whether the release should be revoked. A release may not be revoked if the child has been placed for adoption. A verbatim record of testimony related to a petition to revoke a release shall be made.

History: En. 61-328 by Sec. 1, Ch. 422, L. 1977. termination of the parental rights of children proposed to be released for adoption; repealing sections 61-317, 61-325, and 61-326, R.C.M. 1947; and providing an effective date.

Title of Act

An act to clarify the procedures for the

61-329. Children born out of wedlock—release—consent. (1) If the mother of a child born out of wedlock proposes to release the child for adoption and the release or consent of the natural father cannot be obtained, the child may not be placed for adoption until the parental rights of the father are terminated by the court as provided in this chapter, by the court pursuant to Title 10, chapter 13, or by a court of competent jurisdiction in another state or country.

(2) Pending the termination or other disposition of the rights of the father of the child born out of wedlock, the mother may execute a release terminating her rights to the child. If the mother releases the child, the agency of the state of Montana, the licensed adoption agency, or the person to which the child is released may file a petition under this chapter or a petition of dependency or neglect pursuant to Title 10, chapter 13. Pending disposition of the petition, the court may enter an order authorizing temporary care of the child.

(3) At the request of the mother, her formal execution of a release shall be delayed until after the court has determined the identity of the father and has awarded custody of the child to the father or terminated his rights under this chapter.

History: En. 61-329 by Sec. 2, Ch. 422,
L. 1977.

61-330. Notice of intent to claim paternity. (1) Before the birth of a child born out of wedlock, a person claiming under oath to be the father of the child may file a verified notice of intent to claim paternity with the district court in any county of this state. The form of the notice shall be prescribed by the director of the department of health and environmental sciences and supplied to the clerks of the district courts. The notice shall include the claimant's address. On the next business day after receipt of the notice, the court shall transmit the notice to the records and statistics bureau of the department of health and environmental sciences. If the mother's address is stated on the notice, the records and statistics bureau shall send a copy of the notice by first-class mail to the mother of the child at the stated address.

(2) A person filing a notice of intent to claim paternity or acknowledging paternity in accordance with 61-305 shall be presumed to be the father of the child for purposes of this chapter unless the mother denies that the claimant is the father. Such notice is admissible in a paternity proceeding under 61-307 and creates a rebuttable presumption as to the paternity of that child for purposes of that section. Such notice creates a rebuttable presumption as to paternity of the child for purposes of a dependency or neglect proceeding under Title 10, chapter 13.

(3) A person who makes a timely filing of notice of intent to claim paternity or who formally acknowledges paternity under 61-305 is entitled to notice of any hearing to determine the identity of the father of the child and any hearing to determine or terminate his paternal rights to the child.

History: En. 61-330 by Sec. 3, Ch. 422,
L. 1977.

61-331. Expected child—intent to release or consent, petition and notice. (1) In order to provide due notice at the earliest possible time to a putative father who may have an interest in the custody of an expected child or in the mother's intended release of an expected child for adoption and in order to facilitate early placement of a child for adoption, a woman

pregnant out of wedlock may file with the district court an ex parte petition which sets forth the following:

- (a) her intent to release her expected child for adoption;
- (b) the approximate date and location of conception;
- (c) the expected date of her delivery; and
- (d) the identity and whereabouts of the putative father of her expected child.

(2) The petition may allege more than one putative father whenever circumstances warrant. The petition shall be verified. Upon the filing of the petition, the court shall issue a notice of intent to release, which notice shall be served upon the putative father or fathers in the manner provided by the Montana rules of civil procedure or in any other manner which the court may direct. Proof of such service shall be filed with the court.

(3) A notice of intent to release shall:

- (a) indicate the approximate date and location of conception of the child and the expected date of delivery;
- (b) inform the putative father of his right under 61-330 to file a notice of intent to claim paternity before the birth of the child;
- (c) inform the putative father of the rights to which his filing of notice of intent to claim paternity will entitle him under 61-330(3); and
- (d) inform the putative father that his failure to file a notice of intent to claim paternity before the expected date of delivery constitutes a waiver of his right to receive the notice to which he would otherwise be entitled under 61-330(3) and constitutes a denial of his interest in the custody of the child, which denial shall result in the court's termination of his rights to the child.

(4) The petition shall be filed with the court not later than 30 days prior to the expected date of delivery.

History: En. 61-331 by Sec. 4, Ch. 422,
L. 1977.

61-332. Proceeding to determine father's identity and terminate rights.

(1) If a child is born out of wedlock and the mother executes or proposes to execute a release terminating her rights to the child or if the child otherwise becomes the subject of an adoption proceeding, the agency or person to whom the child has been or is to be relinquished or the mother or person having custody of the child shall file a petition in the district court to terminate the parental rights of the father, unless the father's relationship to the child has been previously terminated or determined not to exist by the court. The court shall hold a hearing as soon as practical to determine the identity of the father and to determine or terminate the rights of the father as provided in this section and in 61-333 and 61-334. This section is not applicable if the father is a person whose consent to adoption is not required under 61-205.

(2) Proof of service of a notice of intent to release or the putative father's verified acknowledgment of notice of intent to release shall be filed with the court, if such notice was given to the putative father. The

court shall request the records and statistics bureau of the department of health and environmental sciences to send to the court a copy of any notice of intent to claim paternity of the particular child which the bureau has received.

(3) If the mother has failed to name a putative father or has failed to file a notice of intent to release, the court shall cause inquiry to be made of the mother in an effort to identify the natural father. The inquiry shall include the following: whether the mother was married at the time of conception of the child or at any time thereafter; whether the mother was cohabitating with a man at the time of conception or birth of the child; whether the mother has received support payments or promises of support payments with respect to the child or in connection with her pregnancy; or whether any man has formally or informally acknowledged or declared his possible paternity of the child. Notwithstanding this section or any other provisions of law and in consideration of her right to privacy, no mother of a child who is the subject of proceedings under this act may be compelled to testify concerning, or to divulge the identity of, the father or possible father of that child.

(4) Notice of the hearing shall be served upon the following persons in the manner appropriate under the Montana rules of civil procedure or any manner which the court shall direct:

(a) a putative father who has timely filed a notice of intent to claim paternity as provided in 61-330 or 61-331;

(b) a putative father who has not been served with a notice of intent to release at least 30 days before the expected date of delivery specified in the notice of intent to release;

(c) any other male who was not served pursuant to 61-331(2) with a notice of intent to release and who the court, after inquiry of the mother or any other appropriate person, has reason to believe may be the father of the child.

(5) The notice of hearing shall inform the putative father that his failure to appear at the hearing constitutes a denial of his interest in custody of the child, which denial will result in the court's termination of his rights to the child.

(6) Proof of service of the notice of hearing required by subsection (4) shall be filed with the court. A verified acknowledgment of service by the party to be served is proof of personal service. Notice of hearing need not be required if the putative father is present at the hearing. A waiver of notice of hearing by a person entitled to receive it is sufficient. If no person has been identified as the natural father or possible father, the court, on the basis of all information available, shall determine whether publication or public posting of notice of the proceeding is likely to lead to identification and, if so, shall order publication or public posting at the times and places and in the manner it considers appropriate. The name of the natural mother may be included in such publication only with her written consent.

(7) At the hearing, the court shall receive evidence as to the identity of the father of the child. Based upon the evidence received and the court's

inquiry, the court shall enter a finding identifying the father or declaring that the identity of the father cannot be determined.

(8) If the court finds that the father of the child is a person who did not receive either a timely notice of intent to release pursuant to 61-331 or a notice required pursuant to 61-332(4) and who has not waived his right to notice of hearing and is not present at the hearing, the court shall adjourn further proceedings until that person is served with a notice of hearing.

History: En. 61-332 by Sec. 5, Ch. 422,
L. 1977.

61-333. Grounds for termination of father's rights. (1) If the court has proof that the person who it determines pursuant to 61-332 to be the father of the child was timely served with notice of intent to release pursuant to 61-331 or was served with or waived the notice of hearing required by 61-332(4), the court may permanently terminate the rights of the putative father if:

(a) the putative father submits a verified acknowledgment of his paternity and a denial of his interest in custody of the child;

(b) the putative father files a denial of paternity. For purposes of this section the filing of the denial of paternity constitutes a waiver of notice of hearing and constitutes a denial of his interests in the custody of the child.

(c) the putative father was served with a notice of intent to release in accordance with 61-331(2) at least 30 days before the expected date of delivery specified in that notice but failed to file an intent to claim paternity either before the expected date of delivery or before the birth of the child; or

(d) the putative father is given proper notice of hearing in accordance with subsection (4) or (6) of 61-332 but either fails to appear at the hearing or appears and denies his interest in the custody of the child.

(2) If the identity of the father cannot be determined or if the identity of the father is known but his whereabouts cannot be determined, the court shall receive evidence to determine the facts in the matter. The court may terminate the rights of the putative father if the court finds from the evidence that reasonable effort has been made to identify and locate the father and that any of the following circumstances exist:

(a) The putative father, whose identity is not known, has not made a provision for the child's care and did not provide support for the mother during her pregnancy or during her hospitalization.

(b) The putative father, whose identity is known but whose whereabouts are unknown, has not provided support for the mother, has not shown any interest in the child, and has not made provision for the child's care, for at least 90 days preceding the hearing required under 61-332.

(3) Subject to the disposition of an appeal, upon the expiration of 6 months after an order terminating parental rights is issued under this section, the order cannot be questioned by any person, in any manner or upon any ground, including fraud, misrepresentation, failure to give any

required notice, or lack of jurisdiction of the parties or of the subject matter.

History: En. 61-333 by Sec. 6, Ch. 422, L. 1977.

61-334. Best interests of the child—custody to father—legitimation.

(1) If the putative father appears at the hearing and requests custody of the child, the court shall inquire into his fitness and his ability to properly care for the child and shall determine whether the father's parental rights should be given recognition in view of his effort or lack of effort to make provision for the mother while she was pregnant and for the child upon birth and whether the best interests of the child will be served by granting custody to him or to the agency of the state of Montana, licensed adoption agency, or person to which the mother has released or proposed to release custody of the child. If the court finds that it would not be in the best interests of the child to grant custody to the putative father, the court shall terminate his rights to the child.

(2) If the mother of the child has released the custody of the child to an agency of the state of Montana, a licensed adoption agency, or a person, the agency or person shall be a proper party to petition the court for custody of the child.

(3) If the parental rights of the mother are terminated pursuant to this chapter or other law and if the court awards custody of the child out of wedlock to the putative father, the court shall enter an order granting custody to the putative father and legitimating the child for all purposes.

61-401. Short title. This act may be cited as the "Uniform Child Custody Jurisdiction Act".

History: En. 61-401 by Sec. 1, Ch. 537, L. 1977.

Title of Act _____

An act to avoid jurisdictional conflict between states in child custody proceed-

ings; providing interstate judicial assistance in custody cases to discourage illegal schemes to gain possession of a child in contested custody proceedings; amending sections 48-315 and 48-331, R.C.M. 1947.

61-402. Purposes of act—construction of provisions. (1) The general purposes of this act are to:

(a) avoid jurisdictional competition and conflict with courts of other states in matters of child custody which have in the past resulted in the shifting of children from state to state with harmful effects on their well-being;

(b) promote cooperation with the courts of other states to the end that a custody decree is rendered in that state which can best decide the case in the interest of the child;

(c) assure that litigation concerning the custody of a child takes place ordinarily in the state with which the child and his family have the closest connection and where significant evidence concerning his care, protection, training, and personal relationships is most readily available and that courts of this state decline the exercise of jurisdiction when the child and his family have a closer connection with another state;

(d) discourage continuing controversies over child custody in the interest of greater stability of home environment and of secure family relationships for the child;

(e) deter abductions and other unilateral removals of children undertaken to obtain custody awards;

(f) avoid relitigation of custody decisions of other states in this state insofar as feasible;

(g) facilitate the enforcement of custody decrees of other states;

(h) promote and expand the exchange of information and other forms of mutual assistance between the courts of this state and those of other states concerned with the same child; and

(i) make uniform the law of those states which enact it.

(2) This act shall be construed to promote the general purposes stated in this section.

History: En. 61-402 by Sec. 2, Ch. 537, L. 1977.

(1) "Contestant" means a person, including a parent, who claims a right to custody or visitation rights with respect to a child.

(2) "Custody determination" means a court decision and court orders and instructions providing for the custody of a child, including visitation rights. It does not include a decision relating to child support or any other monetary obligation of any person.

(3) "Custody proceeding" includes proceedings in which a custody determination is one of several issues, such as an action for divorce or separation, and includes issues of custody in adoption proceedings. A "custody proceeding" is not a proceeding pursuant to Title 10, chapter 12, or Title 10, chapter 13.

(4) "Decree" or "custody decree" means a custody determination contained in a judicial decree or order made in a custody proceeding and includes an initial decree and a modification decree.

(5) "Home state" means the state in which the child, immediately preceding the time involved, lived with his parents, a parent, or a person acting as parent, for at least 6 consecutive months and in the case of a child less than 6 months old the state in which the child lived from birth with any of the persons mentioned. Periods of temporary absence of any of the named persons are counted as part of the 6-month or other period.

(6) "Initial decree" means the first custody decree concerning a particular child.

(7) "Modification decree" means a custody decree which modifies or replaces a prior decree, whether made by the court which rendered the prior decree or by another court.

History: En. 61-403 by Sec. 3, Ch. 537,
L. 1977.

61-404. Jurisdiction. The jurisdictional provisions of 49-331 apply to this act.

History: En. 61-404 by Sec. 4, Ch. 537,
L. 1977.

61-405. Notice and opportunity to be heard. Before making a decree under this act, reasonable notice and opportunity to be heard shall be given to the contestants, any parent whose parental rights have not been previously terminated, and any person who has physical custody of the child. If any of these persons are outside this state, notice and opportunity to be heard shall be given pursuant to 61-406.

History: En. 61-405 by Sec. 5, Ch. 537,
L. 1977.

61-406. Notice to persons outside this state—submission to jurisdiction.
(1) Notice required for the exercise of jurisdiction over a person outside

this state shall be given in a manner reasonably calculated to give actual notice and may be:

(a) by personal delivery outside this state in the manner prescribed for service of process within this state;

(b) in the manner prescribed by the law of the place in which the service is made for service of process in that place in an action in any of its courts of general jurisdiction;

(c) by any form of mail addressed to the person to be served and requesting a receipt; or

(d) as directed by the court including publication, if other means of notification are ineffective.

(2) Notice under this section shall be served, mailed, or delivered or last published at least 10 days before any hearing in this state.

(3) Proof of service outside this state may be made by affidavit of the individual who made the service or in the manner prescribed by the law of this state, the order pursuant to which the service is made, or the law of the place in which the service is made. If service is made by mail, proof may be a receipt signed by the addressee or other evidence of delivery to the addressee.

(4) Notice is not required if a person submits to the jurisdiction of the court.

History: En. 61-406 by Sec. 6, Ch. 537,
L. 1977.

61-407. Simultaneous proceedings in other states. (1) A court of this state may not exercise its jurisdiction under this act if at the time of filing the petition a proceeding concerning the custody of the child was pending in a court of another state exercising jurisdiction substantially in conformity with this act unless the proceeding is stayed by the court of the other state because this state is a more appropriate forum or for other reasons.

(2) Before hearing the petition in a custody proceeding, the court shall examine the pleadings and other information supplied by the parties under 61-410 and shall consult the child custody registry established under 61-417 concerning the pendency of proceedings with respect to the child in other states. If the court has reason to believe that proceedings may be pending in another state, it shall direct an inquiry to the state court administrator or other appropriate official of the other state.

(3) If the court is informed during the course of the proceeding that a proceeding concerning the custody of the child was pending in another state before the court assumed jurisdiction, it shall stay the proceeding and communicate with the court in which the other proceeding is pending to the end that the issue may be litigated in the more appropriate forum and that information be exchanged in accordance with 61-420 through 61-423. If a court of this state has made a custody decree before being informed of a pending proceeding in a court of another state, it shall immediately inform that court of the fact. If the court is informed that a proceeding was commenced in another state after it assumed jurisdiction, it shall likewise in-

form the other court to the end that the issues may be litigated in the more appropriate forum.

History: En. 61-407 by Sec. 7, Ch. 537,
L. 1977.

61-408. Inconvenient forum. (1) A court which has jurisdiction under this act to make an initial or modification decree may decline to exercise its jurisdiction any time before making a decree if it finds that it is an inconvenient forum to make a custody determination under the circumstances of the case and that a court of another state is a more appropriate forum.

(2) A finding of inconvenient forum may be made upon the court's own motion or upon motion of a party or a guardian ad litem or other representative of the child.

(3) In determining if it is an inconvenient forum, the court shall consider if it is in the interest of the child that another state assume jurisdiction. For this purpose it may take into account the following factors, among others:

- (a) if another state is or recently was the child's home state;
- (b) if another state has a closer connection with the child and his family or with the child and one or more of the contestants;
- (c) if substantial evidence concerning the child's present or future care, protection, training, and personal relationships is more readily available in another state;
- (d) if the parties have agreed on another forum which is no less appropriate; and
- (e) if the exercise of jurisdiction by a court of this state would contravene any of the purposes stated in 61-402.

(4) Before determining whether to decline or retain jurisdiction, the court may communicate with a court of another state and exchange information pertinent to the assumption of jurisdiction by either court with a view to assuring that jurisdiction will be exercised by the more appropriate court and that a forum will be available to the parties.

(5) If the court finds that it is an inconvenient forum and that a court of another state is a more appropriate forum, it may dismiss the proceedings or it may stay the proceedings upon condition that a custody proceeding be promptly commenced in another named state or upon any other conditions which may be just and proper, including the condition that a moving party stipulate his consent and submission to the jurisdiction of the other forum.

(6) The court may decline to exercise its jurisdiction under this act if a custody determination is incidental to an action for divorce or another proceeding while retaining jurisdiction over the divorce or other proceeding.

(7) If it appears to the court that it is clearly an inappropriate forum, it may require the party who commenced the proceedings to pay, in addition to the costs of the proceedings in this state, necessary travel and other

expenses, including attorneys' fees, incurred by other parties or their witnesses. Payment is to be made to the clerk of the court for remittance to the proper party.

(8) Upon dismissal or stay of proceedings under this section the court shall inform the court found to be the more appropriate forum of this fact or, if the court which would have jurisdiction in the other state is not certainly known, transmit the information to the court administrator or other appropriate official for forwarding to the appropriate court.

(9) Any communication received from another state informing this state of a finding of inconvenient forum because a court of this state is the more appropriate forum shall be filed in the custody registry of the appropriate court. Upon assuming jurisdiction, the court of this state shall inform the original court of this fact.

History: En. 61-408 by Sec. 8, Ch. 537,
L. 1977.

61-409. Jurisdiction declined by reason of conduct. (1) If the petitioner for an initial decree has wrongfully taken the child from another state or has engaged in similar reprehensible conduct, the court may decline to exercise jurisdiction if this is just and proper under the circumstances.

(2) Unless required in the interest of the child, the court may not exercise its jurisdiction to modify a custody decree of another state if the petitioner, without consent of the person entitled to custody, has improperly removed the child from the physical custody of the person entitled to custody or has improperly retained the child after a visit or other temporary relinquishment of physical custody. If the petitioner has violated any other provision of a custody decree of another state, the court may decline to exercise its jurisdiction if this is just and proper under the circumstances.

(3) In appropriate cases a court dismissing a petition under this section may charge the petitioner with necessary travel and other expenses, including attorneys' fees, incurred by other parties or their witnesses.

History: En. 61-409 by Sec. 9, Ch. 537,
L. 1977.

61-410. Information under oath to be submitted to the court. (1) Each party in a custody proceeding in his first pleading or in an affidavit attached to that pleading shall give information under oath as to the child's present address, the places where the child has lived within the last 5 years, and the names and present addresses of the persons with whom the child has lived during that period. In this pleading or affidavit each party shall further declare under oath whether:

(a) he has participated (as a party, witness, or in any other capacity) in any other litigation concerning the custody of the same child in this or any other state;

(b) he has information of any custody proceeding concerning the child pending in a court of this or any other state; and

(c) he knows of any person not a party to the proceedings who has physical custody of the child or claims to have custody or visitation rights with respect to the child.

(2) If the declaration as to any of the above items is in the affirmative, the declarant shall give additional information under oath as required by the court. The court may examine the parties under oath as to details of the information furnished and as to other matters pertinent to the court's jurisdiction and the disposition of the case.

(3) Each party has a continuing duty to inform the court of any custody proceeding concerning the child in this or any other state of which he obtained information during this proceeding.

History: En. 61-410 by Sec. 10, Ch. 537,
L. 1977.

61-411. Additional parties. If the court learns from information furnished by the parties pursuant to 61-410 or from other sources that a person not a party to the custody proceeding has physical custody of the child or claims to have custody or visitation rights with respect to the child, it shall order that person to be joined as a party and to be duly notified of the pendency of the proceeding and of his joinder as a party. If the person joined as a party is outside this state, he shall be served with process or otherwise notified in accordance with 61-406.

History: En. 61-411 by Sec. 11, Ch. 537,
L. 1977.

61-412. Appearance of parties and the child. (1) The court may order any party to the proceeding who is in this state to appear personally before the court. If that party has physical custody of the child, the court may order that he appear personally with the child.

(2) If a party to the proceeding whose presence is desired by the court is outside this state with or without the child, the court may order that the notice given under 61-406 include a statement directing that party to appear personally with or without the child and declaring that failure to appear may result in a decision adverse to that party.

(3) If a party to the proceeding who is outside this state is directed to appear under subsection (2) or desires to appear personally before the court with or without the child, the court may require another party to pay to the clerk of the court travel and other necessary expenses of the party so appearing and of the child, if this is just and proper under the circumstances.

History: En. 61-412 by Sec. 12, Ch. 537,
L. 1977.

61-413. Binding force and res judicata effect of custody decree. A custody decree rendered by a court of this state which had jurisdiction under 61-404 binds all parties who have been served in this state or notified in accordance with 61-406 or who have submitted to the jurisdiction of the court and who have been given an opportunity to be heard. As to these parties the custody decree is conclusive as to all issues of law and fact

decided and as to the custody determination made unless and until that determination is modified pursuant to law, including the provisions of this act.

History: En. 61-413 by Sec. 13, Ch. 537,
L. 1977.

62-601. Short title. This act may be cited as the "Open-Space Land and Voluntary Conservation Easement Act."

History: En. Sec. 1, Ch. 337, L. 1969;
amd. Sec. 1, Ch. 489, L. 1975.

Amendments

The 1975 amendment substituted the present title for "Open-Space Land Act."

62-602. Purposes of act. The legislature finds that the rapid growth and spread of urban development are creating critical problems of service and finance for the state and local governments; that the present and future rapid population growth in urban areas is creating severe problems of urban and suburban living; that this population spread and its attendant development is disrupting and altering the remaining natural areas, biotic communities, geological and geographical formations and, thereby, providing the potential for the destruction of scientific, educational, aesthetic, and ecological values; that the present and future rapid population spread throughout the state of Montana into its open spaces, are creating serious problems of lack of open space and overcrowding of the land; that to lessen congestion and to preserve natural, ecological, geographical and geological elements, the provision and preservation of open-space lands are necessary to secure park, recreational, historic and scenic areas and to conserve the land, its biotic communities, its natural resources, and its geological and geographic elements in their natural state; that the acquisition or designation of interests and rights in real property by certain qualifying private organizations and by public bodies to provide or preserve open-space land is essential to the solution of these problems, the accomplishment of these purposes, and the health and welfare of the citizens of the state; and that the exercise of authority to acquire or designate interests and rights in real property to provide or preserve open-space land and the expenditure of public funds for these purposes would be for a public purpose; and that the statutory provision enabling certain qualifying private organizations to acquire interests and rights in real property to provide or preserve open-space land is in the public interest.

In accordance with these findings, the legislature states that the purposes of this act are to authorize and enable public bodies and certain qualifying private organizations voluntarily to provide for the preservation of native plants or animals, or biotic communities, or geological or geographical formations of scientific, aesthetic or educational interest, and to provide for the preservation of other significant open-space land anywhere in the state either in perpetuity or for a term of years, and, furthermore to encourage private participation in such a program by establishing the policy to be utilized in determining the property tax to be levied upon the real property which is subject to the provisions of this act.

amd. Sec. 2, Ch. 489, L. 1975.

CHAPTER 2—PERSONAL RIGHTS—LIBEL AND SLANDER— PROTECTION OF PERSONAL RELATIONS

Section

- 64-207.1. Notice in writing to publisher of libelous or defamatory matter—opportunity to correct—defense and mitigation of damages.
- 64-209. Protection of personal relations.

64-203. (5690) Libel defined.

Multi-Publication Rule

Montana follows the multi-publication rule rather than the single publication rule in determining the situs and time of the tort in libel cases; under the multi-publication rule the cause of action arose upon

the arrival and sale of the allegedly libelous magazines in Montana rather than upon the first publication or printing in another state. *Lewis v. Reader's Digest Association, Inc.*, — M —, 512 P 2d 702.

64-204. (5691) Slander, what constitutes.

Falsity of Statements

Prior action against corporate director which had been terminated by accord and satisfaction was not proof of the falsity

of allegedly slanderous statements made in letters charging the director with breach of fiduciary duty. *Simkins v. Jaffe*, — M —, 527 P 2d 1195.

64-207.1. Notice in writing to publisher of libelous or defamatory matter—opportunity to correct—defense and mitigation of damages. Before any civil action shall be commenced on account of any libelous or defamatory publication in any newspaper, magazine, periodical, radio or television station, or cable television system, the libeled person shall first give those alleged to be responsible or liable for the publication a reasonable opportunity to correct the libelous or defamatory matter. Such opportunity shall be given by notice in writing specifying the article and the statements therein which are claimed to be false and defamatory and a statement of what are claimed to be the true facts. The notice may also state the sources, if any, from which the true facts may be ascertained with definiteness and certainty. The first issue of a newspaper, magazine or periodical published after the expiration of one week from the receipt of such notice shall be within a reasonable time for correction. In the case of radio and television stations and cable television systems a broadcast made at the same time of day as the broadcast complained of and of at least equal duration, which is made within seven (7) days following receipt of such notice shall be within a reasonable time for correction. To the extent that the true facts are, with reasonable diligence, ascertainable with definiteness and certainty, only a retraction shall constitute a correction; otherwise the publication of the libeled person's statement of the true facts, or so much thereof as shall not be libelous of another, scurrilous, or otherwise improper for publication, published as his statement, shall constitute a correction within the meaning of this section. If it shall appear upon trial that the publication was made under honest mistake or misapprehension, then a correction, timely published, without comment, in a position and type as prominent as the alleged libel, or in a broadcast made at the same time of day as the broadcast complained of and of at least equal duration, shall constitute a defense against the recovery of any damages except actual damages, as well as being competent and material in mitigation of actual damages to the extent the correction published does so mitigate them.

History: En. Sec. 1, Ch. 159, L. 1961; amd. Sec. 1, Ch. 58, L. 1971.

Amendments

The 1971 amendment inserted references to cable television systems in the first and fifth sentences; and made a minor change in punctuation.

Repealing Clause

Section 2 of Ch. 58, Laws 1971 repealed all acts and parts of acts in conflict therewith.

64-208. (5692) What communications are privileged.

Absence of Malice

It is not necessary to show the absence of malice in a publication in the proper discharge of an official duty in order for such publication to be privileged. *Storch v. Board of Directors of Eastern Montana Region Five Mental Health Center*, — M —, 545 P 2d 644.

Discharge of Official Duty

A communication from a mental health

center director to the center's program director seeking resignation of drug abuse consultant on grounds of personal unfitness, though possibly defamatory, was made by a public official in the discharge of his official duties and was, therefore, subject to an absolute privilege under this section. *Storch v. Board of Directors of Eastern Montana Region Five Mental Health Center*, — M —, 545 P 2d 644.

64-209. (5693) Protection of personal relations. The rights of personal relations forbid:

1. The abduction of a parent from a child;
2. The abduction or enticement of a wife from her husband or a husband from his wife, of a child from a parent or from a guardian entitled to its custody, or of a servant from a master;
3. The seduction of a spouse, child, orphan, or servant;
4. Any injury to a servant which affects the servant's ability to serve the master.

66-101.1. Purpose. It is hereby declared, as a matter of legislative policy in the state of Montana, that the practice of architecture is a privilege granted by legislative authority and is not a natural right of individuals and that it is necessary, as a matter of such policy and in the interests of the health, safety, and welfare of the people of Montana, to provide laws covering the granting of that privilege and its subsequent use, control, and regulation for the purpose of protecting the public from the unprofessional, improper, unauthorized, and unqualified practice of architecture.

History: En. 66-101.1 by Sec. 1, Ch. 544, L. 1977.

Title of Act

An act to describe the purpose of architecture licensing laws, define public building, provide for injunction of violations of such laws, revise the exemption provisions, prohibit other state agencies or political

subdivisions from charging architect license fees, make clear that any person rendering professional services on a public building must be licensed to practice architecture, and revise the requirement for errors and omissions insurance; amending sections 66-103, 66-106, 66-107, 66-110, 66-113, and 66-114, R.C.M. 1947; and repealing section 66-115, R.C.M. 1947.

66-102. (3230) Organization of board—powers, meetings and records.

(1) The board of architects must, during the first week in April of each year, elect from among its number a president, secretary, and treasurer, and must have a seal.

(2) The president and secretary may administer oaths in the examination of applications for certificates, and to witnesses called before the board for the transaction of business under this act.

(3) The board shall meet during the first week of April of each year, and at other times, at places the board determines.

(4) The department of professional and occupational licensing must keep a record of proceedings of the board, and also a register of applicants for a certificate, with the name and age of applicants and the number of years spent in the study of architecture, and whether the applicant was

granted a certificate or rejected. The register is prima facie evidence of the matters contained in it.

History: En. Sec. 2, Ch. 158, L. 1917; re-en. Sec. 3230, R. C. M. 1921; amd. Sec. 25, Ch. 350, L. 1974.

Amendments

of architects" in subsection (1) for "board of architectural examiners"; substituted "department of professional and occupational licensing" in subsection (4) for "board"; and made minor changes in phraseology and style.

66-103. (3231) Definitions—examinations for certificates to practice—granting of certificates—registration without examination under certain circumstances. (1) Except as provided in this act, no person may practice architecture in this state or use the title "architect" or "registered architect," or any words, letters, figures, or other device indicating or intending to imply that he is an architect, without having qualified under this act.

(2) Unless the context requires otherwise, in this act:

(a) "Practice of architecture" means rendering or offering to render services by consultations, preliminary studies, drawings, specifications, or other service in connection with the design of a building or addition or alteration thereto, whether one or all of these services are performed either in person or as the directing head of an organization.

(b) "Architect" means an individual technically and legally qualified to practice architecture and who is authorized under this act to practice architecture.

(c) "Building" means a structure intended primarily for human occupancy or use.

(d) "Public building" means any building which the state or any political subdivision thereof maintains for the use of the public.

(e) "Board" means the board of architects, provided for in section 82A-1602.3.

(f) "Department" means the department of professional and occupational licensing, provided for in Title 82A, chapter 16.

(3) A person wishing to practice architecture in this state shall apply to the department for a certificate to do so. A person applying shall have successfully completed the requirement of prerequisites in education, practical experience and a written examination as prescribed by the board in conformance with the standard national council of architectural registration boards examination and grading procedure. After examination the department shall, if the candidate has been found qualified, grant a certificate to the candidate to practice architecture in this state, which may only be granted on the consent of not less than two (2) members of the board, and attested by the secretary, and have the seal of the board attached. However, an architect holding a valid and current license to practice in another state, territory or country will be granted a certificate to practice in Montana following presentation of a certificate issued by the national council of architectural registration boards and approved by the board. But no arrangement may be made under this section which may lower the standard of practice of architecture in this state. The board may,

if considered necessary, require an examination of applicants for a license from other states, after careful consideration of the credentials from those states. The board shall by rule establish methods and procedures for investigation of applicants for a license by reciprocity.

History: En. Sec. 3, Ch. 158, L. 1917; re-en. Sec. 3231, R. C. M. 1921; amd. Sec. 1, Ch. 149, L. 1957; amd. Sec. 2, Ch. 439, L. 1973; amd. Sec. 26, Ch. 350, L. 1974; amd. Sec. 2, Ch. 544, L. 1977.

Said board shall cause

examination to be most scientific and practical, but of sufficient severity to test the candidate's fitness to practice architecture in this state"; deleted from the third sentence of subsection (3) a proviso allowing the president to grant interim certificates good until the next board meeting; and substituted the present proviso to the third sentence of subsection (3) for a proviso allowing the board to make reciprocal arrangements with other states.

The 1974 amendment inserted the first clause of subsection (2); inserted definitions of "Board" and "Department"; substituted "department" for "board" in two places in subsection (3); deleted a final paragraph relating to architects in practice prior to July 1, 1957; and made minor changes in phraseology, punctuation and style.

(1) Any person who shall use the title "architect" or "registered architect" or any other words, letters, figures, or other device indicating or intending to imply that the person using the same is an architect, or who shall engage in the practice of architecture within the meaning of this act, or shall accept compensation for rendering architectural service, without first having complied with the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than two hundred dollars (\$200.00) nor more than five hundred dollars (\$500.00), or by imprisonment in the county jail for not less than thirty (30) days nor more than six (6) months, or by both such fine and imprisonment. Any person convicted a second time for any violation of this act shall be punished by both such fine and imprisonment. The district court shall have jurisdiction of all prosecutions brought hereunder.

(2) Whenever the board of architects has reasonable cause to believe that a person is violating any provision of this act or rule of the board, it may, in addition to the remedies provided in subsection (1) and without prejudice thereto, bring an action in the district court for the county in which the violation is occurring to enjoin such person from continuing to engage in such violation or from doing any act in furtherance thereof.

66-401.1. Definitions. Unless the context requires otherwise, as used in this chapter:

(1) "Barbershop" means a place where a person carries on, engages in, practices, or causes to be carried on, engaged in, or practiced the business of barbering.

(2) "Board" means the board of barbers, provided for in section 82A-1602.5.

(3) "Department" means the department of professional and occupational licensing, provided for in Title 82A, chapter 16.

History: En. 66-401.1 by Sec. 34, Ch. 350, L. 1974.

66-403. (3228.21) Licensing and registration of barbers, barbershops, barber schools and barber colleges, prohibiting barber schools and colleges from charging patrons for services. (1) A person is qualified to receive a certificate of registration to practice barbering only by serving as an apprentice barber and successfully passing an examination conducted by the department, subject to section 82A-1603, to determine his fitness to practice barbering.

(2) An apprentice, under this chapter, is a person who receives instruction in an approved barber school or college and from a barber authorized to practice barbering in this state.

(3) An apprentice must file with the department an application setting forth the following information:

- (a) Full name and age of apprentice;
- (b) Name and place of approved barber school;
- (c) Dates of attendance at approved barber school;
- (d) Whether the applicant received a certificate of graduation from an approved barber school; and
- (e) Other information the board considers necessary.

(4) An apprentice applicant must successfully pass an apprentice examination conducted by the department, subject to section 82A-1603, and pay to the department the required fee. The department shall then

issue an apprentice barbering card which expires two (2) years from the date of examination.

(5) A registered apprentice may not independently practice or engage in the practice of barbering; however, he may do the acts which constitute the practice of barbering when done under the immediate personal supervision of a registered barber.

(6) A school or college of barbering may not be approved by the board unless it teaches the curriculum of the standardized schools approved by the national education council of barber examiners. Students of schools or colleges may, after attending the schools for a period of nine (9) months, make application to the department for an apprenticeship card to practice barbering under the immediate personal supervision of a licensed barber for the period of one (1) year.

(7) On completion of one (1) year of apprenticeship under the immediate personal supervision of a licensed barber, an apprentice must apply to the department to take the examination for a barber's certificate of registration. An apprentice may take the examination for a barber's certificate of registration as many as three (3) times before expiration of the apprentice card. If an apprentice fails to pass the examination for a barber's certificate of registration three (3) times, he shall surrender the apprentice card to the department and may not be authorized to do the acts which constitute the practice of barbering.

(8) A barbershop, school, or college must be conducted at a fixed place of establishment. A person or corporation may not open or maintain a barbershop, school, or college, or hold himself or itself out as engaging in or conducting a barbershop, school, or college, unless first licensed by the board. A barber school or college operating in this state must have in charge a person who has had ten (10) years' continuous experience as a barber. The owner of the school or college shall first secure a permit, granted by the board and issued by the department, to operate, on payment of an annual license fee of fifty dollars (\$50), and shall keep the permit prominently displayed, and shall, before commencing business, file with the secretary of state a bond to this state, which shall be approved by the attorney general, in the sum of two thousand dollars (\$2,000), conditioned on the faithful compliance of the barber school or college with this chapter, and the payment of judgments that may be obtained against the school, college, or owner on account of fraud, misrepresentation, or deceit practiced by them, or by their agents. Barber schools or barber colleges may not charge patrons for barbering services and materials rendered. All barber schools or colleges shall keep prominently displayed a substantial sign as a barber school or barber college. All barber schools or colleges on receiving students shall immediately apply to the department for student permits on blank forms prescribed by the board.

(9) An application for a barbershop, school, or college license shall be in writing and verified on a form prescribed by the board. On receipt by the department of an application for a license, and on payment to the department of the initial inspection fee, the board shall have an investiga-

tion and inspection made as to the character of the applicant, and on notice and after hearing shall report its findings to the department, which shall grant a license, if the board finds that the applicant is of good character, and that the proposed barbershop, school, or college is equipped and will be conducted as required under this chapter. The application must be granted or refused within thirty (30) days from the date of filing of the application or within fifteen (15) days after the hearing on the application if a hearing is held.

(10) A barbershop license may not be issued to anyone except one who holds a valid barber's certificate under this chapter, and a barbershop may not be maintained or conducted except by one who holds a barbershop license issued by the department under this chapter, and this certificate or license is not transferable as to person or place.

(11) Before a license is issued to conduct a barbershop, school, or college in this state the barbershop, school, or college must be inspected by the department and approved by the board and shall meet the following requirements:

(a) It must have both hot and cold running water connected with the city water supply. In villages or towns where running water is not available, hot water tanks shall have not less than a two (2) gallon capacity with gravity pressure. Waste water shall be disposed of through some system, carrying it away from the building. This shall be done by sewer connections, or in a manner meeting the requirements of the department of health and environmental sciences rules, city ordinances, and having the approval of the city or village board of health, as required by law.

(b) The headrest of a barber chair must be equipped so that each customer will be supplied with a clean, fresh paper or towel.

(c) It must have a closed cabinet for each chair, to keep instruments in when not in use, and must have proper sterilization equipment for immersing instruments before use on each customer.

(d) It must have a sufficient number of towels so that each customer will be served with a clean laundered towel.

(e) It must be well-lighted, well-ventilated, and kept in a clean, orderly and sanitary condition at all times.

(f) It must pay to the department the required fee.

(12) Barbershops, barber schools, or colleges shall be open for inspection during business hours, to members of the department. An owner or manager of a barbershop licensed under this chapter shall make certain that each barber employed holds a certificate to practice barbering in this state, and that employees observe the sanitary rules of the department of health and environmental sciences and the department and report to the department the name of a person practicing barbering therein, who has a communicable disease.

L. 1974), relating to revocation of license, was repealed by Sec. 5, Ch. 516, Laws 1977.

(1) resorting to fraud, misrepresentation, or deception in applying for or securing a license or in taking the examination provided for in this chapter;

Title of Act

An act to revise license renewal and disciplinary provisions relating to the

66-510.2. Revocation or suspension of license. (1) The board may make an investigation whenever it is brought to its attention that there is reason to suspect that a person licensed to practice chiropractic:

(a) has a mental or physical condition such that he is unable to safely engage in the practice of chiropractic;

(b) has been declared incompetent or seriously mentally ill by a court of competent jurisdiction and thereafter has not been declared competent or released from supervision;

(c) has procured his license through mistake;

(d) has been guilty of unprofessional conduct;

(e) has practiced chiropractic while his license was suspended or revoked;

(f) has, while under probation, violated its terms.

(2) The investigation shall be for the purpose of determining the probability of the existence of these conditions or the commission of these offenses and may include requiring the person to submit to a physical or mental examination, or both, by a physician or physicians selected by the board, if it appears to be in the best interests of the public that this evaluation be secured. The board may examine the hospital records and reports of the licensee as part of the examination and copies of these shall be released to the board on written request. If the board has reasonable cause to believe that this probability exists, the department shall mail to the person, at his last address of record with the department, a specification of the charges against him, together with a written notice of the time and place of the hearing on such charges, advising him that he may be present in person and with counsel if he so desires to offer evidence and be heard in his defense. The time fixed for hearing may not be less than 30 days from the date of mailing the notice.

(3) Any person, including a member of the board, may file a sworn complaint with the department against a licensed chiropractor charging him with any of the offenses or conditions set forth in 66-510.1 or subsection (1) of this section, which complaint shall set forth a specification of the charges. When the complaint has been filed, the board may make an investigation as provided by this section or may proceed to hearing. The department shall mail a copy of the complaint to the person charged, together with notice of hearing as provided in subsection (2) of this section.

(4) After the hearing the board shall adopt a resolution finding that the offenses charged have or have not been committed or that the conditions charged do or do not exist. If the finding is in the negative, the board shall dismiss the charges. If the finding is in the affirmative, the board shall:

(a) revoke the license;

(b) suspend the licensee's right to practice for a period not to exceed 1 year;

(c) suspend its judgment of revocation on terms and conditions determined by the board;

(d) place the licensee on probation; or

(e) take any other disciplinary action which the board in its discretion considers proper.

(5) In cases of revocation, suspension, or probation, the department shall record the facts of the case and all actions of the board in relation thereto.

(6) On the expiration of a term of suspension, the licensee shall be reinstated by the board if he furnishes evidence, satisfactory to the board, that he is then of good moral character and conduct or restored to good health and that he has not practiced chiropractic during the term of suspension. If the evidence fails to establish such facts to the satisfaction of the board, the board shall proceed to hearing on revocation with notice as provided in subsection (2) of this section.

History: En. 66-510.2 by Sec. 3, Ch. 516, L. 1977.

66-510.3. Reconsideration of board action—fee for restoration of license. (1) At any time after refusal, suspension, or revocation of license or placement on probation or any other disciplinary action, the board may, on its own motion or on application, reconsider its prior action and reverse, rescind, or modify such action.

(2) A person whose license has been revoked and later restored shall pay a fee of \$50 for the restoration.

History: En. 66-510.3 by Sec. 4, Ch. 516, L. 1977.

66-511. (3148) Recordation of license—failure or refusal to record. (1) A person who receives a license from the department shall have it recorded in the office of the clerk and recorder of the county of which he resides, and shall have it recorded in the counties to which he subsequently moves for the purpose of practicing chiropractic.

(2) The failure or refusal on the part of the holder of a license to have it recorded before he practices chiropractic in this state, after having been notified by the department to do so, is sufficient grounds to revoke or cancel a license and render it void. The clerk and recorder shall keep for public inspection, in a book provided for that purpose, a complete list and description of the licenses recorded by him. When a license is presented to him for record, he shall stamp on its face his signed memorandum of the date when the license was presented for record.

However, the board may authorize the department to issue renewals, but not con-

secutive renewals, on a showing satisfactory to the board that attendance at the educational programs was unavoidably prevented; and new licensees during the six (6) months preceding September 1, by examination, shall be granted renewal licenses without attending the educational programs.

(2) No license fee or license tax may be imposed upon doctors of chiropractic as a condition to the practice of their profession by a municipality or any other political subdivision of the state.

This section does not prevent a renewal of the license if in the preceding year for any reason, at least one of the educational programs is not conducted in this state"; added subsection (2); and made a minor change in style.

Compiler's Notes

This section was amended twice in 1974, once by Ch. 175 and once by Ch. 350. Neither amendatory act mentioned or entirely incorporated the changes made by the other. Since the amendments do not

(12) A person, firm, copartnership, or corporation owning, operating, or conducting a teacher-training unit in a school of cosmetology shall pay the sum of \$100 for a certificate of registration.

(13) An applicant for reciprocity licensure shall pay a fee of \$100.

(14) Duplicate licenses or certificates of registration shall be issued on payment of \$4 and proof of necessity. The license and registration fees shall be paid annually, unless otherwise provided by board rule, in advance to the department. No other or additional license or registration fee may be imposed by a municipal corporation or other political subdivision of this state for the practice or teaching of cosmetology.

Amendments

The 1971 amendment substantially rewrote this section and generally increased the fees. For previous text, see parent volume.

The 1974 amendment inserted the numerical subdivision designations; substituted "department" for "Montana state examining board of cosmetology" throughout the section; and made minor changes in phraseology and punctuation.

The 1977 amendment doubled the maximum fees provided in subdivisions (1) through (12) and (14); inserted subdivision (13); redesignated former subdivision (13) as subdivision (14); and inserted "unless otherwise provided by board rule" in the second sentence of subdivision (14).

66-816. (3228.16) Duration and renewal of licenses and certificates—delinquent renewal fee. (1) Licenses and certificates shall be issued for no longer than 1 year unless otherwise provided by rule. Licenses and certificates expire on December 31 unless otherwise provided by rule or renewed for the next year or renewal period. Licenses and certificates may be renewed by application made prior to December 31 of each year, unless otherwise provided, and the payment of a required renewal fee. Expired licenses and certificates may be renewed under rules made by the board, but the right to renew an expired license or certificate terminates after 10 years of nonpayment. The board may provide by rule for a change in the renewal date and renewal period for the manager-operator and salon owner category. The renewal fee may not exceed twice the fee for a 2-year renewal or three times the fee for a 3-year renewal and shall be as set by the board.

(2) In addition to the foregoing requirements for renewal, persons applying for the renewal of teachers' licenses must have fulfilled the following additional requirements:

(a) During each year an active teacher, either full time or part time, must have successfully completed thirty (30) hours professional teacher training at a school approved by the board as a prerequisite to the renewal of the teacher's license.

(b) Persons holding a teacher's license, but not actively engaged either full time or part time in teaching cosmetology during the preceding year, may renew the license by paying the required fee.

(c) Persons holding a teacher's license but not actively engaged in teaching cosmetology either full time or part time for the preceding year or longer and wishing to resume active teaching of cosmetology must successfully complete thirty (30) hours professional teachers' training at a school approved by the board before resuming active teachers' training. However, the foregoing provisions do not prevent the board, under rules

it adopts from permitting a person holding a teacher's license and not actively engaged either full time or part time in teaching cosmetology from teaching as a substitute for an active teacher.

(3) A fee of \$10 shall be charged in addition to other fees fixed by law for renewal applications of licenses and certificates made after December 31 of each year or other predetermined renewal deadline. The department shall notify license and certificate holders of the expiration date of licenses and certificates not less than 30 days before the expiration date, and call attention to the penalty imposed for failure to renew a license or certificate by the date of expiration.

The 1977 amendment added "unless otherwise provided by rule" to the first sentence of subsection (1); substituted "unless otherwise provided by rule or renewed for the next year or renewal period" at the

end of the second sentence of subsection (1) for "unless renewed for the next year"; inserted "unless otherwise provided" in the third sentence of subsection (1); added "but the right to renew an expired license or certificate terminates after 10 years of nonpayment" to the fourth sentence of subsection (1); added the last two sentences to subsection (1); increased the fee from \$2.50 to \$10 in subsection (3); added "or other predetermined renewal deadline" to the first sentence of subsection (3); inserted references to certificates in the last sentence of subsection (3); and made minor changes in phraseology and style.

66-818. (3228.18) Exemptions. Nothing in this act prohibits service in case of emergency or domestic administration without compensation; services by persons authorized under the laws of this state to practice dentistry, the healing arts, or mortuary science; or services by barbers lawfully engaged in the performance of the usual and ordinary duties of their vocation or in cutting women's hair.

History: En. Sec. 18, Ch. 104, L. 1929; amd. Sec. 2, Ch. 101, L. 1977.

Amendments

The 1974 amendment substituted refer-

ences to the department for references to the board and the secretary-treasurer of the board; added "subject to section 82A-1603(6)" to the end of the last sentence of subsection (1); deleted provisions pertaining to reports by the board; and made minor changes in phraseology, punctuation and style.

66-905. (3115.5) Dentistry examinations—application—contents—fees—undergraduate examination—regulations for examinations—notice—scope of examination—dentist certificates—fee—form—retention and inspection of examination papers. (1) A person desiring to practice dentistry in

this state shall file in his full name, an application for examination with the department at least twenty (20) days before the date set by the board for the commencement of the examination. At the time of making the application the applicant shall (a) pay to the department a fee of fifty dollars (\$50), furnish the department with at least three (3) affidavits of good moral character satisfactory to the board, present to the department his diploma or satisfactory evidence of having graduated from a recognized dental school or college, which has been approved by the board, and furnish the department a recent photograph of the applicant.

(2) The board may, in its discretion, permit a dental student who has successfully completed his junior year in a recognized dental school, and who files proof satisfactory to the board that he has the preliminary education described in this section, to take a written examination in the subjects he has completed, and satisfactory grades secured shall be credited on the final examination of the student. The board shall require a fee of fifty dollars (\$50) for this examination, which shall apply on the final examination taken by the applicant.

(3) The board shall make rules governing examinations for a license to practice dentistry in this state. The examinations are open to an applicant meeting the requirements of this act. The board shall also provide, by rule, reasonable notice of the time and place where examinations are held. An examination shall be held at least once a year.

(4) The examination shall be practical in character and sufficiently thorough to test the fitness of the applicant to practice dentistry. It shall include, written in the English language, questions on anatomy, histology, physiology, chemistry, pharmacology and therapeutics, metallurgy, pathology, bacteriology, anesthesia, operative and surgical dentistry, prosthetic dentistry, prophylaxis, orthodontics and endodontics, and any additional subjects pertaining to dental service. (7) An applicant failing to pass his first examination, if otherwise qualified, may take subsequent examinations on payment of the fee of twenty-five dollars (\$25) for each examination.

History: En. Sec. 5, Ch. 48, L. 1935; amd. Sec. 1, Ch. 38, L. 1941; amd. Sec. 1, Ch. 34, L. 1961; amd. Sec. 2, Ch. 352, L. 1969; amd. Sec. 1, Ch. 287, L. 1971; amd. Sec. 79, Ch. 350, L. 1974.

Amendments

The 1971 amendment deleted original subsection (6), which prohibited licensing of a person who was not a United States citizen, and redesignated original subsection (7) as subsection (6). (See parent volume.)

The 1974 amendment substituted refer-

ences to the "department" for references to the "secretary-treasurer of the board of dental examiners" and "board" throughout the section; inserted "subject to section 82A-1603" near the end of subsection (4) after "department"; substituted "in a form prescribed by the board" at the end of subsection (5) for a paragraph containing the form. (see parent volume); redesignated the last paragraph of subsection (5) as subsection (6); redesignated former subsection (6) as subsection (7); and made numerous minor changes in punctuation and phraseology.

66-906. (3115.6) Certificate to be registered in counties where practicing—replacing lost certificates—admission of dentists from other states—reciprocity—annual license fee—inactive fee—due date of annual fee—revocation of license for failure to pay. (1) The certificate under this act entitles the holder to practice dentistry in any county in this state, if the certificate is first filed for registration and registered in the office of the county recorder of the county in which the holder desires to practice. This act does not permit a holder of a certificate to practice in a county in this state unless the certificate has been first registered in the office of the recorder of the county. A holder of a certificate may practice in more than one (1) or in any number of counties in this state on having the certificate registered in each of the counties in which the holder desires to practice. The department shall, on proof satisfactory to the board of the loss of a certificate issued under this act, issue a duplicate certificate, and a fee of ten dollars (\$10) shall be charged for issuing the certificate.

(2) A dentist who has been lawfully licensed to practice in another state or territory which has and maintains a standard for the practice of dentistry or dental surgery which in the opinion of the board is equal to that at the time maintained in this state; who is a graduate of an accredited four (4) year high school or has actual scholastic credits equivalent to a four (4) year high school course; who is a graduate of a recognized dental school or college; who has been lawfully and continuously engaged in the practice of dentistry for five (5) years or more immediately before filing his application to practice in this state; and who deposits in person with the department an attested certificate from the examining board of the state or territory in which he is registered or licensed, certifying to the fact of his registration and license and of his being a person of good moral character and of professional attainments, may, on the payment of a fee of fifty dollars (\$50) and after satisfactory practical examination demonstrating his proficiency, be granted a license to practice dentistry in this state, without being required to take an examination in theory. However, no license may be issued without an examination in theory to an applicant, unless the state or territory from which the certificate has been granted to the applicant extends a like privilege to engage

in the practice of dentistry to dentists licensed by this state, who move to the other state. The board may enter into reciprocal relations with similar boards of other states whose laws are practically identical with this act.

(3) A licensed dentist practicing within this state shall annually pay before March 1, to the department, as a license fee for the year, the sum of ten dollars (\$10). The board may increase or decrease the annual license fee to maintain in the earmarked fund, at all times, an amount to be known as the emergency fund to be used for the purpose of administering, policing, and enforcing this act. The emergency fund shall be maintained at an approximate level of two thousand five hundred dollars (\$2,500). Notice of the change in the amount of license fees shall be given to each dentist registered in this state by the department.

(4) If a registered dentist absents himself from the state for a period of one (1) or more years, or does not engage in active practice within this state, he may continue his license in good standing by the payment of ten dollars (\$10) each year, or at the discretion of the board, he may be reinstated on the payment of a fee of ten dollars (\$10) for each year's absence. The annual payments shall be made prior to March 1 of each year, and a receipt or certificate shall be issued by the department.

(5) In case of default in payment of the annual license fee by a dentist, his license shall be revoked by the board on thirty (30) days' notice given to the delinquent of the time and place of considering the revocation. A registered letter addressed to the last known address of the party failing to comply with this requirement, as the address appears on the records of the department constitutes sufficient notice of revocation of license, but no license may be revoked for nonpayment if the dentist notified pays the license fee plus a late payment penalty of three dollars (\$3) before or at the time fixed for consideration of revocation. The department may maintain in the name of this state a suit to collect license fees and penalties applicable and to recover from the delinquent dentist the cost of the action, including reasonable attorneys' fees.

(6) No license fee or tax may be imposed on dentists by a municipality or any other subdivision of the state.

History: En. Sec. 6, Ch. 48, L. 1935; amd. Sec. 2, Ch. 34, L. 1961; amd. Sec. 148, Ch. 147, L. 1963; amd. Sec. 3, Ch. 352, L. 1969; amd. Sec. 80, Ch. 350, L. 1974.

Amendments

The 1974 amendment substituted references to the "department" for references

to the "secretary-treasurer of the board of dental examiners" and "board" throughout the section; substituted "before March 1" in subsection (3) for "on or before the first day of March"; and made minor changes in phraseology, punctuation and style.

66-908. (3115.8) Failure to register certificate as prima facie proof of lack of authority to practice dentistry. In a prosecution for a misdemeanor under this act the certificate of the county recorder of the county in which the misdemeanor is alleged to have been committed, to the effect that there has been no certificate of the department, filed and registered in the county recorder's office issued under this act to the person accused of the misdemeanor, is prima facie proof that the person is not entitled to practice dentistry in the county.

History: En. Sec. 8, Ch. 48, L. 1935; amd. Sec. 81, Ch. 350, L. 1974.

Amendments

The 1974 amendment substituted "de-

partment" for "board of dental examiners"; and made minor changes in phraseology, punctuation and style.

66-909. (3115.9) Compensation and expenses allowed board members—limitation on duration of examination meetings—disbursement of funds. (1) Out of the funds derived from fees collected under this act each member of the board shall be reimbursed as follows:

(a) \$25 per day for each day in actual attendance at a meeting of the board.

(b) Expenses and travel authorized under sections, 59-538, 59-539, and 59-801.

(2) Meetings held for the purpose of examining candidates for a license to practice dentistry in this state may not exceed 6 days.

(3) Money collected in excess of expenses and salaries provided for shall be held by the department as a special fund for meeting the expenses of the board, the proper administration of this act and for educational purposes considered wise by the board. The department, on the written request of the board, shall set aside in a separate account in the earmarked revenue fund, the emergency moneys provided under section 66-906. This account may be expended only when the board determines that an emergency exists requiring an expenditure therefrom.

History: En. Sec. 9, Ch. 48, L. 1935; amd. Sec. 149, Ch. 147, L. 1963; amd. Sec. 4, Ch. 352, L. 1969; amd. Sec. 82, Ch. 350, L. 1974; amd. Sec. 29, Ch. 439, L. 1975; amd. Sec. 2, Ch. 531, L. 1977.

Amendments

The 1974 amendment deleted a former third sentence from subsection (3) permitting the board to employ special counsel; deleted a former fourth sentence from subsection (3) relating to compensation of the secretary-treasurer of the board; substituted "department" for "secretary-treasurer of the board" in the first sentence of subsection (3) and for "state treasurer and state controller" in the second sentence of subsection (3); deleted a former last sentence from subsection (3) relating to drawing on the earmarked fund for emergency

expenses; and made minor changes in phraseology, punctuation and style. For prior version, see parent volume.

The 1975 amendment inserted "59-539" in subdivision (1)(b); and deleted subdivision (1)(c) which read: "For first class railroad and Pullman fares actually incurred to and from his place of residence to the place of a meeting."

The 1977 amendment deleted "and dues" after "fees" near the beginning of the section; substituted "\$25 per day for each day in actual attendance at a meeting of the board" in subdivision (1)(a) for "Fifteen dollars (\$15) per day for each day traveling to and from a meeting and while in actual attendance at a meeting of the board and for each day actually engaged in the duties of his office"; and made minor changes in style.

66-910. (3115.10) Practice of dentistry defined—persons conducting business through licensed dentist—exceptions. (1) A person is practicing dentistry under this act if he performs, attempts, advertises to perform, causes to be performed by the patient or any other person, or instructs in the performance of dental operations, oral surgery, or dental service of any kind gratuitously or for a salary, fee, money, or other remuneration paid, or to be paid, directly or indirectly, to himself, any other person, or agency; is a manager, proprietor, operator, or conductor of a place where dental operations, oral surgery, or dental services are performed; directly or indirectly, by any means or method, furnishes, supplies, constructs, reproduces, or repairs a prosthetic denture, bridge, appliance, or other

(2) A dental laboratory or dental technician is not practicing dentistry under this act when engaged in the construction, making, alteration, or repairing of bridges, crowns, dentures, or other prosthetic appliances, surgical appliances, or orthodontic appliances if the casts, models, or impressions on which the work is constructed have been made by a regularly licensed and practicing dentist, and the crowns, bridges, dentures, prosthetic appliances, surgical appliances, or orthodontic appliances are returned to the dentist on whose order the work was constructed.

(3) A licensed dentist who employs or engages the services of a person, firm, or corporation to construct, reproduce, make, alter, or repair bridges, crowns, dentures, other prosthetic appliances, surgical appliances, or orthodontic appliances, shall furnish the person, firm, or corporation with a written work authorization on forms prescribed by the board which shall contain: (a) the name and address of the person, firm, or corporation to which the work authorization is directed; (b) the patient's name or identification number, but if only a number is used the patient's name shall be written on the duplicate copy of the work authorization retained by the dentist; (c) the date on which the work authorization was written; (d) a description of the work to be done, including diagrams, if necessary; (e) a specification of the type and quality of the materials to be used; and (f) the signature of the dentist and the number of his license to practice dentistry. (4) This section does not apply to a legally qualified physician or surgeon or to a dental surgeon of the United States army, navy, public health

service, or veterans' bureau, or to a legal practitioner of another state making a clinical demonstration before a dental society, convention, or association of dentists, or to a licensed dental hygienist performing an act authorized under section 66-921.

(5) No person, firm, or corporation engaged in the business of constructing, altering, or repairing bridges, crowns, dentures, other prosthetic appliances, surgical appliances, or orthodontic appliances may advertise the services, technique, or materials to the general public by means of advertisements in public newspapers, magazines, or by radio, television, display advertisements, or by any other means except advertisements in professional or trade papers, trade journals, trade directories, trade periodicals, trade magazines, and listings in business and telephone directories limited to name, address, and telephone number, which may not occupy more than the number of lines necessary to disclose the information; nor may a person, firm, or corporation so engaged in any way directly solicit the patronage of the general public.

History: En. Sec. 10, Ch. 48, L. 1935; amd. Sec. 2, Ch. 38, L. 1941; amd. Sec. 3, Ch. 34, L. 1961; amd. Sec. 5, Ch. 352, L. 1969; amd. Sec. 83, Ch. 350, L. 1974.

Amendments

The 1974 amendment substituted "board" for "state board of dental examiners" in two places in subsection (3); and made minor changes in phraseology, punctuation and style.

66-911. (3115.11) Duty of county attorney to enforce act—attorney general's duty on appeal—jurisdiction of justice courts—injunction. The county attorney of the county in which an offense is alleged to have occurred shall attend to the prosecution of complaints made under this act, both on trial in the justice court where the complaint is made, and also on hearing in the district court, either on the complaint, or on information or indictment filed against a person under this act in the district court. This act does not prevent the prosecution of a person for violation of this act on the information of the county attorney directly. Justice courts have original concurrent jurisdiction of misdemeanors committed under this act. If a person, firm, or corporation engages in the practice of dentistry without possessing a valid license or violates this chapter, the attorney general, a county attorney, or the board may maintain an action in the name of this state to enjoin the person, firm, or corporation from engaging in the practice of dentistry or otherwise violating this act. The injunction does not relieve criminal prosecution, but the remedy by injunction is in addition to the liability of the offender to criminal prosecution.

History: En. Sec. 11, Ch. 48, L. 1935; amd. Sec. 4, Ch. 34, L. 1961; amd. Sec. 84, Ch. 350, L. 1974.

66-913. (3115.13) Revocation or suspension of license—grounds—conviction of crime—renting or loaning license—unprofessional conduct—proceedings for revocation or suspension. (1) A dentist may have his license revoked or suspended by the board for any of the following reasons:

(a) Conviction of a felony or misdemeanor involving moral turpitude, in which case the record of conviction or a copy certified by the clerk of the court or by the judge in whose court the conviction is had is conclusive evidence.

(b) For renting, loaning, or attempting to rent or loan to a person his license for the practice of dentistry or his diploma of graduation from a dental college, school, or course to be used as a license or diploma of the person.

(c) For permitting a dental hygienist, under his personal supervision to do an act or perform an operation other than those defined and authorized under section 66-921.

(3) Proceedings under this section may be taken by the board on its initial motion, for matters in its knowledge, or may be taken on the information of another. However, if the informant is a member of the board, the other members of the board constitute the board for the purpose of determining the truth of the charge or accusation. Accusations must be in writing, verified by some party familiar with the facts charged, and three (3) copies must be filed with the department. On receiving the accusation the board shall, if it considers the accusation sufficient, make an order setting it for hearing, and requiring the accused to appear and answer the charge or accusation at the hearing.

(4) The accused must appear at the time appointed in the order and answer the charges and make his defense unless for sufficient cause, on the accused's application or the board's order, the board assigns another day for that purpose.

(5) If the accused does not appear the board may proceed and determine the accusation in his absence. If the accused confesses the accusation

or refuses to answer the charge, or if on hearing the board finds the charge or accusation true, it may make an order either revoking the license of the accused or suspending it for a fixed period. The board and the accused may have the benefit of counsel, and the board shall have the power to administer oaths, take depositions of witnesses in the manner provided by law in civil cases, and to issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents and testimony in any inquiry, investigation, hearing, or proceeding in this state. The subpoena shall be issued over the signature of the secretary of the board and the seal, and in the name of this state.

(6) On revocation or suspension of a license the fact shall be noted on the records of the department and the license shall be marked canceled on the date of its revocation, or suspended, as the case may be. The department shall, on order of suspension or revocation being entered, transmit to the county recorder in which the license of the licensee affected by the judgment is registered and recorded, a copy of the order, certified by the secretary of the board, for record, and it shall be registered in the same manner and in the same book in which the registration of the certificate to practice dentistry is kept.

Amendments

The 1974 amendment substituted "board" for "board of dental examiners" in the first sentence; and made minor changes in phraseology, punctuation and style.

66-921. Dental hygiene defined—dental hygienists—qualifications—examination — fee — registration — certificate form — re-examination — powers and limitations—revocation of license. (1) The department may issue to qualified applicants licenses for the practice of dental hygiene to be known as dental hygienists. The practice of dental hygiene is the doing by one person, for a direct or indirect consideration, with respect to the teeth of another person, or an act or service, educational, therapeutic, prophylactic, or preventive in nature, as the board, in writing, defines and authorizes. However, this section does not allow the board or a licensed dentist to delegate any of the following duties: (a) diagnosis, treatment planning and prescription; (b) surgical procedures on hard and soft tissues; (c) restorative, prosthetic, orthodontic, and other procedures which require the knowledge and skill of a dentist; (d) prescription for drugs, medications, or work authorizations.

(2) A candidate for examination as a dental hygienist shall file in his full name an application for examination with the department at least twenty (20) days before the date set by the board for the commencement of the examination and at the time of making the application shall pay the department a fee of twenty dollars (\$20). The applicant shall also furnish satisfactory proof that he is of good moral character and has earned a diploma or certificate from a school of dental hygiene offering a course of study recognized and approved by the board.

(3) The board shall make uniform rules governing the matter of examinations for a license to practice dental hygiene in this state, which examinations are open to an applicant meeting the requirements of this act, and shall also provide in its rules for giving reasonable notice of the time and place where examinations are held.

(4) The board may recognize a certificate granted by the national board of dental hygiene examiners instead of an examination the board requires.

(5) An applicant who successfully passes the examination prescribed by the board shall, on the payment of a fee of fifteen dollars (\$15), be granted a license as a dental hygienist, and shall be registered in a record kept by the department, and shall receive a certificate, signed by the members of the board, in a form prescribed by the board.

(6) A licensed dental hygienist may practice in the office of a licensed and actively practicing dentist or in a public or private institution or under a board of health or in a public clinic authorized by the board, but may not practice except under the direct personal supervision of a licensed dentist; however, the dental hygienist may give instruction in dental hygiene without the supervision of a licensed dentist in a public or private institution or under a board of health or in a public clinic authorized by the board.

(7) An applicant failing to pass his first examination may, if otherwise qualified, take subsequent examinations on payment of the fee of twenty dollars (\$20) for each examination.

History: En. Sec. 21, Ch. 48, L. 1935; amd. Sec. 9, Ch. 352, L. 1969; amd. Sec. 88, Ch. 350, L. 1974.

Amendments

The 1974 amendment substituted references to the "department" for references to the "state board of dental examiners" and the "secretary-treasurer of the board"; substituted "board" for "state board of

dental examiners" in subsections (1) and (4); deleted a paragraph relating to dental hygienists in practice prior to passage of the original act; substituted "in a form prescribed by the board" at the end of subsection (5) for a paragraph containing the wording to be used in the licensee's certificate; and made minor changes in phraseology, punctuation and style. For prior version, see parent volume.

66-922. (3115.22) Annual license fee for dental hygienists—revocation of license. Before March 1 of each year a licensed dental hygienist shall pay to the department a license fee of three dollars (\$3), and in default of payment, the board may after hearing and on thirty (30) days' notice revoke the license of the hygienist in default; but the payment of the fee on or before the time of hearing, with an additional sum fixed by the board, not exceeding three dollars (\$3), excuses the default. The department may collect the fee by suit. The board may likewise revoke or suspend the license of a dental hygienist for violating this act.

History: En. Sec. 22, Ch. 48, L. 1935; amd. Sec. 10, Ch. 352, L. 1969; amd. Sec. 89, Ch. 350, L. 1974.

66-923. (3115.23) Admission of dental hygienists from other states—unlawful to practice without license—licenses for practicing hygienists—reciprocity. (1) A dental hygienist:

(b) Who has been lawfully and continuously engaged in the practice of dental hygiene for a period of one (1) year or more immediately before filing his application to practice in this state, and

(c) Who deposits in person with the department an attested certificate from the examining board of the state or territory in which he is registered or licensed, certifying to the fact of his registration and license and of his being a person of good moral character and of professional attainments; may on the payment of a fee of twenty dollars (\$20) and after satisfactory practical examination demonstrating his proficiency, be granted a license to practice dental hygiene in this state without being required to take an examination in theory. Except as provided in subsection (2) of this section, no license may be issued without an examination in theory to the applicant, unless the state or territory from which the certificate has been granted extends a like privilege to engage in the practice of dental hygiene to dental hygienists licensed by this state, and who have moved to the other state.

(2) A dental hygienist who has been lawfully licensed to practice in another state or territory not having reciprocity with this state but which has and maintains a standard for the practice of dental hygiene which, in the opinion of the board, is equal to that at the time maintained in this state, and who deposits in person with the department, an attested certificate from the examining board of the state or territory in which he is registered or licensed, certifying to the fact of his registration and license and his being a person of good moral character and of professional attainment may, on the payment of a fee of twenty dollars (\$20), be granted a temporary license authorizing the person to practice dental hygiene from the time of the granting of the license until the time of the next regular examination for dental hygiene set by the board. No additional fee for the examination may be charged.

(3) Except as provided in subsections (1) and (2) of this section no person may engage in the practice of dental hygiene or practice as a dental hygienist in this state until he has passed an examination approved by the board under rules it considers proper and has been issued a license by the department.

(4) The board may enter into reciprocity agreements with other states or territories, the standards of which as to the practice of dental hygiene, are, in the opinion of the board, equal to those of this state.

(5) Nothing in this act relating to the practice of dental hygiene applies to its practice by a licensed dentist or a licensed physician and surgeon in this state.

(a) "Practice of medicine" means the diagnosis, treatment, or correction of, or the attempt to, or the holding of oneself out as being able to diagnose, treat, or correct human conditions, ailments, diseases, injuries, or infirmities, whether physical or mental, by any means, method, devices, or instrumentalities. If a person who does not possess a license to practice medicine in this state, under this act, and who is not exempt from the licensing requirements of this act, performs acts constituting the practice of medicine, he is practicing medicine in violation of this act.

(b) "Board" means the Montana state board of medical examiners, provided for in section 82A-1602.15.

(c) "Department" means the department of professional and occupational licensing, provided for in Title 82A, chapter 16.

(2) This act does not prohibit or require a license with respect to any of the following acts:

(a) The gratuitous rendering of services in cases of emergency or catastrophe;

(b) The rendering of services in this state by a physician lawfully practicing medicine in another state or territory; however, if the physician does not limit the services to an occasional case, or if he has any established or regularly used hospital connections in this state, or maintains or is provided with, for his regular use, an office or other place for rendering the services, he must possess a license to practice medicine in this state;

(c) The practice of dentistry under the conditions and limitations defined by the laws of this state;

(d) The practice of podiatry under the conditions and limitations defined by the laws of this state;

(e) The practice of optometry under the conditions and limitations defined by the laws of this state;

(k) The rendering of services by interns or resident physicians in a hospital or clinic in which they are training, subject to the conditions and limitations of this act;

(l) The rendering of services by a physical therapist, technician, or other paramedical specialist, under the personal and responsible direction and supervision of a person licensed under the laws of this state to practice medicine, but this exemption does not extend the scope of a paramedical specialist; and

(m) The practice by persons licensed under the laws of this state to practice a limited field of the healing arts and not specifically designated, under the conditions and limitations defined by law.

(3) Licensees referred to in subsection (2) of this section, who are licensed to practice a limited field of healing arts, shall confine themselves to the field for which they are licensed or registered and to the scope of their respective licenses, and may not use the title M.D., or any word or

Compiler's Notes

This section was amended twice in 1974, once by Ch. 97 and once by Ch. 350. Neither amendatory act mentioned or incorporated the changes made by the other. Since the amendments do not appear to conflict, the compiler has made a composite section embodying the changes made by both amendments.

66-1038. Revocation or suspension of license—probation. (1) The board may make an investigation whenever it is brought to its attention that there is reason to suspect that a person having a license or certificate to practice medicine in this state:

(a) is mentally or physically unable to safely engage in the practice of medicine, has procured his license to practice medicine by fraud or misrepresentation or through mistake, or has been declared incompetent by a court of competent jurisdiction and thereafter has not been lawfully declared competent, or has a condition which impairs his intellect or judgment to the extent that it incapacitates him for the safe performance of professional duties;

(b) has been guilty of unprofessional conduct;

(c) has practiced medicine while his license was suspended or revoked;

(d) has had his license suspended or revoked by any licensing authority for reasons other than nonpayment of fees; or

(e) while under probation has violated its terms.

(2) The investigation shall be for the purpose of determining the probability of the existence of these conditions or the commission of these offenses, and may include requiring the person to submit to a physical examination or a mental examination or both by a physician or physicians selected by the board, if it appears to be in the best interests of the public

that this evaluation be secured. The board may examine and scrutinize the hospital records and reports of a licensee as part of the examination, and copies of these shall be released to the board on written request. If the board has reasonable cause to believe that this probability exists, the department shall mail to the person at his last address of record with the department a specification of the charges against him, together with a written notice of the time and place of the hearing on such charges, advising him that he may be present in person and by counsel if he so desires to offer evidence and be heard in his defense. The time fixed for the hearing may not be less than 30 days from the date of mailing the notice.

(3) A person, including a member of the board, may file a sworn complaint with the department against a person having a license to practice medicine in this state charging him with the commission of any of the offenses set forth in 66-1037 or with any of the offenses or conditions set forth in subsection (1) of this section, which complaint shall set forth a specification of the charges. When the complaint is filed, the department shall mail a copy to the person accused at his last address of record with the department, together with a written citation of the time and place of the hearing on it.

(4) At the hearing the board shall adopt a resolution finding him guilty or not guilty of the matters charged. If the board finds that the offenses or conditions referred to in 66-1037 or subsection (1) of this section do not exist with respect to the person or if he is found not guilty, the board shall dismiss the charges or complaint. If the board finds that the offenses or conditions referred to in 66-1037 or in subsection (1) of this section do exist and the person is found guilty, the board shall:

- (a) revoke his license;
- (b) suspend his right to practice for a period not exceeding 1 year;
- (c) suspend its judgment of revocation on the terms and conditions to be determined by the board;
- (d) place him on probation; or
- (e) take any other action in relation to disciplining him as the board in its discretion considers proper.

(5) In a case of revocation, suspension, or probation, the department shall enter in its records the facts of the action and of subsequent action of the board with respect to it.

(6) On the expiration of the term of suspension, the licensee shall be reinstated by the board if he furnishes the board with evidence that he is then of good moral character and conduct and restored to good health and that he has not practiced medicine in this state during the term of suspension. If the evidence fails to establish to the satisfaction of the board that the holder is then of good moral character and conduct or restored to good health or if the evidence shows he has practiced medicine in this state during the term of suspension, the board shall revoke the license at a hearing with notice and the procedure provided in subsection (1) of this section. The revocation is final and absolute.

(7) If a person holding a license to practice medicine under this chapter is by a final order or adjudication of a court of competent jurisdiction

adjudged to be mentally incompetent or seriously mentally ill or addicted to the use of narcotics, his license may be suspended by the board. The suspension continues until the licensee is found or adjudged by the court to be restored to reason or cured or until he is discharged as restored to reason or cured and his professional competence has been proven to the satisfaction of the board.

(1) In addition to the license fees required of applicants, a licensed physician actively practicing medicine in this state shall pay each year to the department, an annual registration fee, not to exceed the sum of \$100, as prescribed by the board. If a person licensed to practice medicine absents himself from the state for a period of 1 or more years, or does not engage in active practice in this state, he may continue his license in good standing by payment each year of a fee prescribed by the board in an amount not to exceed \$50, or at the discretion of the board, he may be reinstated on the payment of a fee not to exceed \$50 for each year of absence or inactive practice.

(2) The annual payments for registration shall be made prior to April 1, and a receipt acknowledging payment of the annual registration fee shall be issued by the department. The department shall mail registration notices, at least 60 days before the registration is due. In case of default in the payment of the annual registration fee by a person licensed to practice medicine who is actively practicing medicine in this state, his underlying certificate to practice medicine may be revoked by the board on 30 days' notice given to the delinquent of the time and place of considering the revocation. A registered or certified letter addressed to the last known address of the person failing to comply with the requirements of annual registration, as the address appears on the records of the department, constitutes sufficient notice of intention to revoke his underlying certificate. No certificate may be revoked for nonpayment if the person authorized to practice medicine, and notified, pays the annual registration fee before or at the time fixed for consideration of revocation together with a delinquency penalty of \$10. The department may collect the dues by an action at law.

(3) No registration or license fee may be imposed on a licensee under this act by a municipality or any other subdivision of the state.

plies and money from the earlier state board of medical examiners, was repealed by Sec. 363, Ch. 350, Laws of 1974.

66-1045. Injunctive relief—manner of charging violation of act. The board, notwithstanding any other provision in this act, may maintain an action to enjoin a person from engaging in the practice of medicine, until a license to practice medicine is procured. A person who has been enjoined and who violates the injunction is punishable for contempt of court. The injunction does not relieve the person practicing medicine without a license from a criminal prosecution. The remedy by injunction is in addition to remedies provided for the criminal prosecution of the offender. In charging a person in a complaint for injunction or in an affidavit, information, or indictment with a violation of this law by practicing medicine without a license, it is sufficient to charge that he did, on a certain day and in a certain county, engage in the practice of medicine, not having a license to do so, without averring further or more particular facts concerning the violation.

(a) the optometric examination or optometric diagnosis of all of those physiological or anatomical parts or functions which consummate the process of human vision to ascertain the presence therein of abnormal conditions or functions which may be optometrically diagnosed, corrected, remedied, or relieved;

66-1301.1. Definitions. Unless the context requires otherwise, in this act:

(1) "Board" means the board of optometrists, provided for in section 82A-1602.19; and

(2) "Department" means the department of professional and occupational licensing, provided for in Title 82A, chapter 16.

History: En. 66-1301.1 by Sec. 129, Ch. 350, L. 1974.

66-1301.2. Use of drugs by optometrist. The use of drugs by a licensed optometrist for examination purposes as stated in 66-1301 is not prohibited by Title 66, chapter 15.

History: En. 66-1301.2 by Sec. 2, Ch. 361, L. 1977.

Title of Act

An act to include the use of drugs for diagnostic purposes within the definition of the practice of optometry and to require a course in pharmacology by optometrists for the use of diagnostic agents; amending section 66-1301, R.C.M. 1947.

66-1302. (3156) Provisions regulating practice of optometry. (1) It is unlawful for a person:

(a) To practice optometry in this state unless he has first obtained a certificate of registration, and filed it or a certified copy with the county clerk and recorder of the county of his residence;

(b) To sell, barter, or offer to sell or barter a certificate of registration issued by the department;

(c) To purchase or procure by barter a certificate of registration with intent to use it as evidence of the holder's qualification to practice optometry;

(d) To materially alter with fraudulent intent a certificate of registration;

(g) To willfully make a materially false statement in an application for an examination by the department or for a certificate of registration;

(h) To advertise by displaying a sign or by otherwise holding himself out to be an optometrist without having at the time a valid certificate of registration;

(i) To replace or duplicate ophthalmic lenses with or without a prescription or to dispense ophthalmic lenses from prescriptions, without having at the time a valid certificate of registration as an optometrist; however, this subsection does not prevent an optical mechanic from doing the merely mechanical work on an ophthalmic lens which is ordered on a prescription signed by a registered optometrist and is dispensed only by the optometrist or a person employed by the optometrist and who does so in the office of and under the direct personal supervision of an optometrist;

(j) To take or make measurements for the purpose of fitting or adapting ophthalmic lenses to the human eye, without having at the time a valid

certificate of registration. (k) To advertise at a price, or stated terms of a price, or as being free, the following: The examination or treatment of the eyes, furnishing of optometrical services, or furnishing a lens, lenses, contact lens, contact lenses, glasses, frames, or fitting thereof. However, this subdivision does not apply to advertising goggles, sunglasses, colored glasses, or occupational eye-protective devices, if they are not made with refractive values and are not advertised in connection with the practice of optometry or professional service.

(1) To adapt a lens to direct contiguous contact to the human eyeball without having at the time a valid certificate of registration as an optometrist.

(2) When the board has reasonable cause to believe that a person is violating this section, or a rule issued under this chapter, it may, in addition to other remedies provided in this chapter, bring an action for injunctive relief in district court in the county where the violation occurs to enjoin the person from engaging in or continuing the violation. The department may employ legal counsel to prosecute these actions. In these actions, and on notice and hearing, an order or judgment may be entered awarding a temporary restraining order or final injunction as considered proper by the judge of the district court in the county where the violation occurred. This chapter does not apply to physicians and surgeons authorized to practice under the laws of this state nor to a person employed in the office of and acting under the direct personal supervision of a physician or surgeon, nor to a person excepted from this chapter by section 66-1316.

On presentation of evidence satisfactory to the board and on application on a form prescribed by the board and on the payment of an original certification fee of \$100, the department shall issue a license to a pharmacy as a "CERTIFIED PHARMACY", however, the license may be granted only to pharmacies operated by registered pharmacists or registered interns qualified under this act. 66-1831.1. Corporations composed of public accountants—registration thereof. (1) A professional service corporation organized for the practice of public accounting may register with the board as a corporation of public accountants, provided it meets the following requirements:

(a) The sole purpose and business of the corporation must be to furnish to the public services not inconsistent with this chapter or the rules of the board, but the corporation may invest its funds in a manner not incompatible with the practice of public accounting.

(b) At least one shareholder thereof must be a certified public accountant or public accountant of this state in good standing and must hold a license issued under 66-1833 which is in effect.

(c) Each shareholder of the corporation must be a certified public accountant or public accountant of some state in good standing and must be principally employed by the corporation or actively engaged in its business. No other person may have any interest in the stock of the corporation. (f) In order to facilitate compliance with the provisions of this section relating to the ownership of stock, there must be a written agreement binding the corporation or the qualified shareholders to purchase any shares offered for sale by, or not under the ownership or effective control of, a qualified shareholder and binding any shareholder not a qualified shareholder to sell such shares to the corporation or the qualified shareholders. The agreement must be noticed on each certificate of corporate stock.

The board shall determine whether the applicant is eligible for registration. A corporation which is so registered may use the words "public accountant" or the abbreviation "PA's" in connection with its corporation name. Notification shall be given the board within 1 month after the admission or withdrawal of a shareholder of a corporation so registered.

Amendments

The 1977 amendment divided the section into numbered subsections and re-

designated former subdivisions (1) through (6) as (1)(a) through (1)(f); substituted "this chapter" in subdivision (1)(a) for "the public accounting act"; substituted "rules" for "regulations" in subdivision (1)(a); and made minor changes in phraseology, punctuation and style.

66-1832. Registration of offices. Each office established or maintained in this state for the practice of public accounting in this state by a certified public accountant or a partnership or corporation of certified public accountants or by a licensed public accountant or a partnership or corpora-

tion of licensed public accountants or by one registered under 66-1828 shall be registered annually with the department. A fee may not be charged for this registration. The principals of sole proprietorships and staff employees who are employed in this state and who are holders of certificates as certified public accountants must also hold licenses issued under 66-1833 which are in effect. Partnerships and corporations must be registered under 66-1829, 66-1829.1, 66-1831, or 66-1831.1, whichever is applicable, and foreign accountants under the provisions of 66-1828.

History: En. Sec. 20, Ch. 118, L. 1969; amd. Sec. 3, Ch. 207, L. 1974; amd. Sec. 173, Ch. 350, L. 1974; amd. Sec. 13, Ch. 101, L. 1977.

Amendments

Chapter 207, Laws of 1974, inserted "or corporation" after "partnership" in two places in the first sentence; substituted "department" for "board" in the first sentence; inserted "and corporations" after "partnerships" in the last sentence; and

made minor changes in phraseology and style.

Chapter 350, Laws of 1974, substituted "department" for "board" in the first sentence; and made minor changes in phraseology and style.

The 1977 amendment deleted "under this act" after "annually" near the end of the first sentence; inserted "66-1829.1" and "or 66-1831.1" in the last sentence; and made minor changes in phraseology and style.

66-1833. Annual licenses to practice. Annual licenses to engage in the practice of public accounting in this state shall be issued by the department to holders of the certificate of certified public accountant issued under section 66-1819 and to persons licensed under section 66-1820, if all offices, if any, of the certificate holder or licensed public accountant are maintained and registered under section 66-1832. There is an annual license fee in an amount to be determined by the board, not to exceed twenty-five dollars (\$25) for a year or part thereof. Annual licenses expire on December 31 of each year and may be renewed annually for a period of one (1) year by certificate holders and licensed public accountants in good standing on payment of an annual renewal fee of not to exceed twenty-five dollars (\$25). Failure of a certificate holder or licensed public accountant to apply for the annual license to practice within three (3) years from the expiration date of the annual license to practice last obtained or renewed, or three (3) years from the date on which the certificate holder or licensee was granted his certificate or license, deprives him of the right to the annual license, unless the board, in its discretion, determines the failure to have been due to excusable neglect. A certificate holder or licensed public accountant who is retiring from active practice or other employment because of illness, age, marriage, or other justifiable cause, in the opinion of the board, may be placed on an inactive list, without prejudicing his right to be issued an annual license at a future date. A request for inactive status must be sent to the department within the three-year period as outlined in this section.

However, a foreign accountant who has registered under the provisions of 66-1828 and who holds a current license issued under 66-1833 may use the title under which he is generally known in his country followed by the name of the country from which he received his certificate, license, or degree.

(2) No partnership or corporation shall assume or use the title or designation "certified public accountant" or the abbreviation "CPA" or any other title, designation, words, letters, abbreviation, sign, card, or device tending to indicate that such partnership or corporation is composed of certified public accountants unless it is registered under 66-1829 or 66-1829.1, whichever is applicable, and all of its offices in this state for the practice of public accounting are maintained and registered as required under 66-1832.

(3) No person may assume or use the title or designation "licensed public accountant", "public accountant", or any other title, designation,

(5) No person, corporation, or partnership may assume or use the title or designation "certified accountant", "chartered accountant", "enrolled accountant", "licensed accountant", "registered accountants", or any other other title or designation likely to be confused with "certified public accountant", "licensed public accountant", "public accountant", or any of the abbreviations "CA", "EA", "RA", or "LA" or similar abbreviations likely to be confused with "CPA". However, anyone who holds a current license issued under 66-1833 and all of whose offices in the state for the practice of public accounting are maintained and registered as required under 66-1832 may hold himself out to the public as an "accountant" or "auditor" as provided in subsections (1), (2), (3), and (4); and a foreign accountant registered under 66-1828 who holds a current license issued under 66-1833 and all of whose offices in this state for the practice of public accounting are maintained and registered as required under 66-1832 may use the title under which he is generally known in this country followed by the name of the country from which he received his certificate, license, or degree.

However, the provisions of this subsection do not prohibit any officer, employee, partner, or principal of any organization from affixing his signature to any statement or report in reference to the financial affairs of that organization with any wording designating the position, title, or office which he holds in that organization, nor do the provisions of this subsection prohibit any act of a public official or public employee in the performance of his duties as such.

(7) No person may sign or affix a partnership or corporation name, with any wording indicating that it is a partnership or corporation composed of accountants or auditors or persons having expert knowledge in accounting or auditing, to any accounting or financial statement or to any report on or certificate to any accounting or financial statement unless the partnership or corporation is registered under 66-1829, 66-1829.1, 66-1831, or 66-1831.1 and all of its offices in this state for the practice of public accounting are maintained and registered as required under 66-1832.

The license of a real estate salesman shall be delivered or mailed to the real estate broker by whom the real estate salesman is employed, and shall be kept in the custody and control of the broker. A broker shall display his own license conspicuously in his place of business. The department shall annually prepare and deliver a pocket card certifying that the person whose name appears is a registered real estate broker or a registered real estate salesman, stating the period for which fees have been paid and, on real estate salesman's cards only, the name and address of the broker employing the real estate salesman.

for "commission" in the first and second sentences; substituted "department" for "commission" in the last sentence; and made minor changes in phraseology.

66-1933. Bond of brokers and salesmen. No license may be issued or renewed until the applicant for a broker's license or salesman's license has filed a bond with the department in the sum of \$10,000 executed by a surety company authorized to do business in this state in a form approved by the board and conditioned that the applicant, if and when licensed, shall conduct his business and himself in accordance with this chapter and shall pay, to the extent of \$10,000, judgments recovered against him for loss or damage to a person arising in the course of the applicant's practice as a real estate broker or salesman. Bonds given by licensees under this chapter, after approval, shall be filed and held in the office of the department. If for any reason the bond of a broker or salesman is canceled or voided, the license of the broker or salesman is automatically suspended until the broker or salesman is again fully bonded and the bond has been approved by the board. If the suspension is not terminated by rebonding and approval within 30 days from the date of suspension, the license of the broker or salesman is automatically revoked.

(3) Annual fees are due and payable for the ensuing year during the month of December of each year. Failure to remit annual fees before January 1 automatically cancels the license, but otherwise the license remains in effect continuously from the date of issuance, unless suspended or revoked by the board for just cause.

(2) A salesman may not be employed by, or under contract to, more than one (1) licensed broker nor may he perform services for a broker other than the one designated on the license issued to the salesman. When a licensed salesman desires to change his employment or contractual relationship from one licensed broker to another, he shall notify the department promptly in writing of these facts, pay the required fee, and return his license and pocket card, and a new license and pocket card shall be issued. No salesman shall directly or indirectly work for or with a broker until he has been issued a license to work for or with that broker. (1) It is unlawful for a licensed broker to employ or compensate directly or indirectly a person for performing the acts regulated by this act who is not a licensed broker or licensed salesman. However, a licensed broker may pay a commission to a licensed broker of another state if the nonresident broker has not conducted and does not conduct in this state a service for which a fee, compensation, or commission is paid. This subsection does not limit the next subsection.

(2) A nonresident of this state, who is actively engaged in the real estate business, who maintains a place of business in another state, and who has been licensed in the other state to conduct this business in that state, may obtain a license as a broker in this state by complying with this act. However, this section applies only to those brokers of other states which offer the same privileges to the licensed brokers of this state.

The nonresident licensee need not maintain a place of business in this state. The board may authorize the department to license a nonresident broker without examination, if he files with the department an authorized or certified copy of the license issued to the nonresident for conducting this business in another state, and by paying to the department the same license fee as is required for obtaining a broker's license in this state. The board may, in its discretion, refuse to authorize the department to issue a broker's license to an applicant who is not a resident of this state.

(3) A nonresident broker shall file an irrevocable written consent that legal actions arising out of a commenced or completed transaction may be commenced against the nonresident broker in a county of this state which may be appropriate and designated by section 93-2904; and the consent shall provide that service of summons in this action may be served on the department, for and on behalf of the nonresident broker, and this service is sufficient to give the court jurisdiction over the nonresident broker and his salesman or agent conducting a transaction in a county. The consent shall be acknowledged, and if made by a corporation, shall be authenticated by its seal.

partment" for "board" in subsections (3) and (4); inserted "subject to section 82A-1603" near the middle of subsection (3); and made minor changes in phraseology, punctuation and style.

History: En. Sec. 3, Ch. 82, L. 1913; re-en. Sec. 3219, R. C. M. 1921; amd. Sec. 3, Ch. 90, L. 1955; amd. Sec. 126, Ch. 147, L. 1963; amd. Sec. 27, Ch. 177, L. 1965; amd. Sec. 26, Ch. 93, L. 1969; amd. Sec. 207, Ch. 350, L. 1974; amd. Sec. 38, Ch. 439, L. 1975; amd. Sec. 3, Ch. 531, L. 1977.

The 1977 amendment added the second sentence to subsection (1).

66-2204. (3220) Applications for license to practice—examinations—fees. (1) A citizen of the United States desiring to begin the practice of veterinary medicine or veterinary surgery in this state, or who desires to hold himself out to the public as a practitioner of veterinary medicine or veterinary surgery, except as provided in section 66-2211, shall make application to the department for a license to do so. The application shall be on a form furnished by the department, and shall be accompanied by satisfactory evidence of the good moral character of the applicant, and shall present evidence of his having graduated in and received a degree from a legally authorized veterinary medical school having educational standards equal to those approved by the American veterinary medical association. On application, a photostatic copy of the diploma of the applicant shall be submitted to the department for inspection and verification. The photostatic copy remains the property of the department. A person applying for a license to practice shall pay to the department a fee of twenty-five dollars (\$25), which may not be refunded. Subject to section 82A-1603, the board shall, by means of examination, either oral, written or practical, or a combination of oral, written or practical as the board determines, ascertain the professional qualifications for license of applicants under this act. An investigation under reciprocity arrangements may replace examination for licensees from other states under section 66-2208. The department shall issue a license to all who are found to be, in the judgment of the board, competent to practice. A license may not be issued to a person who is not found by the examination or investigation to be competent.

(2) The examination shall be held in January and June of each year at a time and place specified by the board. The examination shall cover theory

and practice, pharmacology and therapeutics, animal sanitation, surgery, communicable diseases, and other subjects, chosen by the board, which are ordinarily included in the curriculum of a school of veterinary medicine recognized and approved by the American veterinary medical association.

(3) The department shall consecutively number applications received and note on each the disposition made of it and preserve them for reference, and shall number consecutively licenses issued.

(4) Applicants must achieve a grade of seventy per cent (70%) in all subjects in order to obtain a license. An applicant who has failed an examination may apply to be re-examined at a subsequent examination, and shall pay another application fee in the amount of twenty-five dollars (\$25), and shall take another complete examination in all subjects.

(5) An applicant for examination may, in the discretion of the board, be given a temporary permit to practice veterinary medicine prior to taking the examination, if the applicant is employed by and working under the supervision of and in the same office with a veterinarian licensed under this act. The temporary permit is valid only until the date of the next examination. Under no circumstances may a second temporary permit be issued to the same person. A temporary permit may not be issued to a person who has failed an examination given under this section.

History: En. Sec. 4, Ch. 82, L. 1913; amd. Sec. 1, Ch. 150, L. 1919; re-en. Sec. 3220, R. C. M. 1921; amd. Sec. 4, Ch. 90, L. 1955; amd. Sec. 127, Ch. 147, L. 1963; amd. Sec. 7, Ch. 168, L. 1971; amd. Sec. 208, Ch. 350, L. 1974.

Amendments

The 1971 amendment deleted "who is over the age of twenty-one (21) years" following "citizen of the United States" at the beginning of the section; and made minor changes in style.

The 1974 amendment substituted references to department for references to the board of examiners and board throughout the section; inserted "subject to section 82A-1603" near the middle of subsection (1); substituted "pharmacology" for "materia medica" and "animal sanitation" for "livestock sanitation" in subsection (2); deleted a clause from subsection (3) relating to veterinarians in practice at time of passage of act; and made minor changes in phraseology, punctuation and style.

66-2205, 66-2206. (3221, 3222) Repealed.

Repeal

Sections 66-2205 and 66-2206 (Secs. 5, 6, Ch. 82, L. 1913; Sec. 2, Ch. 150, L. 1919),

relating to a farrier's license, were repealed by Sec. 363, Ch. 350, Laws of 1974.

66-2207. (3223) Issuance, registration and reinstatement of licenses.

(1) The board shall, at the conclusion of a regular examination or after investigation under the reciprocity arrangements of section 66-2208, if in its judgment the applicant is qualified, authorize the department to issue a license to practice veterinary medicine.

(2) Every license granted shall be issued under seal, and shall be signed by the president and secretary-treasurer of the board, and shall state that the licensee has given satisfactory evidence of fitness as to age, character, veterinary medical education, and other matters required by law, and that after full examination or investigation under reciprocity arrangements he has been found qualified to practice.

(3) A person licensed to practice veterinary medicine in this state shall procure from the department before July 1, annually, his certificate

of registration. The certificate shall be issued by the department on the payment of a fee to be fixed annually by the board, not exceeding the sum of twenty-five dollars (\$25) and the presentation of evidence satisfactory to the board that the licensee, in the year preceding the application for renewal, attended an educational program approved by the board. However, the board may authorize the department to issue renewals, but not consecutive renewals, on a showing satisfactory to the board that attendance at the educational programs was unavoidably prevented; and new licensees who secure licenses by examination during the six (6) months preceding July 1 shall be granted renewals without attending the educational programs. The certificate is prima facie evidence of the right of the holder to practice veterinary medicine in this state during the time for which it is issued. Failure of a person licensed to procure a certificate of registration before July 1 annually constitutes a forfeiture of the license held by the person. A person who has thus forfeited his license may have it restored to him by making written application for restoration within one (1) year of the forfeiture setting forth the reasons for failure to procure the certificate of registration at the time specified and accompanied by payment of the registration fee provided for in this section and an additional restoration fee not in excess of twenty-five dollars (\$25) as the board requires and by presentation of evidence satisfactory to the board that he has fulfilled the continuing educational requirements required of all licensees recited above. The person making application for restoration of license within one (1) year of its forfeiture is not required to submit to examination.

(4) Notwithstanding any other provisions in this chapter, a person licensed who enters, or is called to active duty by, a branch of the armed services of the United States is entitled to receive automatic registration of his license during the period of his duty with the armed services. However, within one (1) year after release or discharge from duty in the armed services he shall procure a certificate of renewal from the department and pay the regular fee. Failure to procure the certificate of renewal within one (1) year after release or discharge is the equivalent of a failure to procure a certificate of registration before July 1 of any year, and the same forfeiture and restoration requirements apply.

(5) A person licensed shall at all times have his residence and office address on file with the department.

History: En. Sec. 7, Ch. 82, L. 1913; re-en. Sec. 3223, R. C. M. 1921; amd. Sec. 5, Ch. 90, L. 1955; amd. Sec. 209, Ch. 350, L. 1974; amd. Sec. 6, Ch. 135, L. 1975.

Amendments

The 1974 amendment substituted "board" for "state board of veterinary medical examiners" in subsection (1); inserted "authorize the department to" before "issue a license" in subsection (1); substituted "department" for references to the board and secretary of the board in subsections (3) through (5); and made minor changes in phraseology, punctuation and style.

The 1975 amendment increased the registration and restoration fees from a maximum of \$10 to a maximum of \$25; added "and the presentation of evidence satisfactory to the board that the licensee, in the year preceding the application for renewal, attended an educational program approved by the board" to the end of the second sentence of subsection (3); inserted the third sentence of subsection (3); and added "and by presentation of evidence * * * recited above" to the end of the next-to-last sentence of subsection (3).

66-2208. (3224) Display of license and certificate—arrangement with other boards. (1) A person may not practice veterinary medicine in this state without possessing and displaying prominently in his principal office a license and a current and valid certificate of registration issued under this act.

(2) The board may make arrangement with similar boards in the several states in so far as practicable, whereby due credit for state and territorial licenses may be allowed in this state to the licensees of these boards who desire to secure a license to practice veterinary medicine in this state, and by which licensees of the board in this state may secure credit for license issued by this board, when the licensees desire to secure a license to practice in another state or territory. No arrangement may be made under this section which may lower the standard of practice of veterinary medicine in this state. The board may, if necessary, require an examination of applicants for a license from other states after a careful consideration of the credentials from these states. The board shall establish methods and procedures for investigation of applicants for a license by reciprocity. No license may be issued as a result of reciprocity between the states to an applicant unless he has been lawfully and continuously in practice as a licensed veterinarian for at least one (1) year in the state from which he applies immediately preceding the date of his application for a license to practice in this state.

History: En. Sec. 8, Ch. 82, L. 1913; re-en. Sec. 3224, R. C. M. 1921; amd. Sec. 6, Ch. 90, L. 1955; amd. Sec. 210, Ch. 350, L. 1974.

(b) Uses words, titles, or letters in this connection or on a display or advertisement or under circumstances so as to induce the belief the person using them is engaged in the practice of veterinary medicine. This use is prima facie evidence of the intention to represent oneself as engaged in the practice of veterinary medicine in any of its branches.

(c) Diagnoses, prescribes, or administers a drug, medicine, appliance, application, or treatment of whatever nature, or performs a surgical operation or manipulation, for the prevention, cure, or relief of a pain, deformity, wound, fracture, bodily injury, physical condition, or disease of animals.

(e) Performs a manual or laboratory procedure for the diagnosis of pregnancy, sterility, or infertility on livestock for remuneration or hire.

(f) Performs acupuncture or ova or embryo transfer on animals.

(g) Instructs others except those covered under the provisions of section 66-2211, subsection (7) for compensation in any manner how to perform any acts which constitute the practice of veterinary medicine.

(2) A person may not practice veterinary medicine or veterinary surgery in this state unless licensed, and registered as required by this chapter; nor may a person practice veterinary medicine or surgery whose authority to practice is suspended or revoked by the board.

History: En. Sec. 9, Ch. 82, L. 1913; re-en. Sec. 3225, R. C. M. 1921; amd. Sec. 7, Ch. 90, L. 1955; amd. Sec. 1, Ch. 191, L. 1965; amd. Sec. 211, Ch. 350, L. 1974; amd. Sec. 7, Ch. 135, L. 1975.

(a) fraud or deception in procuring the license;

(b) publication or use of an untruthful or improper statement or representation with the view of deceiving the public or a client or customer in connection with the practice of veterinary medicine;

(c) conviction of a felony as shown by a certified copy of the record of the court of conviction, subject to Title 66, chapter 40;

(4) A veterinarian residing on a border of a neighboring state and authorized under the laws thereof to practice veterinary medicine therein, who is actually called to attend cases in this state, but who does not open an office or appoint a place to meet patients or receive calls in this state, if veterinarians licensed and registered in this state are extended a like privilege to engage in the practice of veterinary medicine to the same extent in the neighboring state.

(5) The employment of veterinary medical students who have successfully completed three (3) years of the professional curriculum in veterinary medicine at a college having educational standards equal to those approved by the American veterinary medical association and authorized by law to confer degrees as assistants to veterinarians licensed and registered under this chapter. This employment may not be for a period in excess of six (6) months from the date of completion of the third year of study.

(6) The operations known and designated as castrating or dehorning of cattle, sheep, horses, and swine are not the practice of veterinary medicine within the meaning of this chapter.

(8) This chapter does not prohibit the selling of veterinary remedies and instruments by a registered pharmacist at his regular place of business.

(a) "Veterinary technician" means a person determined by the board to be qualified by education and training to provide limited veterinary services under the direct supervision of a licensed veterinarian who shall be responsible for the performance of that technician; provided, however, that nothing in this act permits the board or any licensed veterinarian to delegate any of the following duties or functions:

- (i) diagnosis;
- (ii) prognosis;
- (iii) prescription; or
- (iv) surgery.

(b) "Direct supervision" means an order by the supervising licensed veterinarian to the veterinary technician, with notice to the client, to perform a specific function for that client within the veterinarian's routine practice, with a follow-up by the veterinarian to evaluate and determine

the quality and effectiveness of the function performed and with all billing for such services to be made by the veterinarian.

(3) Each candidate for examination as a veterinary technician shall file in his full name an application for examination with the board at least thirty (30) days before the date set by the board for the commencement of the examination and at the time of making the application shall pay the board a fee of twenty-five dollars (\$25). (4) The board shall adopt uniform rules within the limitations of this act, governing the matter of examinations for license to practice veterinary technology in the state of Montana, which examinations shall be open to any applicant meeting the requirements of this act, and shall also provide in such rules for giving reasonable notice of the time and place where examinations shall be held.

(5) A person who can produce satisfactory evidence that he has been employed as a veterinary technician in the office of a regularly licensed veterinarian in the state of Montana for two (2) or more years prior to the passage of this act, may, upon payment of a fee of twenty-five dollars (\$25), be granted a certificate to practice by the board of veterinarians; provided that if the board in its discretion finds that animal health and the public interest so require, the board may require the applicant to pass a practical examination in veterinary technology. A certificate must be secured before such person may continue practice as a veterinary technician.

(6) Each applicant who passes the examination prescribed by the board shall be granted a license as a veterinary technician and shall be registered as such in a record kept by the board, and shall receive a certificate in a form to be prescribed by the board.

The fee for annual registration shall be fixed by the board, not exceeding the sum of ten dollars (\$10). Failure of a licensee to procure a certificate of registration on or before July 1 shall constitute a forfeiture of the license.

(9) Each licensed veterinary technician shall keep the board informed of his address, the name and address of the licensed veterinarian or of the state department which is his employer, and such other information as the board may by rule require.

(i) **Registration by endorsement.** A person holding a certificate of registration to engage in the practice of engineering, issued to him by a proper authority of a state, territory, or possession of the United States, the District of Columbia, or any foreign country, based on requirements that do not conflict with the provision of the act and were of a standard not lower than that specified in the applicable registration act in effect in this state at the time the certificate was issued, may, upon application, be registered without further examination.

A person holding a certificate of qualification issued by the committee on national engineering certification of the national council of engineering

examiners, whose qualifications meet the requirements of this act, may upon application, be registered without further examination.

(ii) Engineering—graduation—experience—examination. A graduate of an engineering curriculum of four (4) years or more approved by the board as being of satisfactory standing, and with a specific record of an additional four (4) years or more of progressive experience on engineering projects of a grade and character which indicates to the board that the applicant may be competent to practice engineering, shall be admitted to an eight-hour written examination in the fundamentals of engineering, and an eight-hour written examination in the principles and practices of engineering. Upon passing such examinations, the applicant shall be granted a certificate of registration to practice engineering in this state, provided he is otherwise qualified.

(iii) Engineering-related graduation — experience — examination. A graduate of an engineering or related science curriculum of four (4) years or more, other than the ones approved by the board as being of satisfactory standing and with a specific record of eight (8) years or more of progressive experience on engineering projects of a grade and character which indicates to the board that the applicant may be competent to practice engineering, may be admitted to an eight-hour written examination in the fundamentals of engineering, and an eight-hour written examination in the principles and practices of engineering. Upon passing such examinations, the applicant shall be granted a certificate of registration to practice engineering in this state, provided he is otherwise qualified.

(iv) Long established practice. A graduate of an engineering or related science curriculum of four (4) years or more, with a specific record of twenty (20) years or more of progressive experience on engineering projects of which at least ten (10) years have been in charge of important engineering projects, and of a grade and character which indicates to the board that the applicant may be competent to practice engineering, shall be admitted to an eight-hour written examination in the principles and practices of engineering. Upon passing such examination, the applicant shall be granted a certificate of registration to practice engineering in this state, provided he is otherwise qualified.

(v) Temporary qualifications. A specific record of eight (8) years or more experience in engineering work of a character satisfactory to the board, and successfully passing a written or written and oral examination designated to show that the applicant is competent to practice engineering. This requirement will automatically expire four (4) years from the effective date of this act.

(vi) Engineering teaching in a college or university offering an approved engineering curriculum of four (4) years or more, may be considered as engineering experience in these requirements provided research, product development, or consulting has been a concurrent activity.

(b) As an engineer-in-training. The following shall be considered as minimum evidence that the applicant is qualified for certification as an engineer-in-training:

(i) Graduation and examination. A graduate of an engineering curriculum of four (4) years or more, approved by the board as being of satisfactory standing, shall be admitted to an eight-hour written examination in the fundamentals of engineering. Upon passing such examination, the applicant shall be certified or enrolled as an engineer-in-training if he is otherwise qualified.

(ii) Graduation—experience—examination. A graduate of an engineering or related science curriculum of four (4) years or more, other than the ones approved by the board as being satisfactory standing, and with a specific record of four (4) or more years of progressive experience on engineering projects of a grade and character, satisfactory to the board, shall be admitted to an eight-hour written examination in the fundamentals of engineering. Upon passing such examination, the applicant shall be certified or enrolled as an engineer-in-training, if he is otherwise qualified.

(2) Land surveying. To be eligible for admission to examination for land surveyor or land surveyor-in-training, an applicant must be of good character and reputation and shall submit five (5) references with his application for registration as a land surveyor, three (3) of which references shall be registered land surveyors having personal knowledge of his land surveying experience; or in the case of an application for certification as a land surveyor-in-training, by three (3) references, one of whom shall be a registered land surveyor having personal knowledge of the applicant's land surveying experience.

The evaluation of a land surveyor applicant's qualifications involves a consideration of his education, technical, and land surveying experience, exhibits of land surveying projects of which he has been in charge, recommendations by references, and a reviewing of these categories. An interview may be held at the board's discretion. Educational credit for institute courses, correspondence courses, etc., shall be determined by the board.

One of the following shall be considered as minimum evidence to the board that the applicant is qualified for registration as a land surveyor, or for certification as a land surveyor-in-training, respectively:

(a) As a land surveyor:

(i) Graduation—experience—examination. Have a bachelor of science degree in an approved curriculum and present evidence satisfactory to the board that, in addition thereto, he has had at least four (4) years of combined office and field experience in land surveying with a minimum of three (3) years of experience in charge of land surveying projects under the supervision of a registered land surveyor and who has passed the examinations as required by the board.

(ii) Formal education—experience—examination. Two (2) years of formal education in an approved curriculum above high school level with at least ninety (90) quarter credit hours passed, or equivalent semester hours, or the equivalent approved by the board, and present evidence satisfactory to the board that in addition thereto, he has had at least six (6) years of combined office and field experience in land surveying with a minimum of four (4) years of experience in charge of land surveying projects under the

(iii) Registration by comity or endorsement. A person holding a certificate of registration to engage in the practice of land surveying issued or comparable qualifications from a state, territory, or possession of the United States, will be given comity consideration. However, he may be asked to take such examinations as the board deems necessary to determine his qualifications, but in any event, he shall be required to pass a written examination of not less than eight-hours duration, which shall include questions on laws, procedures, and practices pertaining to the practice of land surveying in this state.

(iv) Temporary qualifications. A specific record of six (6) years or more experience in land surveying work of a character satisfactory to the board and indicating that the applicant is competent to practice land surveying, and successfully passing a written, or written and oral examination in land surveying prescribed by the board. This requirement will automatically expire two (2) years from the effective date of this act.

(b) As a land surveyor-in-training:

(i) Graduation—experience—examination. Compiler's Notes

This section was amended twice in 1977, once by Ch. 101 and once by Ch. 317. Since the amendments do not appear

Amendments

The 1971 amendment increased all the fees prescribed by this section.

The 1974 amendment substituted "prescribed by the board and furnished by the department" in subsection (1) for "prescribed and furnished by the board"; and made minor changes in phraseology, punctuation and style.

The 1975 amendment increased the registration fees in subsection (2) from \$35 to \$50; increased the portion accompanying the application from \$20 to \$30; increased the portion to be paid on issuance of certificate from \$15 to \$20; increased the fee for qualification by certificate from \$20 to \$30; increased the fee in subsection (3) for engineer-in-training from \$5.00 to \$10; increased the fee for issuance of certificate from \$15 to \$25; increased the registration fee for land surveyors in subsection (4) from \$35 to \$50; increased the fee for registration as professional engineer and land surveyor from \$50 to \$70; increased the portion to accompany the application from \$35 to \$50; and increased the portion to be paid on issuance of the certificate from \$15 to \$20.

Chapter 101, Laws of 1977, substituted "committee on national engineering certification of the national council of engineering examiners" for "national bureau of engineering registration"; and made minor changes in phraseology and style.

Chapter 317, Laws of 1977, rewrote subsections (2) through (5) which read: "(2) The registration fee for professional engineers is fifty dollars (\$50), thirty dollars (\$30) of which shall accompany application, the remaining twenty dollars (\$20) to be paid on issuance of a certificate. When a certificate of qualification issued by the national bureau of engineering registration is accepted as evi-

dence of qualification, the total fee for registration as professional engineer is thirty dollars (\$30).

"(3) The fee for engineer-in-training is twenty dollars (\$20), which shall accompany the application and shall include the cost of examination and issuance of a certificate. When certification as an engineer-in-training by another state, or a territory or possession of the United States or country, is accepted as evidence of qualification, the fee for engineer-in-training is ten dollars (\$10). When registration as a professional engineer is completed by an engineer-in-training, an additional fee of twenty-five dollars (\$25) shall be paid before issuance of a certificate as a professional engineer.

"(4) The registration fee for land surveyors is fifty dollars (\$50), which shall accompany the application. The fee for registration as both a professional engineer and land surveyor is seventy dollars (\$70), fifty dollars (\$50) of which shall accompany the application, the remaining twenty dollars (\$20) to be paid on issuance of a certificate.

"(5) If the board denies issuance of a certificate of registration to any applicant the initial fee deposited shall be retained as an application fee"; and added subsections (6) through (9).

Repealing Clause

Section 4 of Ch. 317, Laws 1977 read "Section 66-2364, R.C.M. 1947, is repealed."

66-2359. Examinations. Examination requirements are as follows:

(1) The examinations shall be held at times and places as the board directs. The board shall determine the acceptable grade on examinations.

(2) Written examinations may be taken only after the applicant has met the other minimum requirements as given in section 66-2357 and has been approved by the board for admission to the examinations as follows:

(a) Engineering fundamentals. Consists of an eight-hour examination on the fundamentals of engineering. Passing the examination qualifies the examinee for an engineer-in-training certificate, provided he has met all other requirements for certification required by this act.

(b) Principles—practice of engineering. Consists of an eight-hour examination on applied engineering. Passing this examination qualifies the examinee for registration as a professional engineer, provided he has met the other requirements for registration required by this act.

(c) Land surveyor-in-training. Consists of two (2) four-hour examinations designated as parts I and II, on the basic disciplines of land surveying. Passing these examinations qualifies the examinee for a land surveyor-in-training certificate, provided he has met all other requirements for certificates required by this act.

(d) Land surveyor. Consists of being a land surveyor-in-training and of two (2) four-hour examinations designated as parts III and IV, on the

applied disciplines of land surveying. Passing these examinations qualifies the examinee for registration as a land surveyor, provided he has met the other requirements for registration required by this act.

(3) A candidate failing one examination may apply for re-examination, which may be granted upon payment of a fee established by the board. Before readmission to the examination in the event of a second failure, the examinee must appear before the board with evidence of having acquired the necessary additional knowledge to qualify.

History: En. 66-2359 by Sec. 7, Ch. 366,
L. 1975.

66-2360. Certificates of registration—seal. (1) The department shall issue to any applicant, who, in the opinion of the board, has met the requirements of this act, a certificate of registration giving the registrant proper authority to practice his profession and to assume responsible charge of engineering or land surveying projects in this state. The certificate of registration for a professional engineer shall carry the designation “professional engineer,” and for a land surveyor, “land surveyor.” It shall give the full name of the registrant with his serial number and shall be signed by the chairman and the secretary under the seal of the board.

(2) This certificate shall be prima facie evidence that the person named thereon is entitled to all rights, privileges, and responsibilities of a professional engineer or land surveyor, while the said certificate of registration remains unrevoked or unexpired.

(3) Each registrant hereunder may, upon registration, obtain a seal of a design authorized by the board, bearing the registrant’s name, serial number, and the legend, “professional engineer” and/or “land surveyor.” Plans, specifications, plats, and reports prepared by a registrant shall, when issued, be certified, signed, and stamped with the said seal or facsimile thereof. It shall be unlawful for a registrant to affix or permit his seal and signature or facsimile thereof to be affixed to any plans, specifications, plats, or reports after the expiration of a certificate or for the purpose of aiding or abetting any other person to evade or attempt to evade any provision of this act.

(4) The department shall issue to any applicant, who, in the opinion of the board, has met the requirements of this act, an enrollment card as engineer-in-training or land surveyor-in-training, which indicates that his name has been recorded as such in the board office. The engineer-in-training or land surveyor-in-training enrollment card does not authorize the holder to practice as a professional engineer or land surveyor.

L. 1975.

66-2361. Expiration and renewals—fee. Certificates of registration expire on December 31 and become invalid on that date unless renewed. The department shall notify every person registered under this act, of the date of the expiration of his certificate and the amount of the fee required for its renewal for one (1) year. This notice shall be mailed at least one (1) month in advance of the date of the expiration of the certificate. Re-

renewal may be made during the month of December by the payment of a fee not to exceed twenty dollars (\$20) as set by the board for either a professional engineer or land surveyor or both. Failure on the part of a registrant to renew his certificate annually in the month of December does not deprive him of the right of renewal; however, a registrant who fails to pay the renewal fee for two (2) consecutive years shall be considered a new applicant and is required to submit a new application.

Compiler's Notes

This section was amended twice in 1975, once by Ch. 439 and once by Ch. 497. Neither amendatory act mentioned or incorporated the changes made by the other. Since the amendments do not appear to conflict, the compiler has made a composite section embodying the changes made by both amendments.

In the case of a firm or corporation, the examination and issuance of a license to an individual of the firm, or to a principal of the firm or corporation, satisfies the requirements of this act as to master plumbers, but not as to journeymen plumbers. No individual, firm or corporation may do the work of a master plumber unless licensed under this act.

A license when issued expires 1 year from the date of issuance. A license issued to a master plumber or a journeyman plumber may be renewed annually without examination, at any time prior to its expiration, by a written request for its renewal directed to the department and the payment of not to exceed \$100 as set by the board for a renewal of a master plumber's license and not to exceed \$25 as set by the board for a journeyman plumber's license, and renewal is also for the period of 1 year.

66-2406. Apprentices—rules—record. This act does not prohibit a person from working as an apprentice in the trade of plumbing with a plumber licensed by the department under the supervision of a licensed journeyman plumber. Only those apprentices registered with the state department of labor and industry will be recognized by the department. (1) It is unlawful for any person to engage in the business, trade, or work having to do with the installation, removal, alteration, or repair of plumbing and drainage systems or parts thereof without first obtaining a permit from the department of administration.

A separate permit shall be obtained for each building or structure.

No person may allow any other person to do or cause to be done any work under a permit secured by the permittee except persons in his employ.

(2) No permit is required for any minor replacement or repair work, the performance of which does not have a significant potential for creating a condition hazardous to public health and safety. No permit is required where the installation is exempt under the provisions of 66-2426 or 66-2401. No state permit is required whenever the installation occurs in an area governed by a municipality and where there is in effect a municipal building code which covers plumbing installations and which provides inspection procedures. Nothing contained in this act shall prohibit the owner of residential property from making an installation for all sanitary plumbing and potable water supply piping without a permit providing he does the work himself. The provisions of this act do not apply to regularly employed maintenance personnel doing maintenance work on the business premises of their employer unless work is subject to the permit provisions of this act.

(3) Persons required by this section to apply for a permit shall make application on forms provided by the department of administration or authorized representative. He shall give a description of the character of the work proposed to be done, and the location, ownership, occupancy and use of the premises in connection therewith. The department of administra-

tion or its authorized representative may require sketches, specifications or drawings and such other information it deems necessary in order to determine the scope of the work contemplated.

If the department of administration determines that the sketches, specifications, drawings, descriptions and information furnished by the applicant are in compliance with the state plumbing code, it shall issue the permit applied for upon payment of the required fee as established by the department of administration.

(4) Any person who commences any work for which a permit is required without first obtaining a permit shall, if subsequently permitted to obtain a permit, pay double the permit fee for the work, except that this provision does not apply to emergency work when it is proved to the satisfaction of the department of administration or its authorized representative that the work was urgently necessary and that it was not practical to obtain a permit before the commencement of the work. In all such cases, a permit shall be obtained as soon as it is practical to do so, and if there is unreasonable delay in applying for the permit, a double fee shall be charged.

For the purpose of this section, a sanitary plumbing outlet on or to which a plumbing fixture or appliance may be set or attached shall be construed to be a fixture. Fees for reconnection and retest of plumbing systems in relocated buildings shall be based on the number of plumbing fixtures, gas systems, water heaters, and the like involved.

When a permit has been obtained to connect an existing building or existing work to the public sewer or to connect to a new private disposal facility, backfilling of private sewage disposal facilities abandoned consequent to the connection is included in the permit.

The department of administration shall establish permit fees in accordance with the Montana Administrative Procedure Act and the fees shall be deposited to the earmarked revenue fund of the department of administration for use in the administration and enforcement of this act and the Montana state plumbing code.

(5) All plumbing and drainage systems may be inspected by the department of administration or their authorized representative to insure compliance with the requirements of the state plumbing code.

(6) It is the duty of the person doing work authorized by the permit to notify the department of administration orally or in writing, that the work is ready for inspection. The notification shall be given not less than 24 hours before the work is to be inspected.

It is the duty of the person doing the work authorized by the permit to ensure that the work performed before notification and after notification pending inspection complies with the state plumbing code.

(7) Whenever any work is being done contrary to the provisions of the state plumbing code, the department of administration or its authorized representative may, after a hearing conducted under the provisions of the Montana Administrative Procedure Act, order work stopped by notice in writing served on any person engaged in the work.

(8) The department of administration may suspend or revoke a permit, whenever it is issued in error or on the basis of incorrect information supplied, or work performed thereunder is in violation of any of the provisions of Title 66, chapter 24.

"as established by the board by rule" at the end of the third sentence; inserted "Said fee shall be commensurate with the cost of the examination and its administration and" at the beginning of the fourth sentence; and deleted "without additional fee" at the end of the section.

If a licensee does not apply for renewal of his license before the first day of a license year, and remit to the department the renewal fee, he shall have his license suspended by the board; and, if the license remains suspended for a period of more than thirty (30) days after the first day of a license year, it shall be revoked by the board. However, the department, prior to this revocation, shall notify the licensee of the board's intention to revoke at least ten (10) days prior to the time set for action to be taken by the board on the license, by mailing notice to the licensee at the address appearing for the licensee in the records and files of the department. A license, once revoked, may not be reinstated unless it appears that an injustice has occurred indicating to the board that the licensee was not guilty of negligence or laches. A person whose license has been revoked, through his own fault, if he desires to engage in the business of water well drilling in this state, or contracting therefor, must apply under section 66-2606. Notice of suspension shall be given a licensee when the suspension occurs.

Examinations may be oral, written, or both. The qualifications required by the board are: (a) familiar knowledge of ground water laws of this state and sanitary standards for water well drilling and construction of water wells; (b) knowledge of types of water well construction; (c) knowledge of types of drilling tools and their uses; (d) knowledge of underground geology in its relation to well construction; (e) possession of adequate equipment by the applicant to complete satisfactory water wells under the standards of the board; (f) financial responsibility of the applicant; (g) successful completion of an examination given by the department; (h) the applicant must have completed a minimum of one (1) year apprenticeship under the direct supervision of a licensed water well contractor.

(2) The department shall give examinations at times and places the board determines. Failure of an applicant to successfully complete the examination disqualifies him from making further application for a period of six (6) months. The board shall act within a reasonable time on applications for licenses. An application shall be accompanied by the initial fee, and failure to successfully meet the requirements of the board does not entitle the applicant to a refund of the fee.

History: En. Sec. 8, Ch. 176, L. 1961; amd. Sec. 4, Ch. 232, L. 1974; amd. Sec. 257, Ch. 350, L. 1974.

Compiler's Notes

This section was amended twice in 1974, once by Ch. 232 and once by Ch. 350. Neither amendatory act mentioned or incorporated the changes made by the other. Since the amendments do not appear to conflict, the compiler has made a composite section embodying the changes made by both amendments.

Amendments

Chapter 232, Laws of 1974, inserted the provision contained in item (h) in subsection (1) that an applicant for a license must have completed a minimum of one year apprenticeship under the supervision of a licensed water well contractor.

Chapter 350, Laws of 1974, inserted the numerical subsection designations at the beginning of the paragraphs; revised the section to provide that the department instead of the board shall inquire into qualifications of applicants and give examinations; and made minor changes in phraseology and punctuation.

66-2609. Bond to be required. The department, on issuance of a license under this act shall require, before the person commences operations in this state a good and sufficient surety bond, or in lieu thereof its equivalent in a certificate of deposit, cashiers check, bank draft or certified check, to be approved by the board, in the penal sum of one thousand dollars (\$1,000), conditioned that the licensee will comply with the rules of the board and reasonable requirements made by the board in connection with the drilling of an individual well.

History: En. Sec. 9, Ch. 176, L. 1961; amd. Sec. 5, Ch. 232, L. 1974; amd. Sec. 258, Ch. 350, L. 1974; amd. Sec. 2, Ch. 268, L. 1975.

Amendments

Chapter 232, Laws of 1974, made no change in the text of the section.

Chapter 350, Laws of 1974, substituted "The department" for "The board" at the

beginning of the section and made minor changes in phraseology and punctuation.

The 1975 amendment inserted "or in lieu thereof its equivalent in a certificate of

deposit, cashiers check, bank draft or certified check" after "surety bond"; and made minor changes in phraseology.

66-2610. Revocation and suspension. (1) A license issued under this act may be suspended or revoked by the board, in cases other than failure of a licensee to renew the license, after notice and hearing, in the event the licensee has violated a condition of the bond maintained by him as a prerequisite to issuance of the license, for the practice of fraud or deceit in obtaining a license, for gross negligence, incompetence, conviction of a felony, or violating the requirements of this act. Any person may make complaint against a licensee. Complaints shall be in writing, signed by the complainant, and must specify the charges against the licensee. The board, on its own motion, or on receipt of a complaint, shall hold a hearing on charges.

(2) A person bringing the complaint has the burden of proof and must appear in person. A unanimous vote of the board is required in order to revoke or suspend a license. If a suspension is directed by the board, it may not be for a period in excess of one (1) year.

If the application is rejected the board shall set forth the reasons in the notice to the applicant, and shall authorize the department to return the applicant's examination fee. The place of examinations shall be designated by the board and examinations shall be held at least once a year and at other times as, in the opinion of the board, the number of applicants warrants.

(b) The written examination shall consist of at least thirty (30) questions designed to fairly test the applicant's knowledge and his technical application in the following subjects:

(2) Develop and apply appropriate techniques, including examination and investigations, for determining whether individuals meet the standards.

(3) Authorize the department to register and issue licenses to individuals, after application of the techniques, determined to meet the standards, and for cause, after notice and hearing, revoke or suspend licenses previously issued if the individual holding the license is determined substantially to have failed to conform to the requirements of the standards. The board may, in its discretion, defer execution of its order of revocation or suspension for the purpose of permitting continuity of care for patients when the need for this continuity of care outweighs any harm or danger which might result from the failure of the nursing home administrator to be registered and licensed, resulting in the closure of a long-term care facility.

(4) Establish and implement procedures designed to ensure that individuals registered and licensed as nursing home administrators will, during the period that they serve, comply with the requirements of the standards.

(5) On receipt of a written and signed complaint, an investigation of the matter contained in the complaint shall be initiated, subject to sections 82A-1603 and 82A-1604. At its next meeting, the complaint shall be presented to the board together with the report of investigation and recommendations and on this basis, the board shall determine whether to bring charges and provide for a hearing.

(6) Conduct a continuing study and investigation of nursing home administrators within the state with a view to the improvement of the standards imposed for the licensing of administrators and of procedures and methods for the enforcement of the standards with respect to nursing home administrators.

(7) Conduct, or cause to be conducted, one or more courses of instruction and training sufficient to meet the requirements of this act, and make provisions for the conduct of these courses and their accessibility to residents of this state, unless it finds that there are a sufficient number of courses conducted by others within this state to meet the needs of the state. Instead, the board may approve courses conducted within and outside of this state sufficient to meet the education and training requirements of this act.

(8) Prescribe or approve continuing education courses.

Every holder of a nursing home administrator's registration and license shall renew it annually by payment of the required fee for the next subsequent year, prior to the expiration of his currently valid registration and license on December 31. Renewals of registrations or licenses shall be granted as a matter of course, providing the holder has completed a continuing education course prescribed or approved by the board, however, if the board finds after due notice and hearing, that the applicant has acted or failed to act in such a manner, or under circumstances, as would constitute grounds for suspension or revocation of a registration and license, it shall not issue the renewal.

(c) sustaining a physical or mental disability which renders further practice dangerous;

(d) habitual drunkenness or habitual addiction to the use of a controlled substance;

(i) advertising, practicing, or attempting to practice under a name other than one's own;

(j) using any false, fraudulent, or forged statement or document or engaging in any fraudulent, deceitful, dishonest, or immoral practice in connection with the licensing requirements of this chapter; or

(k) violating or attempting to violate or assisting or abetting the violation of or conspiring to violate any provision of this chapter.

(2) Any person, including any member of the board, may file a sworn complaint with the secretary of the board against any person having a license to practice acupuncture in this state charging him with the commission of any of the offenses set forth in subsection (1) of this section, which complaint shall set forth a specification of the charges. When the complaint is filed, the secretary shall mail a copy to the person so accused at his last address of record with the board, together with a written notice of the time and place of a hearing thereon advising him that he may be present in person and by counsel if he so desires to offer evidence and be heard in his defense. The time fixed for hearing may not be less than 30 days from the date of mailing the notice. The contested case procedures of the Montana Administrative Procedure Act apply to the notice and hearing required by this section, except that neither common law nor statutory rules of evidence need apply, but the board may make rules designed to exclude repetitive, redundant, or irrelevant testimony.

(3) At the time and place fixed for a hearing before the board as provided in subsection (2) of this section or at any time and place to which the matter may be continued, the board shall receive evidence upon the subject under consideration and shall accord the person against whom charges are preferred a full and fair opportunity to be heard in his defense and shall after consideration adopt a resolution finding him guilty or not guilty of the matters charged. If the board finds that the conditions referred to in subsection (1) of this section do not exist with reference to the person or if he is found not guilty, the board shall dismiss the charges or complaint, but if the board finds that the conditions referred to in subsection (1) of this section do exist and the person is found guilty, the board shall:

(a) revoke his license;

(b) suspend his right to practice for a period not exceeding 1 year;

(c) suspend its judgment of revocation upon the terms and conditions to be determined by the board;

(d) place him on probation; or

(e) take such other action in relation to disciplining him as the board in its discretion considers proper.

(4) The secretary of the board in all cases of revocation, suspension, or probation shall enter in its records the facts of the action and of any subsequent action of the board with respect thereto.

(5) Upon the expiration of the term of suspension, the licensee shall be reinstated by the board, provided the licensee furnishes the board with evidence that he is then of good moral character and conduct and restored to good health and that he has not practiced acupuncture in this state during the term of suspension. If the evidence fails to establish to the satisfaction of the board that the licensee is then of good moral character and conduct or restored to good health or if the evidence shows he has practiced acupuncture in this state during the term of suspension, the board shall revoke the license at a hearing, the notice and procedure of which shall be as herein provided, which revocation is final and absolute.

The maximum fee for delayed renewal shall not exceed twice the normal renewal fee.

(7) Application for renewal following a lapse of one (1) year or more shall be subject to review by the board, and the applicant may be requested to complete an examination successfully if the board so determines.

CHAPTER 2—DEFINITIONS AND NATURE OF PROPERTY

Section

67-205. Brands—recording—fees.

67-205. (6665.2) Brands—recording—fees. (1) An owner or prospective owner of animals described in 67-204 is entitled, by written subscribed statement, to adopt distinctive brands or tattoo marks, not including arabic numerals and not already in known use by others, for any of the animals and to have the distinctive brands and tattoo marks recorded in his name with the department of livestock on paying a recording fee equal to that charged for recording marks or brands used on domestic animals and livestock set by 46-609 for each brand and for each tattoo mark. The statements shall be recorded in a suitable book to be kept for that purpose by the department of livestock. The presence of the recorded brand or recorded tattoo marks on an animal is prima facie evidence of the ownership of the animal in the person, association, or corporation in whose name the brand or tattoo mark is recorded, subject always to the right to make a transfer of title, right, or interest in, or lien on the animal.

(2) A person desiring to transfer a brand or mark properly recorded by him under this section may do so provided he meets the requirements and pays the fees imposed by chapter 6 of Title 46. Brands or marks recorded under this section are subject to the same rerecording requirements and fees as imposed by chapter 6 of Title 46.

(3) All fees collected under this section shall be paid into the earmarked revenue fund for the use of the department.

History: En. Sec. 2, Ch. 97, L. 1933; amd. Sec. 196, Ch. 310, L. 1974; amd. Sec. 2, Ch. 10, L. 1977.

Amendments

The 1974 amendment substituted “department of livestock” for “secretary of the livestock commission” in the first sentence and made minor changes in phraseology and punctuation.

The 1977 amendment inserted the sub-

section (1) designation; substituted “described in 67-204” in the first sentence of subsection (1) for “in restraint or captivity”; substituted “recording fee equal to that charged for recording marks or brands used on domestic animals and livestock set by 46-609” in the first sentence of subsection (1) for “recording fee of four dollars”; added subsections (2) and (3); and made minor changes in phraseology and punctuation.

67-208. (6668) Land.**Improvements on Land**

Special assessments for flood control purposes under section 89-2330 are limited

to land, exclusive of improvements. In re West Great Falls Flood Control & Drainage Dist., 159 M 277, 496 P 2d 1143.

67-211. (6671) Appurtenances.**Water Rights**

Water rights represented by the water stocks, the registered owner of which was the seller of land under contract for deed, were incidental and appurtenant to the land where water rights were beneficially

used on the land; contract for deed effectively conveyed beneficial ownership in water rights in absence of an express reservation or exception. *Schwend v. Jones*, — M —, 515 P 2d 89.

CHAPTER 3—OWNERSHIP OF PROPERTY AND INTERESTS THEREIN**Section**

67-308.1. Distribution of property whenever joint tenant fails to survive for one hundred twenty hours.

67-305. (6677) When qualified.**Acquisition of Property**

Where family-owned dairy farm corporation sold its lessors' interest in half of its herd to third party who then leased cattle back to corporation, the corporation, to the extent of the lease agreement, continued to own the cattle and, as long

as operation of dairy farm was uninterrupted and not abandoned, there was no "acquisition" of the farm under milk control board regulations. *Medo-Land Dairies v. Montana Milk Control Board*, 157 M 215, 483 P 2d 705.

67-308.1. Distribution of property whenever joint tenant fails to survive for one hundred twenty hours. (1) Whenever property is held in joint tenancy by two joint tenants and the joint tenants die within 120 hours of each other or it cannot be determined whether one survived the other by 120 hours, the property shall be distributed one-half to the estate of one joint tenant one-half to the estate of the other joint tenant.

(2) Whenever property is held in joint tenancy by more than two joint tenants and the last surviving joint tenant does not survive all of the other joint tenants by 120 hours or it cannot be determined whether he so survived for 120 hours, the property shall be distributed equally among the estates of the last surviving joint tenant and the joint tenants which he failed to survive by 120 hours.

History: En. 67-308.1 by Sec. 1, Ch. 75, L. 1977.

Title of Act

Section 2 of Ch. 75, Laws 1977 read "The act is effective retroactively to June 30, 1975."

Separability Clause

Section 3, Ch. 75, Laws 1977 read "If a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of this act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications."

Effective Date

Section 4, Ch. 75, Laws 1977 provided the act should be effective upon its passage and approval. Approved March 25, 1977.

CHAPTER 6—SERVITUDES

Section

- 67-601. Servitudes attached to land.
 67-602. Servitudes not attached to land.
 67-609. [Transferred.]

67-601. (6749) Servitudes attached to land. The following land burdens, or servitudes upon land, may be attached to other land as incidents or appurtenances, and are then called easements:

1 to 17. * * * [Same as parent volume.]

18. The right of conserving open space to preserve park, recreational, historic, aesthetic, cultural, and natural values on or related to land.

History: En. Sec. 1250, Civ. C. 1895; re-en. Sec. 4507, Rev. C. 1907; re-en. Sec. 6749, R. C. M. 1921; amd. Sec. 16, Ch. 489, L. 1975. Cal. Civ. C. Sec. 801. Field Civ. C. Sec. 245.

Public Easement

A general clause in a deed stating that the grant is subject to easement for roads and ditches as now established and located upon or across premises, does not reserve an easement to the general public. *Wilson v. Chestnut*, — M —, 525 P 2d 24.

Amendments

The 1975 amendment added subdivision 18.

67-602. (6750) Servitudes not attached to land. The following land burdens, or servitudes upon land, may be granted and held, though not attached to land:

1 to 6. * * * [Same as parent volume.]

7. The right of conserving open space to preserve park, recreational, historic, aesthetic, cultural, and natural values on or related to land.

History: En. Sec. 1251, Civ. C. 1895; re-en. Sec. 4508, Rev. C. 1907; re-en. Sec. 6750, R. C. M. 1921; amd. Sec. 17, Ch. 489, L. 1975. Cal. Civ. C. Sec. 802. Based on Field Civ. C. Sec. 246.

Amendments

The 1975 amendment added subdivision 7.

67-606. (6754) Extent of servitudes.

Restrictive Covenant in Deed

Road easement which had been purchased from former owners of a portion of subdivision with full knowledge that the building of the road would be in vio-

67-609. [Transferred.]

Compiler's Notes

Section 15, Ch. 489, Laws of 1975 renumbered this section as sec. 62-617.

67-611. (6759) How extinguished.

Abandonment and Reconveyance of Easement

Easement acquired for use of land as a public park adjoining highway was abandoned by state's abandonment of the highway and abandonment of its maintenance and dominion over the park area. *Park County Rod & Gun Club v. Department of Highways*, — M —, 517 P 2d 352.

Incompatible Act

Purchase by city of an easement which conveyed nothing more than the city already owned under a prior easement was not an act incompatible with the prior easement and did not extinguish the prior easement. *City of Billings v. O. E. Lee Co.*, — M —, 542 P 2d 97.

CHAPTER 7—RIGHTS INCIDENTAL TO OWNERSHIP OF REAL PROPERTY

67-710. (6769) Terms of lease may be changed by notice.**Intent**

Intent of this section is to inform tenants of rent increase, not to gain jurisdiction over them. *Walker v. Tschache*, — M —, 510 P 2d 9.

Notice Served Upon Tenant

Notice requirement of this section did not mean jurisdictional service, and was fulfilled when landlord placed timely rent increase notices in addressed envelopes in tenants' mailboxes. *Walker v. Tschache*, — M —, 510 P 2d 9.

CHAPTER 8—OBLIGATIONS INCIDENTAL TO THE OWNERSHIP OF REAL PROPERTY—MONUMENTS AND FENCES

67-808. Restriction on liability to gratuitous licensee for recreation.**Government Licensee**

Notwithstanding that the agreement between power company and United States government used word "licensee," power company qualified as "landowner or tenant," as used in this section, since legal effect of instrument was to create lease; therefore, power company could properly use this section as an affirmative defense in personal injury action. *State ex rel. Tucker v. District Court*, 155 M 202, 468 P 2d 773.

Property

In action for personal injuries resulting from fall from private train being operated on defendant's property, trial court properly overruled plaintiff's motion to strike affirmative defense based on this section on ground that this section applies only to injuries caused by real estate, since, under section 19-103, "property," as used in this section, includes both real and personal property. *State ex rel. Tucker v. District Court*, 155 M 202, 468 P 2d 773.

CHAPTER 9—POWERS IN RELATION TO REAL PROPERTY

Section

67-903. Married persons.

67-904. Married persons.

67-903. (6800) Married persons. A married person may execute a power during marriage, without the concurrence of the spouse, unless otherwise prescribed by the terms of the power.

History: En. Sec. 1332, Civ. C. 1895; re-en. Sec. 4553, Rev. C. 1907; re-en. Sec. 6800, R. C. M. 1921; amd. Sec. 31, Ch. 535, L. 1975. **Field Civ. C. Sec. 320.**

Amendments

The 1975 amendment substituted "person" for "woman"; and substituted "the spouse" for "her husband."

67-904. (6801) Married persons. No power can be executed by a married woman before she attains her majority which could not be executed by a married man before he attains his majority.

History: En. Sec. 1333, Civ. C. 1895; re-en. Sec. 4554, Rev. C. 1907; re-en. Sec. 6801, R. C. M. 1921; amd. Sec. 32, Ch. 535, L. 1975. **Based on Field Civ. C. Sec. 321.**

Amendments

CHAPTER 11—PERSONAL PROPERTY—KINDS—LAW GOVERNING

67-1103. (6805) Transfer and survivorship.**Joinder of Insurance Company**

The insured may prosecute an action for the full amount of the loss, or either the insured or the insurer may separately sue for his portion of the loss, and if the ac-

tion is instituted by either one alone, the defendant can compel joinder of the other or may waive joinder. *State ex rel. Slovak v. District Court*, — M —, 534 P 2d 850.

CHAPTER 12—ACQUISITION OF PROPERTY BY OCCUPANCY

67-1203. (6818) Prescription.**Easement by Prescription**

Since prescriptive easement must be by hostile or adverse use, no use of a road

with permission of the owner can ripen into prescriptive easement. *Wilson v. Chestnut*, — M —, 525 P 2d 24.

CHAPTER 15—ACQUISITION OF PROPERTY BY TRANSFER—
GRANTS AND THEIR INTERPRETATION**67-1511. (6845) Delivery to grantee is necessarily absolute.****Unconditional Delivery and Acceptance**

Informal written instrument, indicating that donor wished to pay money on demand but that it could be collected against his estate if not demanded or paid sooner, was unconditionally delivered and ac-

cepted when accepted by donee, even though no demand for payment was made during donor's lifetime. *Faith Lutheran Retirement Home v. Veis*, 156 M 38, 473 P 2d 503.

67-1512. (6846) Delivery in escrow.**Delivery to be Made upon Death of Grantor**

Where deeds had been delivered to grantor's attorney with written instructions for delivery to grantee after death of grantor, and the instructions contained

an acknowledgment signed by the grantor that such delivery placed the deeds out of the possession and control of the grantor, such delivery was sufficient to establish delivery in escrow. *Blackmer v. Blackmer*, — M —, 525 P 2d 559.

67-1516. (6850) Limitations—how controlled.**Granting Clause**

Granting clause which referred specifically to grantee's right to use the land as a public park constituted a clear and dis-

tinct limitation; interest conveyed was an easement. *Park County Rod & Gun Club v. Department of Highways*, — M —, 517 P 2d 352.

67-1523. (6857) Incidents.**Water Rights**

Water rights represented by the water stocks, the registered owner of which was the seller of land under contract for deed, were incidental and appurtenant to the land where water rights were beneficially

used on the land; contract for deed effectively conveyed beneficial ownership in water rights in absence of an express reservation or exception. *Schwend v. Jones*, — M —, 515 P 2d 89.

CHAPTER 16—TRANSFER OF REAL PROPERTY—METHOD AND EFFECT

Section

67-1602.1. Joint tenancy created by direct conveyance.

67-1603. Grant by married person—how acknowledged.

67-1602.1. Joint tenancy created by direct conveyance. A joint tenancy as to any interest in real property may be established by the owner thereof, by designating in the instrument of conveyance or transfer, the names of such joint tenants including his own, without the necessity of any transfer or conveyance to or through a third person.

All joint tenancies created in this manner prior to July 1, 1963, are sufficient in law to create a joint tenancy.

History: En. Sec. 1, Ch. 208, L. 1963; paragraph, validating all joint tenancies created by direct conveyance prior to July 1, 1963.
amd. Sec. 1, Ch. 9, L. 1971.

Amendments

The 1971 amendment added the second

67-1603. (6861) Grant by married person—how acknowledged. No estate in the real property of a married person passes by any grant purporting to be executed or acknowledged by such person, unless the grant or instrument is acknowledged by the grantor in the manner prescribed by sections 39-108 and 39-113.

History: En. Sec. 1502, Civ. C. 1895; re-en. Sec. 4614, Rev. C. 1907; re-en. Sec. 6861, R. C. M. 1921; amd. Sec. 33, Ch. 535, L. 1975. Cal. Civ. C. Sec. 1093. Based on Field Civ. C. Sec. 486.

Amendments

The 1975 amendment substituted "person" and "grantor" for references to a married woman.

67-1607. (6865) What easements pass with property.

Implied Easement

Ample room for alternative ingress and egress to contiguous county road precluded finding of implied easement on conveyance of part of a tract, in spite of permissive use of access road by several succeeding property owners for twenty-four years. Poepping v. Neil, 159 M 488, 499 P 2d 319.

when plaintiff bought the adjoining property, and defendant still owned land over which he had access, there could have been no implied reserved easement for the roadway. Godfrey v. Pilon, — M —, 529 P 2d 1372.

Implied Reserved Easement of Necessity

Where all witnesses agreed that there was no visible sign of a roadway or path over defendant's property at the time

Marking of Reserved Easement

Common grantor who sold land fronting on the road, could not later reserve an easement for construction of ingress road over land previously sold by placing a coffee can marker at the point where the ingress road was to be constructed. Godfrey v. Pilon, — M —, 529 P 2d 1372.

CHAPTER 17—TRANSFER OF PERSONAL PROPERTY—MODES OF TRANSFER

67-1706. (6882) Gifts defined.

Donative Intent

Evidence that donor was eighty-eight years of age, suffered from cerebral arteriosclerosis and was disoriented and forgetful, was more susceptible to suggestion than the average healthy person, that the donee was a close friend and blood relative of the donor, and that the donee had

written a letter suggesting that the donor put someone else's name on her savings account, was sufficient to void purported gift effected by transfer of donor's savings account to donor and donee jointly due to donor's mental incapacity to form the requisite intent. Patterson v. Halterman, — M —, 505 P 2d 905.

state of Montana is hereafter to be known and designated as the "Montana Co-ordinate System."

For the purpose of the use of this system the state is divided into a "North Zone," and "Central Zone," and a "South Zone."

The Montana Co-ordinate System, North Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $47^{\circ} 51'$ and $48^{\circ} 43'$, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian $109^{\circ} 30'$ west of Greenwich and the parallel $44^{\circ} 00'$ north latitude. This origin is given the co-ordinates: $x = 2,000,000$ feet and $y = 0$ feet.

The Montana Co-ordinate System, Central Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $46^{\circ} 27'$ and $47^{\circ} 53'$, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian $109^{\circ} 30'$ west of Greenwich and the parallel $45^{\circ} 50'$ north latitude. This origin is given the co-ordinates: $x = 2,000,000$ feet and $y = 0$ feet.

The Montana Co-ordinate System, South Zone, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $44^{\circ} 52'$ and $46^{\circ} 24'$, along which parallels the scale shall be exact. The origin of co-ordinates is at the intersection of the meridian $109^{\circ} 30'$ west of Greenwich and the parallel $47^{\circ} 00'$ north latitude. This origin is given the co-ordinates: $x = 2,000,000$ feet and $y = 0$ feet.

The decision of any three (3) board members shall constitute the decision of the board on any issue presented for its decision. The board shall have continuing jurisdiction over all matters heard by it, to examine additional evidence, or to hear additional testimony, and to revise, modify, alter, amend or reverse all orders, demands, findings and decisions made by it at any time and shall not lose jurisdiction until jurisdiction has been taken by a court of competent jurisdiction in a proceeding filed in such court.

Prior to issuing the temporary cease and desist order, the board whenever possible by telephone or otherwise shall give notice of the proposal to issue a temporary cease and desist order to the person. disability retirement. If the total disability is a direct result of any service to the department of fish and game in line of duty, and the contributor has had over ten (10) years of service, the state game warden who is totally and permanently disabled shall be retired on total retirement allowance of one-half ($\frac{1}{2}$) of his average final salary.

- (1) a member's annuity which is the actuarial equivalent of the contributor's accumulated deductions; and
- (2) a state annuity which, when added to the member's annuity, will provide a total annuity equal to 50% of the final salary of the contributor, less the amount which is paid to the beneficiary under the Workers' Compensation Act of the state of Montana during the period such compensation is paid or payable.

Compiler's Notes

This section was amended twice in 1977, once by Ch. 8 and once by Ch. 578. The code commissioner has made a composite section embodying some, but not all, the changes made by both amendments.

Amendments

Chapter 8, Laws of 1977, deleted "standing to his credit" after "deductions" near the end of subdivision (1); deleted "the

actuarial equivalent of" at the beginning of subdivision (2); substituted "Workers' Compensation Act" for "Workmen's Compensation Act" in subdivision (2) and made minor changes in phraseology, punctuation and style.

at the end of subdivision (2); and made minor changes in phraseology, punctuation and style.

68-1419. Monthly payments of retirement allowances. The retirement allowances granted under the provisions of this act shall be paid in equal monthly installments and may not be increased, decreased, revoked or repealed unless by act of the legislature of the state of Montana. However, there may not be any duplication of benefits to a member or beneficiary due to there being more than one period of service of the member.

History: En. Sec. 19, Ch. 130, L. 1963; amd. Sec. 7, Ch. 332, L. 1977.

Amendments

68-1420.1. Withholding of group insurance premium from retirement benefit. A retiree who is a participant in an employee group insurance plan which permits participation in the group plan following retirement may elect to have the monthly premium for such group insurance withheld by the retirement system and paid directly by the system to the insurance carrier. In order to qualify for this withholding, a retiree must be a participant in a group insurance plan available to the employees of his former employer. No withholding may be made for any retiree covered by an individual insurance policy.

History: En. 68-1420.1 by Sec. 6, Ch. 214, L. 1977.

- (a) continue his payments into the account; or
- (b) allow the board to make his payments for him during his military service, in which event he must repay the account the full amount of the payments within 2 years after his return to active state game warden status.

(2) If a member chooses one of the options in subsection (1) and meets its requirements, he shall receive credit for his service in the armed forces of the United States as if it were service as a state game warden.

History: En. Sec. 22, Ch. 130, L. 1963; amd. Sec. 13, Ch. 8, L. 1977.

Amendments

The 1977 amendment deleted "now in or hereafter" before "inducted" near the beginning of subsection (1); deleted "upon his return to state game warden status, and such repayments must be made" be-

fore "within 2 years" in subdivision (1) (b); substituted subsection (2) for "provided that a member's service in the armed forces of the United States shall be credited to and made a part of the member's service allowance"; and made minor changes in phraseology, punctuation and style.

If a member dies after retirement and within 30 days from the date upon which his election or changed election was received by the board, the election is void and the death will be considered as that of a member before retirement.

(2) A member or beneficiary may elect or, prior to the approval of a previous election, revoke or change a previous election and elect to receive the actuarial equivalent of his retirement allowance as of the date of retirement, in a lesser retirement allowance, payable throughout life with one of the following options:

(a) Option 1—upon his death, his lesser retirement allowance will be continued throughout the life of and paid to the person that he nominated by written designation, duly executed and filed with the board at the time of his retirement.

(b) Option 2—upon his death, one-half of his lesser retirement allowance will be continued throughout the life of and paid to the person that he nominated by written designation, duly executed and filed with the board at the time of his retirement.

(c) Option 3—such other benefits will be paid, either to the beneficiary or to any other person that he nominated, as, together with the lesser retirement allowance, are the actuarial equivalent of his retirement allowance and have been approved by the board.

History: En. Sec. 27, Ch. 130, L. 1963; amd. Sec. 15, Ch. 8, L. 1977.

(2) A person who is a member of the retirement system assigned to law enforcement who transfers to a position involving duties other than law enforcement in the fish and game department may retain membership in the retirement system by filing a written election of intent with the board no later than August 1, 1977, or no later than 30 days after transfer to the new position, whichever is later.

If he does contribute, he shall receive credit for service for such time in the same manner as if he

had not been absent from service. Whenever a member elects to continue his contributions, the employer shall thereupon contribute an amount equal to what its employer contributions would have been had the member not been absent from service.

nated former subdivisions (1) through (3) as subdivisions (a) through (c); deleted "war or" after "department of" in subdivision (c); and made minor changes in phraseology, punctuation and style.

68-1605.1. Election to qualify military service for full credit. (1) A member with ten (10) years or more of state service qualified under this act may at any time prior to retirement make a written election with the board to qualify all or any portion of his active service in the armed forces of the United States for the purpose of calculating retirement benefits up to a maximum of five (5) years if he is not otherwise eligible to receive credit for this same service pursuant to section 68-1605. To qualify this service he must contribute to the retirement fund the amount determined by the board to be due based on his compensation and normal contribution rate as of his eleventh year and as many succeeding years as are required to qualify this service with interest from the date he becomes eligible for this benefit to the date he so contributes. He may not qualify more of this service than he has state service in excess of ten (10) years.

(2) If a member has retired from active duty in the armed forces of the United States with a normal service retirement benefit he may not qualify his military service under subsection (1) of this section; provided, however, that a member, who is serving or has served in the military reserves with the expectation of receiving a military service pension, may qualify his active military service under subsection (1) of this section if his active duty in the armed forces of the United States is not more than twenty-five per cent (25%) of the total sum of all years of military service including reserve and active duty time.

History: En. 68-1605.1 by Sec. 10, Ch. 323, L. 1973; amd. Sec. 2, Ch. 128, L. 1975.

Amendments

The 1975 amendment inserted the sub-

section (1) designation; substituted "qualified under this act" for "credited under this act" near the beginning of subsection (1); and added subsection (2).

68-1606. Absence due to illness or injury. (1) Time, not to exceed 5 years, during which a member is absent from service by reason of injury or illness determined within one (1) year after the end of such absence as arising out of and in the course of his employment shall be considered as spent in service for the purpose of qualification for retirement benefits or survivorship allowances, but not for the calculation of such benefits, unless the member complies with subsections (2) through (4) of this section, in which case the absence shall be considered as time spent in service for both the calculation and qualification of benefits.

(2) Any member absent because of an employment-related injury which entitles him to workers' compensation payments may contribute to the retirement system, upon his return to service, amounts equal to the contributions which would have been made by him to the system on the basis of his compensation at the commencement of his absence. Whenever a member elects to continue his contributions, the employer shall contribute an amount equal to what its employer contributions would have been had the member not been absent from service.

(3) A member must file with the board, within 6 months after he returns to service, a written notice of his intent to pay the contributions under subsection (2). The employer shall provide the employee with written notice of the provisions of this section which shall be signed by the employee and returned to the employer, who shall provide a copy to the board.

(4) Payment of the employee's contributions which are due because of the period of absence may be made in one sum at the time of filing the notice or on an installment basis not to exceed 24 monthly payments.

History: En. 68-1606 by Sec. 11, Ch. 323, L. 1973; amd. Sec. 1, Ch. 300, L. 1977.

Amendments

The 1977 amendment designated the former section as subsection (1); inserted "not to exceed 5 years" in subsection (1);

added "unless the member complies with subsections (2) through (4) of this section, in which case the absence shall be considered as time spent in service for both the calculation and qualification of benefits" to the end of subsection (1); and added subsections (2) through (5).

68-1607. Qualification of service with employer. (1) Subject to the provisions of this section, any person who has service with an employer which is not creditable service may convert all or a portion of such service to membership service by filing written notice thereof with the board. The person must pay to the retirement system the sum of the amount which he and his employer would have contributed during the period of service so converted if the employer had then been an employer and the interest which would have accumulated thereon to the time of such payment; provided, that the employer may pay the employer's portion including accrued interest. The employer must establish a policy as to the retroactive employer contributions and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination will be subject to the determination of the board. All successful appeals will obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing such appeal with the board. Each appeal will be heard on its individual merits and will not bind the employer to pay all retroactive payments for all former and present employees.

(2) A member may secure service credit not previously credited by submitting salary information certified by the member's employer or former employer to the board. The board will determine the eligibility of all service credit requests as prescribed in 68-1803.

(3) Payment may be made in one sum at the time of such filing or on an installment basis. Installment payments shall not exceed twenty-four (24) monthly payments. When the monthly payment, exceeds five percent (5%) of compensation in the initial month of payment, the board may allow smaller payments over a period to exceed twenty-four (24) months. Failure to make regular monthly payments in any month where the member receives his normal compensation shall thereafter, forfeit such person's right to make any further installment payments, unless permission is granted to do so by the board.

History: En. 68-1607 by Sec. 12, Ch. 323, L. 1973; amd. Sec. 2, Ch. 190, L. 1974; amd. Sec. 3, Ch. 128, L. 1975; amd. Sec. 1, Ch. 89, L. 1977.

Amendments

The 1974 amendment substituted the last three sentences for "except that failure to make installment payments of at least ten per cent (10%) of compensation in any payroll period thereafter shall forfeit such person's right to make any further installments"; and made minor changes in phraseology and punctuation.

The 1975 amendment divided the section into subsections; substituted "an employer" for "contracting employer" throughout

the section; added the last four sentences of subsection (1); added "unless permission is granted to do so by the board of administration" to the end of subsection (2); and made minor changes in phraseology, punctuation and style.

The 1977 amendment deleted "no later than July 1, 1975, provided that any such person who is not a member on July 1, 1974, may make such filing no later than one (1) year after subsequently becoming a member" from the end of the first sentence of subsection (1); inserted subsection (2); redesignated former subsection (2) as subsection (3); and made minor changes in phraseology and style.

68-1608. Qualification of prior service not previously credited. If a member otherwise has not less than 5 years of creditable service of which not less than 3 years have been as a contributing member of the retirement system, he shall be granted credit for any prior service not previously granted upon his filing written notice thereof with the board. Proper certification of the prior service must be certified by the employer and furnished by the member.

Compiler's Notes

This section was amended twice in 1977, once by Ch. 89 and once by Ch. 99. Since the amendments do not appear to conflict, the code commissioner has made a composite section embodying the changes made by both amendments.

Amendments

The 1975 amendment reduced the creditable service requirement from ten years to five years; and made a minor change in punctuation.

Chapter 89, Laws of 1977, deleted "no later than July 1, 1975, provided, that any such person who is not a member on July 1, 1974, may make such filing no later than one (1) year after subsequently becoming a member and further" after "board" in the middle of the first sentence; and substituted "certified by the employer and

furnished by the member" at the end of the second sentence for "furnished."

Chapter 99, Laws of 1977, inserted "If a member otherwise has not less than 5 years of creditable service of which not less than 3 years have been as a contributing member of the retirement system, he shall be granted" at the beginning of the section; deleted "shall be granted to a member" after "service not previously granted" near the middle of the first sentence; substituted "with the board no later than July 1, 1975, or within 1 year after becoming an employee, whichever is later" at the end of the first sentence for "with the board of administration no later than July 1, 1975, provided, that any such person who is not a member on July 1, 1974, may make such filing no later than one (1) year after subsequently becoming a member and further provided he otherwise has not less than five (5) years of creditable service of which not less than three (3) years have been as a contributing member of the retirement system"; and substituted "the prior" for "such" in the last sentence.

Any municipal corporation, county or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of said contracting employer, subject to the provisions of this act. The contract may include any provisions which are consistent with this act and necessary in the administration of the retirement system as it affects the contracting employer and its employees. The approval and termination of the contract shall be subject to the following provisions, in addition to the other provisions of this act.

(1) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract shall not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at such election shall include the summary of the retirement system as set forth in the resolution. The election shall be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract shall be by ordinance adopted by the affirmative vote of two-thirds ($\frac{2}{3}$) of the members of the legislative body, not less than twenty (20) days after the adoption of the resolution or by an ordinance adopted by a majority vote of the electorate of the contracting employer voting thereon.

(2) The contract shall specify that all employees of the contracting employer or such groups of employees as agreed to between the board and the contracting employer shall become members. The groups of employees to be included shall be by departments, duties, age or other similar classifications and not by individual employees. The board shall have the right to disapprove any classification into groups if in its opinion said classification affects adversely the interest of the retirement system. Membership in the retirement system shall be compulsory for all employees included under the contract.

(3) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

History: En. 68-1701 by Sec. 14, Ch. 323, L. 1973.

All active members of the local system shall become members of the retirement system and shall no longer be members of the local system. The pensions being paid to pensioners or annuitants of the local system on the effective date of the contract shall be continued and paid at their existing rates by the public employees' retirement system. The liability for such pensions shall be computed by the actuary and charged to the contracting employer. All cash and securities held by the local system shall be transferred to the retirement system as of the effective date of the contract and credited to the employer. The value of said securities shall be determined by the board.

The trustees or other administrative head of the local system as of the effective date of the contract shall certify the proportion, if any, of the funds of the system that represents the accumulated contributions of the active members, and the relative shares of the members as of that date. Such shares shall be charged to the employer and credited to the respective individual accounts of such members in the public employees' retirement system and administered as if said contributions had been made during membership in the retirement system. Any excess of employer credits over charges under this section will be offset, with interest, against future required employer contributions. Any excess of employer charges over credits under this section shall be payable by the contracting employer, with interest, on a monthly basis as specified in the contract.

History: En. 68-1703 by Sec. 16, Ch. 323, L. 1973.

The rate of taxation may be

in addition to the annual rate of taxation allowed by law to be levied by the contracting employer. Any person who is a member or beneficiary of the retirement system on account of the participation of the contracting employer shall have the right to maintain the appropriate action or proceeding to require performance of the duty imposed on the legislative body by this section.

DECISIONS UNDER FORMER LAW

Incapacity Not Result of Employment

District court improperly reversed decision of board which refused relator's claim for an occupational disability retirement allowance based upon job-related disability caused by adverse working conditions and granted relator ordinary disability retirement allowance since district

court substituted its judgment for that of board and since "disease" as used in former section 68-901, did not include "personality disorders, anxiety reactions, or difficulties in getting along with one's superiors or fellow workers." State ex rel. Bailey v. Grande, 154 M 437, 465 P 2d 334.

68-2102. Application for disability retirement allowance. The board shall grant a retirement allowance to any member who has fulfilled the eligibility requirements of section 68-2101 and duly filed the appropriate written application. An application may be filed on a member's behalf by the head of the office or department in which the member is or was last employed or by any other person on behalf of the member, or the board upon its own motion may make the application. Application must be made within four (4) full months after the member's discontinuance of service unless the member is disabled continuously from the date of discontinuance of service to the date of the application.

The retirement allowance payable to a member who has become disabled shall commence on the day following the member's last day of membership service.

History: En. 68-2102 by Sec. 35, Ch. 323, L. 1973.

68-2103. Allowance for duty-related disability. (1) The annual amount of retirement allowance payable to a member eligible for disability

retirement for duty-related reasons and granted prior to July 1, 1977, is 50% of his final compensation. However, the annual amount of retirement allowance is 25% of final compensation for any period during which the member has been awarded compensation by the workers' compensation division, whether such compensation is received in periodic payments or in a lump sum. The annual amount of retirement allowance reverts to 50% of final compensation at the end of such period.

(2) Any retired member receiving a retirement allowance on July 1, 1977, who has previously been granted a duty-related disability under provisions in effect on June 30, 1977, will be subject to the provisions of this section after July 1, 1977.

(a) an annuity which is the actuarial equivalent of his accumulated additional contributions on the day his retirement allowance commences;

(b) an annuity which is the actuarial equivalent of his accumulated normal contributions with normal interest to the day his retirement allowance commences;

(c) if, in the opinion of the board, the disability is not due to intemperance, willful misconduct or violation of law on the part of the member, a pension which is the greater of (i) or (ii) as follows:

(i) a pension which, together with the annuity provided under (b), shall make the retirement allowance equal to ninety percent (90%) of one-sixtieth of his final compensation multiplied by his years of creditable service;

(ii) a retirement allowance equal to twenty-five percent (25%) of his final compensation.

(2) Except as provided in 68-2301, if a member dies after retirement and has not elected an optional retirement allowance provided for in 68-2203, his beneficiary will be paid the excess, if any, of the member's accumulated contributions on the day his retirement allowance commenced over the total of the retirement allowance payments made to the retired member.

- 68-2203. Optional retirement allowance.
- 68-2204. Cancellation of retirement allowance upon re-employment.

68-2201. Medical examination of disability retiree—cancellation and reinstatement. (1) The board may, at its pleasure, require the recipient of a retirement allowance because of disability to undergo medical examination. The examination shall be made by a physician or surgeon appointed by the board, at the place of residence of the recipient or another place mutually agreed upon. Upon the basis of the examination, the board shall determine whether the recipient is unable, by reason of physical or mental incapacity, to perform either the duties of the position held by him when he was retired or the duties proposed to be assigned to him. If the board determines that the recipient is not incapacitated or if the recipient refuses to submit to medical examination, his retirement allowance shall be canceled.

(2) A person whose retirement allowance is canceled shall be reinstated to the position held by him immediately before his retirement or to a position in the same classification with duties within his capacity, if he had been an employee of the state or of the university. If he had been an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the retirement allowance has been canceled and that the former employee is eligible for reinstatement to duty. The fact that he was retired for disability may not prejudice any right to reinstatement to duty which he may have or claim to have.

(3) If a person whose retirement allowance is canceled is not reemployed in a position subject to the retirement system, his service is considered, for the purposes of 68-1905, to have been discontinued coincident with the commencement of his retirement allowance.

for "shall" in the last sentence of subsection (2); inserted "the commencement of" near the end of subsection (3); and made minor changes in phraseology, punctuation and style.

by him in that occupation, shall not exceed the amount of his monthly compensation at the time of his retirement.

68-2203. Optional retirement allowance. The optional retirement allowance is a reduced amount payable during the member's lifetime with a subsequent benefit as follows:

(a) option 1—a continuation of the reduced retirement allowance during the lifetime of his named contingent annuitant;

(b) option 2—a continuation of one-half of the reduced retirement allowance during the lifetime of his named contingent annuitant;

(c) option 3—such other actuarially equivalent benefit as may be approved by the board.

(2) Election of an optional retirement allowance must be by written application filed prior to the first payment of the regular retirement allowance.

(3) If either the member or his contingent annuitant dies before the member has received the first payment under option 1 or 2, the election of the option is automatically canceled.

(4) If a member dies after retirement and within 30 days from the date his election or changed election of an optional retirement allowance is received by the board, then the election is void and the death is considered as that of a member before retirement.

History: En. 68-2203 by Sec. 40, Ch. 323, L. 1973; amd. Sec. 5, Ch. 190, L. 1974; amd. Sec. 9, Ch. 99, L. 1977; amd. Sec. 6, Ch. 241, L. 1977; amd. Sec. 15, Ch. 332, L. 1977.

68-2204. Cancellation of retirement allowance upon re-employment.

(1) Any person receiving a retirement allowance who becomes an em-

ployee shall be considered reinstated from retirement and his retirement allowance shall be canceled. Upon subsequent retirement he shall be entitled to receive a recalculated benefit as provided in section 68-2003. Such recalculated benefit shall be based on his creditable service accumulated at the time of his previous retirement plus any creditable service accumulated subsequent to his re-employment. Except as otherwise expressly provided by law, he shall receive the benefit of provisions enacted subsequent to his initial retirement only if he accrues at least two (2) years of creditable service subsequent to his reinstatement and then only with respect to such creditable service.

(2) Any person receiving a service retirement allowance not as a beneficiary who is not eligible for membership may return to covered employment for a period not to exceed sixty (60) working days in any fiscal year. The retirement allowance of a retiree so employed will be reduced by any earnings in excess of the minimum wage per month on one dollar (\$1) for one dollar (\$1) basis.

If a contributor has served twenty (20) years of creditable service as a sheriff and has reached the age of fifty-five (55) years, he is granted the option and privilege of retiring and, in such case, his retirement allowance shall be the actuarial equivalent of his retirement allowance as otherwise accrued, based upon payment commencing when he would have completed twenty-five (25) years of creditable service, had he not retired.

History: En. 68-2611 by Sec. 11, Ch. 178, L. 1974.

68-2612. Service retirement allowance. The amount of any member's service retirement allowance shall be two per cent (2%) of his final salary for each year of creditable service up to a maximum of fifty per cent (50%) of final salary.

Total disability means a disability of permanent duration or of extended or uncertain duration. The determination shall be made by the board on the basis of competent medical advice.

(a) notify the board of his termination of eligibility and withdraw accumulated contributions standing to his credit at the time of his termination of eligibility, or

The member shall be paid the accumulated contributions standing to the member's credit at the time of termination of eligibility.

68-2616. Reinstatement after withdrawal of contributions. (1) A member may deposit in the retirement fund, in one sum or in no more than 12 monthly or 24 semimonthly payments, an amount equal to that which was withdrawn at the last termination of membership plus an amount equal to the interest which would have been credited to the account had the member not withdrawn the contributions upon termination of membership, subject to minimum monthly or semimonthly payments as fixed by the board.

(2) If a member who is reentering the retirement system after a termination of membership does not elect to make or does not make the redeposit, he must reenter as a new member without credit for any service except the prior service credited before the termination. If a member does make the redeposit, his membership is continuous and unbroken by the last termination.

(3) Regardless of whether the redeposit is made, the documents held by the retirement system, as executed by the member prior to termination of membership, shall be held by the system for the same purposes as prior to the termination, and beneficiaries nominated shall remain unchanged.

69-1502. (2713) Qualifications of boiler inspectors. No person is eligible to hold the office of inspector of boilers and steam engines who has not had at least ten years of actual experience in the operation of steam engines, steam boilers, and steam machinery, and who has not held for at least three (3) years immediately preceding his appointment a first-class stationary engineer's license of the state of Montana, or who is directly or indirectly interested in the manufacture or sale of boilers or steam machinery, or any patented article required to be sold relating thereto.

Amendments

The 1971 amendment reduced the stationary engineer's license requirement from five years to three years.

69-1503. (2714) **Inspection of boilers—boiler installations.** (1) The inspector of boilers must inspect all boilers and steam generators before the same are used, and all persons who bring into this state, for operation in this state, any boiler or boilers must notify the division stating the number and kind of boilers, and where they are to be located and operated in this state, and must secure from the division a certificate of inspection before boilers are placed in operation, except in the case of new boilers, which must be inspected within ninety (90) days after they are put in use, and all boilers must be inspected at least once in every year, except boilers exempt under provisions of section 69-1515. Upon written application, longer inspection intervals may be authorized by the division. Any owner, operator or user who opens a boiler or boilers between inspections for repair or other reasons must notify the division of such action and such boiler or boilers shall at the discretion of the division be inspected by the state or special boiler inspector before the boiler or boilers may be placed back in operation. Any person failing to give notice to the division as herein provided, or who operates such boilers without a certificate from the division, shall be punished by a fine of not less than one hundred dollars (\$100) nor more than five hundred dollars (\$500) for each offense, or by imprisonment in the county jail for not less than thirty (30) nor more than ninety (90) days, or by both such fine and imprisonment.

(2) When necessary, the boiler inspector shall subject boilers, **except** those exempted by 69-1515, to hydrostatic pressure, which hydrostatic pressure shall not exceed one hundred fifty per cent (150%) of the steam pressure allowed on the boilers, providing there are no such leaks on such boilers which prevent the inspector from applying such hydrostatic pressure. And the inspector must satisfy himself by a thorough interior and exterior examination that the boilers are well-made and of good and suitable material; that the openings for the passage of water and steam, respectively, and all pipes and tubes exposed to heat, are of the proper dimensions and free from obstructions; that the flues are circular in shape; that the fire line of the furnace is at least two (2) inches below prescribed minimum water line of the boilers; that the arrangements for delivering the feed water are such that the boilers cannot be injured thereby, and that such boilers and the steam connections may be safely employed without danger to life.

(3) New boiler installations. No boiler which does not conform to the rules adopted by the division governing new construction and installation shall be installed and operated in this state after twelve (12) months from the date upon which the first rules under this act pertaining to new construction and installation shall have become effective, unless the boiler is of special design or construction, and is not covered by the rules, nor is in any way inconsistent with such rules, in which case a special installation and operating permit may at its discretion be granted by the division.

places in subsection (1); deleted "where they had heretofore been located" following "number and kind of boilers" in the first sentence of subsection (1); inserted new second and third sentences in subsection (1); inserted "When necessary" at the beginning of subsection (2); increased the hydrostatic pressure testing requirement specified in the first sentence

of subsection (2) from 133 $\frac{1}{3}$ % to 150%; and made minor changes in phraseology.

The 1975 amendment substituted "division" for "board" throughout the section; substituted "rules adopted by the division" for "rules and regulations formulated by the committee" in subsection (3); deleted "and regulations" after "rules" throughout subsection (3); and made minor changes in phraseology.

69-1504. (2715) Inspection of boilers—further requirements in making inspection. (1) The inspector must satisfy himself that:

(a) the safety valves are of suitable relieving capacity ratings, sufficient in number and area, and properly arranged and are properly adjusted so as not to allow a greater pressure in a boiler than the amount prescribed by the inspection certificate;

(b) there are a sufficient number of gauge cocks properly inserted to indicate the amount of water and suitable gauges that will correctly record the pressure of steam; and

(c) adequate and certain provisions for an ample supply of water to feed the boiler at all times and suitable means for blowing out are provided so as to thoroughly remove mud and sediment from all parts of the boiler when it is under pressure of steam.

(2) A renter, user, or owner of a boiler or a person who tampers with the safety valve to allow the boiler to carry greater pressure than is allowed by the inspection certificate is guilty of a misdemeanor.

(3) If a boiler is constructed with lap horizontal seams on the boiler, dome, or drum, a factor of 4 $\frac{1}{2}$ shall be used in determining the safe working pressure allowed on the boiler. If a boiler is constructed with butt strap horizontal seams, a factor of four may be used in determining the safe working pressure. If a boiler rests on a side wall on lugs, is hung by I-beams, or is in any way set up so that the weight of the boiler is pulling against the horizontal seam of rivets, a factor of five must be used in determining the safe working pressure. If the horizontal lap seams of a boiler are exposed to the fire, a factor of five must be used in determining the safe working pressure. On new stay bolts, 7,500 pounds pressure per square inch is allowed. If the stay bolts are corroded or defective, the inspector must determine the pressure to be allowed on them. On braces made of solid material 8,000 pounds pressure per square inch is allowed. On welded braces or braces with only one crowfoot, 6,000 pounds pressure per square inch is allowed. No cast iron may be used in the construction or reinforcements of a boiler if the pressure allowed on the boiler is more than 100 pounds per square inch.

History: Ap. p. Sec. 555, Pol. C. 1895; re-en. Sec. 1644, Rev. C. 1907; amd. Sec. 6, Ch. 30, L. 1913; re-en. Sec. 2715, R. C. M. 1921; amd. Sec. 4, Ch. 225, L. 1971; amd. Sec. 9, Ch. 187, L. 1977.

Amendments

The 1971 amendment substituted "suitable relieving capacity ratings" for "suitable dimension" near the beginning of

subsection (1); substituted "safety valves are properly adjusted" for "safety-valve weights are properly adjusted" in subsection (1); deleted a second paragraph of subsection (1), for text of which see parent volume; and deleted from subsection (2) a third sentence reading "But in any case the inspector may use a higher factor if the conditions are such as to warrant it."

The 1977 amendment divided former subsection (1) into subsections (1) and (2); inserted subdivisions designations (1)(a) through (1)(c); redesignated for-

mer subsection (2) as subsection (3); and made minor changes in style, punctuation and phraseology.

69-1505. (2716) Inspection of boilers—material to be used. No boiler or steam pipe, nor any of the connections thereto, shall be approved which is made in whole or in part of bad material, or is unsafe from any cause. Nothing herein shall be construed to prevent the use of any boiler or steam generator which may not be constructed of riveted iron or steel plates, when the inspector has satisfactory evidence that such boiler or steam generator is equal in strength to and as safe from explosion as boilers of the best quality, constructed of iron or steel plates.

History: En. Sec. 556, Pol. C. 1895; re-en. Sec. 1645, Rev. C. 1907; re-en. Sec. 2716, R. C. M. 1921; amd. Sec. 5, Ch. 225, L. 1971.

Amendments

The 1971 amendment substituted "shall be approved" for "must be approved" in the first sentence.

69-1507. (2718) Duty of owner to permit inspection—division action—costs and expenses. It is the duty of the owners, engineers, or managers of steam or water boilers to allow the inspector free access to the same. In case the owner, operators, or manager of any boiler is notified by the inspector to have the boiler ready for inspection on a certain day, and fails to have such boiler ready for inspection at such time, the inspector shall notify the division to gain access to the boiler. Any person failing to immediately comply with division directed access to the boiler shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than one hundred dollars nor more than five hundred dollars, or by imprisonment in the county jail for not less than two months nor more than six months, or by both such fine and imprisonment. The owner, engineer or manager of any boiler who has refused access resulting in a division order must pay all transportation and hotel expenses of the inspector who makes the inspection directed by such order, in addition to the inspection fee provided by law. It shall be the duty of the engineer operating any boiler or boilers to assist the inspectors in their examination of the same, and point out any defects known to him in the boilers or machinery under his charge. Any engineer not complying with this section shall have his license revoked or suspended.

History: En. Sec. 558, Pol. C. 1895; re-en. Sec. 1647, Rev. C. 1907; amd. Sec. 7, Ch. 30, L. 1913; re-en. Sec. 2718, R. C. M. 1921; amd. Sec. 6, Ch. 225, L. 1971; amd. Sec. 27, Ch. 182, L. 1975.

Amendments

The 1971 amendment inserted "engineers" and the reference to water boilers in the first sentence; inserted "operators" in the second sentence; substituted "shall notify the board to gain access to said boiler" at the end of the second sentence for "shall at once seal up the firebox in such boiler, and such seal must not be removed from the firedoor without a written order from the inspector"; substituted "failing to immediately comply with board

directed access to said boiler" in the third sentence for "tampering with or removing said seal"; substituted "The owner, engineer or manager of any boiler who has refused access resulting in a board order must pay" at the beginning of the fourth sentence for "If the owner or manager of any boiler that has been so sealed desires to have the same inspected before the next regular visit of the inspector to the district where said boiler is situated, he must pay"; inserted "directed by such order" near the end of the fourth sentence; and made minor changes in phraseology.

The 1975 amendment substituted "division" for "board" throughout the section; and made minor changes in phraseology.

69-1508. (2719) Licenses required—penalty for operating without license. No person may be granted a license to operate steam or water boilers and steam machinery under the provisions of this article who has not met the qualifications for licensing, been found to be competent by examination to perform the duties of an engineer, and received a license so to act. A person who operates a boiler or steam engine without first obtaining a license is guilty of a misdemeanor and, upon conviction, shall be fined no less than \$50 or more than \$100 or be imprisoned in the county jail for any term not to exceed 60 days, or both.

Amendments

The 1971 amendment substituted "steam or water boilers and steam machinery" for "steam boilers or steam machinery" near the beginning of the first sentence; sub-

stituted "met the qualifications for licensing and found to be competent by examination" for "been examined by the inspector and found competent" in the first sentence; deleted "written or printed" before "license" near the end of the first sentence; deleted "steam" before "boiler" near the beginning of the second sentence; and made minor changes in phraseology.

The 1977 amendment made minor changes in style, punctuation and phraseology.

69-1509. (2720) Classification and licensing of engineers. (1) Engineers entrusted with the operation, care, and management of steam or water boilers and steam machinery, as specified in the preceding section, are divided into four classes, namely: first-class engineers, second-class engineers, third-class engineers, and low-pressure engineers.

(2) Licenses for the operation of steam or water boilers and steam machinery are divided into four classifications in accordance with the following schedule:

(a) First-class engineers are licensed to operate all classes, pressures, and temperatures of steam and water boilers and steam-driven machinery with the exception of traction and hoisting engines.

(b) Second-class engineers are licensed to operate steam boilers operating not in excess of 250 pounds per square inch gauge saturated steam pressure, water boilers operating not in excess of 375 pounds per square inch gauge pressure and 450 degrees F temperature, and steam-driven machinery not to exceed 100 horsepower per unit, with the exception of traction and hoisting engines.

(c) Third-class engineers are licensed to operate steam boilers operating not in excess of 100 pounds per square inch gauge saturated steam pressure and water boilers operating not in excess of 160 pounds per square inch gauge pressure and 350 degrees F temperature.

(d) Low-pressure engineers are licensed to operate steam boilers operating not in excess of 15 pounds per square inch gauge pressure and water boilers operating not in excess of 50 pounds per square inch gauge pressure and 250 degrees F temperature.

(3) Each applicant for an engineer's license must be physically and mentally capable of performing the required duties and meet the following minimum requirements for the class of engineer's license for which application is being made:

(a) An applicant for a low-pressure engineer's license must have at least 3 months' full-time experience in the operation of a boiler in this

classification, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler in this classification.

(b) An applicant for a third-class engineer's license must have at least 6 months' full-time experience in the operation of a boiler in this classification under an engineer holding a valid third-class or higher license, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler in this classification.

(c) An applicant for a second-class engineer's license must:

(i) have at least 2 years' full-time experience in the operation of a boiler and steam-driven machinery in this classification under an engineer holding a valid second-class or first-class license, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler and steam-driven machinery in this classification; or

(ii) hold a valid third-class engineer's license and have at least 1 year's full-time experience in the operation of a boiler and steam-driven machinery in this classification under an engineer holding a valid second-class or first-class license, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler and steam-driven machinery in this classification.

(d) An applicant for a first-class engineer's license must:

(i) have at least 3 years' full-time experience in the operation of a boiler and steam-driven machinery in this classification under an engineer holding a valid first-class license, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler and steam-driven machinery in this classification;

(ii) hold a valid second-class engineer's license and have at least 1 year's full-time experience in the operation of a boiler and steam-driven machinery in this classification under an engineer holding a valid first-class license, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler and steam-driven machinery in this classification; or

(iii) hold a valid third-class engineer's license and have at least 2 year's full-time experience in the operation of a boiler and steam-driven machinery in this classification under an engineer holding a valid first-class license, successfully passed a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a boiler and steam-driven machinery in this classification.

(4) Allowable exceptions or variances to the minimum requirements set out in subsection (3) of this section are as follows:

(a) An applicant for an engineer's license in any classification holding a valid license in that classification from another state having licensing requirements equal to or exceeding the minimum requirements set out in subsection (3) of this section, successfully passing a written examination

prescribed by the division, and found to be competent to operate a boiler and steam-driven machinery in that classification shall be granted a license in that classification.

(b) Operating experience in a classification accumulated in the United States military services or the merchant marine service satisfactory to the division may be accepted in lieu of the operating experience required for licensing of engineers in each of the license classifications.

(c) An applicant having training in the operation of steam or water boilers and steam machinery who has been certified as having satisfactorily completed a prescribed training course from a recognized vocational-technical training school or center or other division-approved institution or training program in the classification for which he is applying may, at the discretion of the division, be credited with a maximum of 6 months' experience toward a first, second, or third-class engineer's license.

(5) None of the licenses named in subsections (1) and (2) of this section entitle its holder to operate a traction engine. A person who is entrusted with the care and management of traction engines or boilers on wheels is required to pass an examination testing his competency to operate that class of machinery and procure a traction license. A traction license does not entitle its holder to operate any other class of steam machinery. An applicant for a traction engineer's license must have at least 6 months' full-time experience in the operation of steam traction engines, successfully pass a written examination prescribed by the division, have passed his 18th birthday, and be found to be competent to operate a traction engine. The division, at its discretion, may waive the experience requirement for operators of traction engines which are maintained and operated as a hobby for the restoration and show purposes of antique equipment.

Amendments

The 1977 amendment made minor changes in phraseology and punctuation.

69-3304. Surety bond required—amount—filing—proper plugging and restoration of surface—certificate of filing. A person, firm or corporation desiring to engage in such geophysical exploration, shall also file with the secretary of state a good and sufficient surety bond in the amount of ten thousand dollars (\$10,000.00) for a single such geophysical crew or a blanket surety bond in the amount of twenty-five thousand dollars (\$25,000.00) for all such geophysical crews operating within the state for such person, firm or corporation, which bond shall indemnify the owners of property within this state against such physical damages to such property as may arise as the result of such geophysical exploration. Unless otherwise agreed as between the owner of the surface and such person, firm, or corporation, it shall be the obligation of such person, firm, or corporation upon completion of exploration to plug all "shot holes" in such a manner as shall be specified by the board of oil and gas conservation to contain any water within its native strata by replacing all drill cuttings and filling the hole with bentonite mud or cement as required to contain the water and capping the same with an impervious material at least 1 foot in depth, the top of which shall be 4 feet below the surface of the land. The portion of the hole above the cap shall be filled with native material. The person, firm, or corporation shall also restore the surface around the same as near

as practicable to its original condition. The bond shall remain on file with the secretary of state so long as the exploration is carried on or engaged in, plus an additional 5 years thereafter; provided, however, that the aggregate liability of the surety shall, in no event, exceed the amount of said bond. Upon the filing of such bond, said secretary of state shall issue to the person, firm or corporation a certificate showing that such bond has been filed and showing the name of the designated resident agent within the state for service of process for such person, firm or corporation.

Sealing of Shot Holes

Sealing "shot" holes by pouring excess cuttings down them and plugging the orifice with an aluminum plug by forcing it down into the hole so that the top of the plug was below plow depth, was in compliance with this section when the holes were only four and one-half inches in diameter in view of expert testimony that seismographic holes tend to slough and cave, releasing lateral support from materials around the hole and that the pressure from the weight of the earth above has a tendency to force the material toward the center, sealing the hole. Haynie v. Northern Pacific Ry. Co., 158 M 247, 490 P 2d 715.

69-3305. Exploration permit. (1) Upon compliance with the provisions herein contained, namely the filing of a notice of intention to engage in the exploration and a certificate (or photostatic copy thereof) from the secretary of state certifying the name and address of the resident agent for service of process for the person, firm, or corporation desiring to engage in the exploration and certifying that the required surety bond has been filed with the secretary of state, the county clerk and recorder shall issue to the person, firm, or corporation a "geophysical exploration permit".

(2) The permit shall show:

(a) the name of the person, firm, or corporation and principal place of business;

(b) if a firm or corporation, the names and addresses of its officers;

(c) the name and address of the resident agent for service of process for the person, firm, or corporation;

(d) that a notice of intention to engage in geophysical exploration has been duly filed; and

(e) that a good and sufficient surety bond has been filed by the person, firm, or corporation, naming the surety company and giving its address.

(3) The permit shall be signed by the county clerk and recorder or his deputy and bear the official county seal. The permit shall be valid and effective for all geophysical crews of the permittee during the calendar year in which it is issued.

(4) The cost of the permit shall be \$5 per calendar year or any portion thereof for which issued, and the revenues realized therefrom shall go to the county so issuing. Such funds as are realized shall be applied toward payment of the cost of printing the permits, which shall be printed at the county seat, and excesses shall go into the county's general fund.

(5) If printed forms are not available at the time any person, firm, or corporation desires the permit and qualifies for its issuance, typewritten or other form of reproduction of the permit may be used, the fee of \$5 nevertheless shall be paid for its issuance, and this fee shall be disposed of in the same manner.

(6) The permit or a photostatic copy thereof shall be carried by the person or by the agent of the firm or corporation at all times during the period of the geophysical exploration and shall be exhibited upon demand of any county or state official.

Amendments

The 1973 amendment deleted "or vessel" following "motorboat" throughout the section; substituted "motor or engine of any description" for "machinery" in the first sentence; inserted "properly" near the end of the first sentence; and inserted references to display of license decals in the first and second sentences.

The 1975 amendment designated the

former section as subsection (1); deleted "of more than eight (8) horsepower" after "engine of any description" in the first sentence of subsection (1); and added subsection (2).

The 1977 amendment redesignated former clauses (1) and (2) of subsection (1) as subdivisions (1)(a) and (1)(b); and made minor changes in phraseology, punctuation and style.

69-3504. Identification number. (1) The owner of each motorboat requiring numbering by this state shall file an application for number in the office of the county treasurer where the motorboat is owned or taxable on forms prepared and furnished by the registrar of motor vehicles. The application shall be signed by the owner of the motorboat and shall be accompanied by a fee of \$1. Any alteration, change, or false statement contained in the application will render the certificate of number void. Upon receipt of the application in approved form, the county treasurer shall issue to the applicant a certificate of number prepared and furnished by the registrar of motor vehicles, stating the number awarded to the motorboat and the name and address of the owner. The number awarded must be painted on or attached to each outboard side of the forward half of the motorboat or, if there are no such sides, at a corresponding location on both outboard sides of the foredeck of the motorboat. The number awarded shall read from left to right, be in Arabic numerals, in block characters of good proportion at least 3 inches tall excluding border or trim, of a color that contrasts with the color of the background, and be so maintained as to be clearly visible and legible. The number may not be placed on the obscured underside of the flared bow where it cannot be easily seen from another vessel or ashore. No numerals, letters, or devices, other than those used in connection with the identifying number issued, may be placed in the proximity of the identifying number. No numerals, letters, or devices which might interfere with the ready identification of the motorboat by its identifying number may be carried as to interfere with the motorboat's identification. The certificate of number shall be pocket size and available to federal, state, or local law enforcement officers at all reasonable times for inspection on the motorboat whenever the motorboat is on waters of this state. Boat liveries are not required to have the certificate of number on board each motorboat, but a rental agreement must be carried on board livery motorboats in place of the certificate of number.

(2) Before filing the application with the county treasurer, the applicant shall submit it to the county assessor, who shall enter on the application, in a space to be provided for that purpose, the market value and taxable value of the motorboat for the year for which the application for registration is made.

(3) The applicant, upon the filing of the application, shall pay to the county treasurer the registration fee and the personal property taxes assessed against the motorboat or vessel for the current year of registration before the application for registration or reregistration may be accepted by the county treasurer.

(4) A dealer or manufacturer may apply directly to the registrar of motor vehicles for one identifying number and one or more certificates of number. A dealer's or manufacturer's identifying number shall be displayed on his boat while the boat is operating for a purpose related to the buying, selling, or exchanging of the boat by the dealer or manufacturer. The application for a dealer's or manufacturer's identifying number shall include his name and business address. Each dealer or manufacturer will have one identifying number assigned to his business. An application for dealer's or manufacturer's identifying number and certificate of number must be accompanied by the following fees:

(a) for the identifying number, first certificate of number, and set of license decals, \$5;

(b) for each additional certificate of number and set of license decals applied for in any application, \$2.

(5) The registrar of motor vehicles shall issue certificates of number for the identifying numbers awarded to a dealer or manufacturer in the same manner as provided in 69-3504(1), as amended, except that no boat shall be described in the certificate and each certificate shall state that the identifying number has been awarded to a dealer or manufacturer. A dealer's or manufacturer's certificate of number expires on April 30 of the year for which it is issued. A dealer's or manufacturer's identifying number shall be displayed in the same manner as provided in 69-3504(1), as amended, except that the number may be temporarily attached. The last three letters shall be "DLR" for dealer and "MFR" for manufacturer. These letters shall be included, respectively, in dealer or manufacturer identification numbers only. No person other than a dealer or manufacturer or an employee of a dealer or manufacturer may display or use a dealer's or manufacturer's identifying number. A dealer's or manufacturer's identifying number may be displayed only on motorboats owned by the dealer or manufacturer. No dealer or manufacturer or employee of a dealer or manufacturer may use a dealer's or manufacturer's identifying number for any purpose other than the purpose described in subsection (4) of this section.

(6) Should the ownership of a motorboat change, a new application form with fee shall be filed within a reasonable time with the county treasurer and a new certificate of number awarded in the same manner as provided for in an original award of number.

(7) If an agency of the United States government has in force a comprehensive system of identification numbering for motorboats in the United States, the numbering system employed pursuant to this act by the registrar of motor vehicles shall be in conformity.

(8) Every certificate of number and the license decals awarded under this act shall continue in effect for a period not to exceed 1 year unless sooner terminated or discontinued in accordance with the provisions of this act. Certificates of number and license decals shall show the date of expiration and may be renewed by the owner in the same manner provided for in the initial securing of the certificate.

(9) Certificates of number shall expire on April 30 of each year and may not be in effect unless renewed under this act.

(10) In event of transfer of ownership, the purchaser shall furnish the county treasurer notice within a reasonable time of the acquisition of all or any part of his interest, other than the creation of a security interest, in a motorboat numbered in this state or of the loss, theft, destruction, or abandonment of the motorboat. The transfer, loss, theft, destruction, or abandonment terminates the certificate of number for the motorboat. Recovery from theft or transfer of a part interest that does not affect the owner's right to operate the motorboat does not terminate the certificate of number.

(11) A holder of a certificate of number shall notify the county treasurer within reasonable time if his address no longer conforms to the address appearing on the certificate and furnish the county treasurer with his new address. The registrar of motor vehicles may provide by rule for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or the alteration of an outstanding certificate to show the new address of the holder.

(12) No number other than the number and license decal awarded to a motorboat or granted reciprocity under this act shall be painted, attached, or otherwise displayed on either side of the forward half of the motorboat.

(13) Fees collected under this section shall be transmitted to the state treasurer who shall deposit the fees in the motorboat certificate identification account of an earmarked revenue fund. These fees shall be used only for the administration and enforcement of 69-3501 through 69-3518, as amended.

(14) An owner of a motorboat must within a reasonable time notify the registrar of motor vehicles, giving the motorboat's identifying number and the owner's name when that motorboat becomes documented as a vessel of the United States or is transferred, lost, destroyed, abandoned, or frauded, or within 60 days after change of state of principal use.

(a) Delivery to the applicant or licensee of a written statement of the grounds for the denial or cancellation or the charge involved;

(b) An opportunity to answer at a hearing before the board to show cause, if any, why the license should not be denied or canceled. In this case, the licensee shall make written request to the board for a hearing within ten (10) days after notice of the grounds or charges has been received. If the board finds that the violations of this act do not constitute a danger to the public health and would produce a hardship without equal or greater benefit to the public, the board may grant an exception to the licensee for a period not to exceed one (1) year, during which time a license may not be denied the licensee nor may his license be canceled. Subsequent exceptions

may be granted the licensee, each for a period not to exceed one (1) year, and each after a hearing before the board.

(3) On cancellation of a license, the license certificate shall be returned to the department for destruction or deletion as the department may direct in its notice of cancellation.

(4) When the department furnishes evidence to the county attorney of a county in this state, the county attorney shall prosecute any person, firm, or corporation violating this act, or the rules adopted under this act.

69-3909.1. Powers of department. The department shall:

(1) Enforce orders issued by the board by appropriate administrative and judicial proceedings;

(2) Secure necessary scientific, technical, administrative, and operational service, including laboratory facilities, by contract or otherwise;

(3) Prepare and develop a comprehensive plan for the prevention, abatement, and control of air pollution in this state;

(4) Encourage voluntary co-operation by persons and affected groups to achieve the purposes of this act;

(5) Encourage local units of government to handle air pollution problems within their respective jurisdictions on a co-operative basis, and provide technical and consultative assistance for this. If local programs are financed with public funds, the department may contract with the local

government to share the cost of the program. However, the state share may not exceed thirty per cent (30%) of the total cost.

(6) Encourage and conduct studies, investigations, and research relating to air contamination and air pollution and their causes, effects, prevention, abatement, and control;

(7) Determine by means of field studies and sampling the degree of air contamination and air pollution in the state;

(9) Collect and disseminate information and conduct educational and training programs relating to air contamination and air pollution;

(10) Advise, consult, contract, and co-operate with other agencies of the state, local governments, industries, other states, interstate and interlocal agencies, the United States, and any interested persons or groups;

(11) Consult, on request, with any person proposing to construct, install or otherwise acquire an air contaminant source or device or system for the control thereof, concerning the efficacy of this device or system, or the air pollution problems which may be related to the source, device, or system. Nothing in this consultation relieves a person from compliance with this act, rules in force under it, or any other provision of law.

(12) Accept, receive, and administer grants or other funds or gifts from public or private agencies including the United States, for the purpose of carrying out this act. Funds received under this section shall be deposited in the state treasury to the account of the department.

History: En. 69-3909.1 by Sec. 18, Ch. 349, L. 1974.

69-3911. Permits. (1) The board may by rule prohibit the construction, installation, alteration, or use of a machine, equipment, device, or facility which it finds may directly or indirectly cause or contribute to air pollution or which is intended primarily to prevent or control the emission of air pollutants, unless a permit therefor has been obtained.

(2) Not later than 180 days before construction begins and not later than 120 days before installation, alteration, or use begins, the owner or operator shall file with the department the appropriate permit application on forms available from the department.

(3) The department may, for good cause shown, waive the provisions of subsection (2) or shorten the time required for filing the appropriate applications.

(4) The department shall require that applications for permits be accompanied by any plans, specifications, and other information it considers necessary.

(5) An application is not considered filed until the applicant has submitted all information and completed all application forms required by subsections (2), (3), and (4). However, if the department fails to notify the applicant in writing, within 30 days after the purported filing of an application, that the application is incomplete and fails to list the reasons

why the application is considered incomplete, the application is considered filed as of the date of the purported filing.

(6) The department shall provide for the issuance, suspension, revocation, and renewal of a permit issued under this section.

(7) Where an application for a permit requires the compilation of an environmental impact statement under the Montana Environmental Policy Act, the department shall notify the applicant in writing, within 180 days of the receipt of a filed application as defined in subsection (5), of the approval or denial of the application. However, where an application does not require the compilation of an environmental impact statement, the department shall notify the applicant in writing, within 60 days of the receipt of a filed application, as defined in subsection (5), of the approval or denial of the application.

(8) When the department approves or denies the application for a permit under this section, a person who is jointly or severally adversely affected by the department's decision may request, within 15 days after the department renders its decision, upon affidavit setting forth the grounds therefor, a hearing before the board. A hearing shall be held under the provisions of the Montana Administrative Procedure Act. The department's decision on the application is not final unless 15 days have elapsed and there is no request for a hearing under this section. The filing of a request for a hearing postpones the effective date of the department's decision until the conclusion of the hearing and issuance of a final decision by the board.

History: En. Sec. 8, Ch. 313, L. 1967; amd. Sec. 1, Ch. 185, L. 1975; amd. Sec. 4, Ch. 140, L. 1977.

The 1977 amendment deleted "or regulations" after "rule" near the beginning of subsection (1); deleted "Notwithstanding anything contained in subsection (2)" at the beginning of subsection (3); and made minor changes in phraseology, punctuation and style.

69-3912. Inspections. (1) The department may enter and inspect, at any reasonable time, any property, premises, or place, except a private residence, on or at which an air contaminant source is located or is being constructed or installed for the purpose of ascertaining the state of compliance with this act and rules in force under it.

(2) A person may not refuse entry or access to an authorized representative of the department who presents appropriate credentials when the department requests entry for purposes of inspection. A person may not obstruct, hamper, or interfere with an inspection.

(3) At his request, the owner or operator of the premises shall receive a report stating all facts found which relate to compliance status.

History: En. Sec. 9, Ch. 313, L. 1967; amd. Sec. 19, Ch. 349, L. 1974; amd. Sec. 5, Ch. 140, L. 1977.

The notice shall specify the provision of this act or rule alleged to be violated and the facts alleged to constitute a violation and may include an order to take necessary corrective action within a reasonable period of time stated in the order. The order becomes final unless, within 30 days after the notice is received, the person named requests in writing a hearing before the board. On receipt of the request, the board shall hold a hearing.

(2) If, after a hearing held under subsection (1) of this section, the board finds that violations have occurred, it shall either affirm or modify an order previously issued or issue an appropriate order for the prevention, abatement, or control of the emissions involved or for the taking of other corrective action it considers appropriate. If, after hearing on an order contained in a notice, the board finds that no violation is occurring, it shall rescind the order. An order issued as part of a notice or after a hearing may prescribe the date by which the violation shall cease and may prescribe time limits for particular action in preventing, abating, or controlling the emissions.

(3) Instead of issuing the order provided for in subsection (1), the department may either:

(a) require that the alleged violators appear before the board for a hearing at a time and place specified in the notice and answer the charges complained of; or

(b) initiate action under 69-3921 or 69-3921.1.

(4) This chapter does not prevent the board or department from making efforts to obtain voluntary compliance through warning, conference, or any other appropriate means.

(5) In connection with a hearing held under this section, the board may, and on application by a party shall, compel the attendance of witnesses and the production of evidence on behalf of the parties.

69-3915. Emergency procedure. (1) Any other law to the contrary notwithstanding, if the department finds that a generalized condition of air pollution exists and that it creates an emergency requiring immediate action to protect human health or safety, the department shall order persons causing or contributing to the air pollution to immediately reduce or discontinue the emission of air contaminants. Upon issuance of this order, the

department shall fix a place and time within 24 hours for a hearing to be held before the board. Within 24 hours after the commencement of the hearing, and without adjournment, the board shall affirm, modify, or set aside the order of the department.

(2) In the absence of a generalized condition such as that referred to in subsection (1), if the department finds that emissions from the operation of one or more air contaminant sources are causing imminent danger to human health or safety, it may order the person responsible for the operation in question to reduce or discontinue emissions immediately, without regard for 69-3914. In this event, the requirements for hearing and affirmance, modification, or setting aside of orders as provided in subsection (1) apply.

(3) This section does not limit any power which the governor or any other officer may have to declare an emergency and act on the basis of this declaration, whether the power is conferred by statute or constitutional provisions, or inheres in the office.

History: En. Sec. 12, Ch. 313, L. 1967; amd. Sec. 21, Ch. 349, L. 1974; amd. Sec. 7, Ch. 140, L. 1977.

Amendments

The 1974 amendment substituted references to "department" for references to "director" in subsections (1) and (2) and

made minor changes in phraseology and punctuation.

The 1977 amendment deleted "or persons" after "person" and "or operations" after "operation" near the end of the first sentence of subsection (2); and made minor changes in phraseology, punctuation and style.

69-3916. Variances—filing fees. (1) A person who owns or is in control of a plant, building, structure, process, or equipment may apply to the board for an exemption or partial exemption from rules governing the quality, nature, duration, or extent of emissions of air pollutants. The application shall be accompanied by such information and data as the board may require. The board may grant an exemption or partial exemption if it finds that:

(a) the emissions occurring or proposed to occur do not constitute a danger to public health or safety; and

(b) compliance with the rules from which exemption is sought would produce hardship without equal or greater benefits to the public.

(2) No exemption or partial exemption may be granted pursuant to this section except after public hearing on due notice and until the board has considered the relative interests of the applicant, other owners or property likely to be affected by the emissions, and the general public.

(3) No exemption or partial exemption pursuant to this section may be granted for a period to exceed 1 year, but the exemption or partial exemption may be renewed for like periods if no complaint is made to the board because of it or if, after the complaint has been made and duly considered at a public hearing held by the board on due notice, the board finds that renewal is justified. No renewal may be granted except on application therefor. An application shall be made at least 60 days before the expiration of the exemption or partial exemption. Immediately before application for renewal the applicant shall give public notice of his application in accordance with rules of the board. A renewal pursuant to this

subsection shall be on the same grounds and subject to the same limitations and requirements as provided in subsection (1).]

(4) An exemption, partial exemption, or renewal thereof is not a right of the applicant or holder thereof but shall be granted at the discretion of the board. However, a person adversely affected by an exemption, partial exemption, or renewal granted by the board may obtain judicial review thereof as provided by 69-3917.

(5) Nothing in this section and no exemption, partial exemption, or renewal granted pursuant to this section may be construed to prevent or limit the application of the emergency provisions and procedures of 69-3915 to a person or his property.

(6) A person who owns or is in control of a plant, building, structure, process, or equipment (hereinafter called a facility) who applies to the board for an exemption or partial exemption or a renewal of an exemption or partial exemption from a rule governing the quality, nature, duration, or extent of emissions of air pollutants shall submit with the application for variance a sum of not less than \$500 or 2% of the cost of the equipment to bring the facility into compliance with the rule for which a variance is sought, whichever is greater, but not to exceed \$80,000. The department shall prepare a statement of actual costs, and funds in excess of this shall be returned to the applicant. The person requesting the variance shall describe the facility in sufficient detail, with accompanying estimates of cost and verifying materials, to permit the department to determine with reasonable accuracy the sum of the fee. For a renewal of an exemption or partial exemption, if no public hearing, environmental impact statement, or appreciable investigation by the department is necessary, the minimum filing fee shall apply or the fee may be waived by the department. The filing fee shall be deposited in the earmarked revenue fund provided for in 79-410. It is the intent of the legislature that the revenues derived from the filing fees shall be used by the department:

(a) to compile the information required for rendering a decision on the request;

(b) to compile the information necessary for any environmental impact statements;

(c) to offset the costs of a public hearing, printing, or mailing; and

(d) to carry out its other responsibilities under this chapter.

History: En. Sec. 13, Ch. 313, L. 1967; amd. Sec. 1, Ch. 186, L. 1975; amd. Sec. 8, Ch. 140, L. 1977.

Amendments

The 1975 amendment added subsection (6); and made minor changes in style.

The 1977 amendment deleted "or regulations" after "rules" in three places; de-

leted the former third sentence of subsection (6) reading "The value of any fee in excess of five hundred dollars (\$500) shall be calculated by determining the cost of the equipment required to bring the facility into compliance with the rule(s) for which the variance is being sought"; and made minor changes in phraseology, punctuation and style.

69-3917. Hearings and judicial review. (1) No rule and no amendment or repeal thereof may take effect except after public hearing on due notice and after the advisory council has been given at least 30 days before publication of the proposed text to comment thereon. The notice

shall be given by public advertisement not less than 20 or more than 30 days before the date set for the public hearing.

(2) Nothing in this section may be construed to require a hearing before the issuance of an emergency order pursuant to 69-3915.

(3) A person aggrieved by an order of the board or local control authority may apply for rehearing upon one or more of the following grounds, and upon no other grounds:

(a) the board or local control authority acted without or in excess of its powers;

(b) the order was procured by fraud;

(c) the order is contrary to the evidence;

(4) (a) Within 30 days after the application for rehearing is denied or, if the application is granted, within 30 days after the decision on the rehearing, a party aggrieved thereby may appeal to the district court of the judicial district of the state which is the situs of property affected by the order.

(b) The appeal shall be taken by serving a written notice of appeal upon the chairman of the board, which service shall be made by the delivery of a copy of the notice to the chairman and by filing the original with the clerk of the court to which the appeal is taken. Immediately after service upon the board, the board shall certify to the district court the entire record and proceedings, including all testimony and evidence taken by the board. Immediately upon receiving the certified record, the district court shall fix a day for filing of briefs and hearing arguments on the cause, and shall cause a notice of the same to be served upon the board and the appellant.

(c) The court shall hear and decide the cause upon the record of the board. The court shall determine whether or not the board regularly pursued its authority, whether or not the findings of the board were supported by substantial competent evidence, and whether or not the board made errors of law prejudicial to the appellant.

69-3918. Confidentiality of records. (1) Records or other information concerning air contaminant sources which are furnished to or obtained by

the board or department are a matter of public record and open to public use. However, any information unique to the owner or operator of an air contaminant source which would, if disclosed, reveal methods or processes entitled to protection as trade secrets, shall be maintained as confidential if so determined by a court of competent jurisdiction. The owner or operator shall file a declaratory judgment action to establish the existence of a trade secret, if he wishes such information to enjoy confidential status. The department shall be served in any such action, and may intervene as a party therein. Any trade secrets not intended to be public when submitted to the board or department shall be submitted in writing and clearly marked as confidential. However, emission data shall never be considered confidential for the purposes of this section.

(2) This section does not prevent the use of records or information by the board or department in compiling or publishing analyses or summaries relating to the general condition of the outdoor atmosphere, if the analyses or summaries do not identify an owner or operator or reveal information made otherwise confidential by this section.

History: En. Sec. 15, Ch. 313, L. 1967; amd. Sec. 22, Ch. 349, L. 1974; amd. Sec. 1, Ch. 248, L. 1975.

Amendments

The 1974 amendment inserted "or department" after "board" in subsections (1) and (2) and made minor changes in phraseology and punctuation.

The 1975 amendment rewrote subsection (1) which read: "Records or other information concerning air contaminant sources

which are furnished to or obtained by the board or department, and which, as certified by the owner or operator, relate to production or sales figures or to processes or production unique to the owner or operator or which would tend to affect adversely his competitive position, are only for the confidential use of the board or department in the administration of this act, unless the owner expressly agrees to their publication or availability to the general public."

69-3919. Local air pollution control programs. (1) A municipality or county may establish a local air pollution control program on being petitioned by fifteen per cent (15%) of the qualified electors in its jurisdiction, and may thereafter administer in its jurisdiction the air pollution control program which:

(a) Provides by ordinance or local law for requirements compatible with, more stringent, or more extensive than those imposed by sections 69-3913, 69-3915 and 69-3916 and rules issued under these sections;

(b) Provides for the enforcement of these requirements by appropriate administrative and judicial process;

(c) Provides for administrative organization, staff, financial, and other resources necessary to effectively and efficiently carry out its program; and

(d) If the program is consistent with this act and is approved by the board after a public hearing conducted under section 69-3909.

(2) If the board finds that the location, character, or extent of particular concentrations of population, air contaminant sources, or geographic, topographic, or meteorological considerations, or any combination of these are such as to make impracticable the maintenance of appropriate levels of air quality without an areawide air pollution control program, the board may determine the boundaries within which the program is necessary and require it as the only acceptable alternative to direct state administration.

(3) If the board has reason to believe that an air pollution control program in force under this section is inadequate to prevent and control air pollution in the jurisdiction to which the program relates, or that the program is being administered in a manner inconsistent with this act, the board shall, on notice, conduct a hearing on the matter.

(4) If, after the hearing, the board determines that the program is inadequate to prevent and control air pollution in the jurisdiction to which it relates, or that it is not accomplishing the purposes of this act, it shall require that necessary corrective measures be taken within a reasonable time, not to exceed sixty (60) days.

(5) If the jurisdiction fails to take these measures within the time required, the department shall administer within such jurisdiction all of the provisions of this act. The department's control program supersedes all municipal or county air pollution laws, rules, ordinances, and requirements in the affected jurisdiction. The cost of the program shall be a charge on the municipality or county.

(6) If the board finds that the control of a particular class of air contaminant source because of its complexity or magnitude is beyond the reasonable capability of the local jurisdiction or may be more efficiently and economically performed at the state level, it may direct the department to assume and retain control over that class of air contaminant source. No charge may be assessed against the jurisdiction therefor. Findings made under this subsection may be either on the basis of the nature of the sources involved or on the basis of their relationship to the size of the communities in which they are located.

(7) A jurisdiction in which the department administers its air pollution control program under subsection (5) of this section may with the approval of the board establish or resume an air pollution control program which meets the requirements of subsection (1) of this section.

(8) A municipality or county may administer all or part of its air pollution control program in co-operation with one (1) or more municipalities or counties of this state or of other states.

History: En. Sec. 16, Ch. 313, L. 1967; "it may" in the first sentence of subsection (6); deleted a provision pertaining to the continuing jurisdiction of local air pollution control programs in operation on the effective date of the 1967 act; and made minor changes in phraseology and punctuation.

(2) A person who willfully violates section 69-3918 is guilty of an offense and subject to a fine not to exceed one thousand dollars (\$1000).

(3) Action under subsections (1) or (2) of this section are not a bar to enforcement of this act, or of rules or orders made under it, by injunction or other appropriate remedy. The department may institute and maintain in the name of the state any enforcement proceedings.

(4) This act does not abridge, limit, impair, create, enlarge, or otherwise affect substantively or procedurally the right of a person to damage or other relief on account of injury to persons or property and to maintain an action or other appropriate proceeding.

(5) Fines collected shall be deposited to the state general fund.

Upon request of the department, the attorney general or the county attorney of the county of violation shall petition the district court to impose, assess and recover the civil penalty. The civil penalty is in lieu of the criminal penalty provided for in section 69-3921.

If the department decides to issue a license pursuant to the provisions of this chapter, the department shall notify the local health officer in writing. A license issued by the department under this section shall not be valid until signed by the local health officer having jurisdiction in the county in which the solid waste management system will be operated. The local health officer shall, within 15 days after the department has notified the local health officer of its decision to issue a license under this chapter, make a final decision on whether the license will be validated. The local health officer may only refuse to validate a license issued under this chapter upon a finding that the requirements of this chapter and the rules implementing this chapter cannot be satisfied. more than \$500. Each day upon which a violation of this act occurs shall be considered a separate offense.

(2) A person who stores, treats, transports, or disposes of a hazardous waste in violation of this chapter, a rule adopted as authorized by this chapter, or an order issued as provided in this chapter is subject to a civil penalty of not more than \$25,000. (2) If, after a hearing held under subsection (1) of this section, the board finds that a violation has occurred, it shall either affirm or modify an order previously issued, or issue an appropriate order for the prevention, abatement, or control of the emissions involved or for the taking of other corrective action it considers appropriate. If, after hearing on an order contained in a notice, the board finds that no violation is occurring, it shall rescind the order. An order issued as part of a notice or after hearing may prescribe the date by which the violation shall cease and may prescribe time limits for particular action in preventing, abating, or controlling the pollutant.

(3) Instead of issuing the order provided for in subsection (1) of this section, the board may either:

(1) Any other law to the contrary notwithstanding, if the department finds that a generalized hazard at a work place exists and that it creates an emergency requiring immediate action to protect human health, the department shall order persons causing or contributing to the hazard to reduce or discontinue immediately the emissions creating the hazard. Upon issuance of this order, the department shall fix a place and time, not later than seventy-two (72) hours thereafter, for a hearing to be held before the board. Not more than twenty-four (24) hours after the commencement of the hearing, and without adjournment, the board shall affirm, modify, or set aside the order of the department.

(2) In the absence of a generalized condition as that referred to in subsection (1) of this section, if the department finds that emissions from an operation are causing imminent danger to human health, it may order the person responsible for the operation in question to reduce or discontinue emissions immediately, without regard to section 69-4215. In this event, the requirements for hearing and affirmance, modification, or setting aside of orders provided in section 69-4215 apply.

(3) This section does not limit any power which the governor or any other officer may have to declare an emergency and act on the basis of the declaration, whether the power is conferred by statute, constitutional provisions, or inheres in the office.

69-4217. Variances. (1) Any person who owns or is in control of any plant, building, structure process or equipment may apply to the board for an exemption or partial exemption from rules or regulations governing the quality, nature, duration, or extent of emissions of pollutants. The application shall be accompanied by such information and data as the board may require. The board may grant such exemption or partial exemption if it finds that:

(a) The emissions occurring or proposed to occur do not constitute an immediate danger to the health and safety of the worker.

(b) Compliance with the rules and regulations from which exemption is sought would produce hardship without equal or greater benefits to the worker.

(2) No exemption or partial exemption shall be granted pursuant to this section except after public hearing on due notice and until the board has considered the relative interests of the applicant, and the worker or workers involved.

(3) No exemption or partial exemption pursuant to this section shall be granted for a period to exceed one (1) year, but any such exemption or partial exemption may be renewed for like periods if no complaint is made to the board on account thereof or if, such complaint having been made and duly considered at a public hearing held by the board on due notice, the board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least sixty (60) days prior to the expiration of the exemption or partial exemption. Immediately prior to application for renewal the applicant shall give public notice of such application in accordance with rules and regulations of the board. Any renewal pursuant to this subsection shall be on the same grounds and subject to the same limitations and requirements as provided in subsection (a) of this section.

(4) An exemption, partial exemption or renewal thereof shall not be a right of the applicant or holder thereof but shall be in the discretion of the board. However, any person adversely affected by an exemption, partial exemption or renewal granted by the board may obtain judicial review thereof as provided by section 13 [69-4218] of this act.

(5) Nothing in this section and no exemption, partial exemption or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of section 11 [69-4216] of this act to any person or his property.

History: En. Sec. 12, Ch. 316, L. 1971.

69-4218. Hearings and judicial review. (1) No rule or amendment or repeal thereof shall take effect except after public hearing on due notice. Such notice shall be given by public advertisement not less than twenty (20) or more than thirty (30) days prior to the date set for the hearing.

(2) Nothing in this section requires a hearing prior to the issuance of an emergency order pursuant to section 69-4216.

(3) Any person aggrieved by any order of the board may apply for rehearing upon one (1) or more of the following grounds, and upon no other grounds:

(a) The board acted without or in excess of its powers.

(b) The order was procured by fraud.

(c) The order is contrary to the evidence.

(d) The applicant has discovered new evidence, material to him, which he could not, with reasonable diligence, have discovered and produced at the hearing.

(e) Competent evidence was excluded to the prejudice of the applicant. The petition must be in such form and filed in such time as the board shall prescribe.

(1) Records or other information concerning pollutants or operations which are furnished to or obtained by the board or department, and which, as certified by the owner or operator, relate to production or sales figures or to processes or production unique to the owner or operator or which would tend to affect adversely his competitive position, are only for the confidential use of the board or department in the administration of this act, unless the owner expressly agrees to their publication or availability to the general public.

(2) This section does not prevent the use of records or information by the board or department in compiling or publishing analyses or summaries relating to the general condition at the work place, if the analyses or summaries do not identify an owner or operator or reveal information made otherwise confidential by this section.

69-4508. Financing of local boards of health—appropriations—tax levies. (1) Local boards are financed by general fund appropriations, special levy appropriations, state and federal funds available, and contributions from school boards and other official and nonofficial agencies.

(2) Appropriations are made as follows:

(a) County boards are financed by an appropriation from the general fund of the county after approval of a budget in the way provided for other county offices and departments under Title 16, chapter 19.

(b) City boards are financed by an appropriation from the general fund of the city after approval of a budget in the way provided for other city offices and departments under Title 11, chapter 14.

(c) If a city-county board is created, it is financed by one of the following methods:

(i) The county commissioners and governing body of each participating city may mutually agree upon the division of expenses. The county's part of the total expenses is financed by an appropriation from the general fund of the county after approval of a budget in the way provided for other county offices and departments under Title 16, chapter 19. Each participating city's part of the total expenses is financed by an appropriation from the general fund of the city after approval of a budget in the way provided for other city offices and departments under Title 11, chapter 14. All moneys shall be deposited with the county treasurer who shall disburse them as county funds.

(ii) In first and second class counties, the county commissioners and governing body of each participating city may mutually agree upon the division of the expenses. The county's part of the total expenses is financed by a special levy of not more than 5 mills on the taxable valuation of all property outside the incorporated limits of each participating city after approval of a budget in the way provided for other county offices and departments under Title 16, chapter 19. If the 5-mill levy is not sufficient to fund the county's share, the county commissioners may supplement it with an appropriation from the county general fund. Each participating city's part of the total expenses is financed by a special levy of not more than 5 mills on the taxable valuation of all property within the incorporated limits of the city after approval of a budget in the way provided for other city offices and departments under Title 11, chapter 14. All moneys shall be deposited with the county treasurer who shall disburse them as county funds. The special levies authorized by this subsection are in addition to all other levies authorized by law.

(d) District boards are financed by appropriations from the general funds of each county in the district in proportion to the population in each

county. First and second class cities which elect to be included in the district contribute to the county in which they are located in the way provided for city-county boards under subsection (2)(c) of this section. All funds shall be deposited with the county treasurer of one of the counties as agreed upon by the commissioners of the counties in the district. The county treasurer shall disburse the funds as county funds.

(3) School boards and other official and nonofficial agencies may contribute funds to a local board.

(4) If the general fund of a city or county is not sufficient to meet the approved budget, a levy of not more than 1 mill may be made on the taxable valuation of all property in the city or county in addition to all other levies authorized by law. This subsection does not apply when the board has been financed under subsection (2)(c)(ii) of this section.

"Natural" refers to conditions or material present from runoff or percolation over which man has no control or from developed land where all reasonable land, soil and water conservation practices have been applied. Conditions resulting from the reasonable operation of dams at the effective date of this act are "natural."

History: En. Sec. 121, Ch. 197, L. 1967; amd. Sec. 1, Ch. 21, L. 1971; amd. Sec. 1, Ch. 455, L. 1975.

Amendments

The 1971 amendment substituted the second and third sentences of subsection (2) for "However, municipal or industrial

pollution upstream shall not be considered natural."

(2) "Industrial waste" means any waste substance from the process of business or industry, or from the development of any natural resource together with any sewage that may be present.

(3) "Other wastes" means garbage, municipal refuse, decayed wood, sawdust, shavings, bark, lime, sand, ashes, offal, night soil, oil, grease, tar, heat, chemicals, dead animals, sediment, wrecked or discarded equipment, radioactive materials, solid waste, and all other substances that may pollute state waters.

A discharge, seepage, drainage, infiltration or flow which is authorized under the pollution discharge permit rules of the board is not "pollution" under this chapter.

(15) "Point source" means any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, or vessel or other floating craft, from which pollutants are or may be discharged.

(16) "Owner or operator" means any person who owns, leases, operates, controls or supervises a point source.

(17) "Standard of performance" means a standard adopted by the board for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

(18) "Effluent standard" means any restriction or prohibition on quantities, rates and concentrations of chemical, physical, biological and other constituents which are discharged into state waters.

Upon petition by the holder of the permit, the board shall grant the holder a hearing, to be conducted in the manner specified in section 13 [69-4820] of this act and shall issue an order affirming, modifying, or reversing the action of the department. (a) Establish and modify the classification of all waters in accordance with their present and future most beneficial uses.

(b) Formulate standards of water purity and classification of water according to its most beneficial uses, giving consideration to the economics of waste treatment and prevention.

(c) Review from time to time, at intervals of not more than three (3) years, established classifications of waters and standards of water purity and classification as follows:

(i) In revising classifications or standards or in adopting new classifications or standards the board may not so formulate standards of water purity or classify any state water as to lower any water quality standard applicable to any state water below the level applicable under the classifications and standards adopted except upon a finding that a particular state water has been classified under a standard or classification of water quality that is higher than the actual water quality that existed at the time of classification and only if the action is taken pursuant to 69-4814.

(ii) The board shall require that any state waters, whose existing quality is higher than the established water quality standards, be maintained at that high quality unless it has been affirmatively demonstrated to the board that a change is justifiable as a result of necessary economic or social development and will not preclude present and anticipated use of these waters; and

(iii) The board shall require any industrial, public, or private project or development, which would constitute a new source of pollution or an increased source of pollution to high quality waters, referred to in subsection (1)(c)(ii), to provide the degree of waste treatment necessary to maintain that existing high water quality.

(d) Adopt rules governing application for permits to discharge sewage, industrial wastes, or other wastes into state waters including rules requiring the filing of plans and specifications relating to the construction, modification, or operation of disposal systems.

(e) Adopt rules governing the issuance, denial, modification, or revocation of permits as follows:

(i) The rules shall allow the issuance or continuance of a permit only if the department finds that operation consistent with the limitations of the permit will not result in pollution of any state waters, except that:

(ii) The rules may allow the issuance of a temporary permit under which pollution may result, if the department insures that such permit contains a compliance schedule designed to meet all applicable effluent standards and water quality standards in the shortest reasonable period of time.

(iii) The rules shall provide that the department may revoke a permit if the department finds that the holder of the permit has violated its terms, unless the department also finds that the violation was accidental and unforeseeable and that the holder of the permit corrected the condition resulting in the violation as soon as was reasonably possible; and

(f) Hold hearings necessary for the proper administration of this chapter or, in the case of permit issuance hearings, delegate this function to the department.

(g) Adopt rules for the administration of this chapter.

(h) Adopt pretreatment standards for waste-water discharged into a municipal disposal system, adopt effluent standards as defined in section 69-4802(18), adopt toxic effluent standards and prohibitions, and establish standards of performance for new point source discharges.

(2) The board may:

(a) accept loans and grants from the federal government and other sources to carry out the provisions of this chapter; and

Title of Act

An act designating the department of health and environmental sciences as the agency to administer state funds to be

The department of health and environmental sciences may determine whether the payment required of the industrial user for the portion of the cost of the construction of the treatment works is properly allocable to the treatment of the industrial user's wastes.

(3) A municipality or other entities operating a sewage system may retain the amounts of the revenues derived from the payment of costs by industrial users of its treatment works services and expend such revenues, together with interest thereon, for:

(a) repayment to applicable agencies of government of any grants or loans made to the municipality or other entities operating a sewage system for construction of the treatment works; and

(b) future expansion and reconstruction of the treatment works; and

(c) other municipal purposes.

(4) A municipality or other entities operating sewage systems shall keep records, financial statements and books regarding its rates and charges and amounts collected on account of its treatment works and how such revenues are allocated. The department may inspect such records, financial statements and books, audit them, or cause them to be audited, at such intervals as deemed necessary.

(5) In the event a municipality or other entities operating sewage systems fails, neglects or refuses when required by the department to adopt the system of charges and rates authorized by this section, the board may adopt a system of charges and rates as provided for in subsection (1) of this section and collect, administer and apply such revenues for the purposes of subsection (3) of this section.

(6) In lieu of proceeding in the manner set forth in subsection (5) of this section, the department may institute proceedings at law or in equity to enforce compliance with, or restrain violations of this section.
